

VICTORIA COLLEGE, COBOURG, C.W.

VICTORIA COLLEGE.

This cut is a very good representation of the buildings and fore-grounds of Victoria College, at Cobourg. This Institution is beautifully situated on a rising ground in rear of the town, and commanding a fine view of Lake On-

tario. The buildings were completed in the year 1836, at a cost of about eight thousand pounds, raised by the voluntary offerings of the Methodists and their friends in Upper Canada.—The land upon which the building stands was given by Mr. Geo. B. Spen-
