124 MAIN STREET,

CHICOPEE FALLS, MASS.

not been large, but enquiries indicate that manufacturers could use new stocks. In the country, much of the buying is over. Prices are higher than last year, though it is still claimed that wool in many cases is relatively lower at seaboard than in the country. In carpet wools, the situation from the standpoint of the dealers is still serious. Wools in the primary market abroad are reported as held at abnormally high prices, and even at these are hard to get, so that prices are, on the whole, somewhat stiff.

At Minneapolis there is considerable activity. Wool is in good request and prices are gradually advancing. Minnesota wool commands as high as 18c. and a sale is reported at 18½c. Receipts of wool in the individual houses are regarded by some as below normal, because of the multitude of buyers who are dividing up the clip. The condition of wool this season is generally very light and bright, except in some sections where the dry weather made the wool dingy. Dealers are selling all grades of medium and coarse flat, rejects being only fine and very dingy, broken and black wools. This leaves the piles of fine and fine medium very attractive.

Manitoba fleece wool is bringing 7c. per lb. laid down at Winnipeg. Buyers are now operating in Territorial wool, for which prices have not been mentioned.

At Montreal the market for wool is dull and prices unchanged. Manufacturers are waiting to see what the Colonial Wool Sales will do. We expect an advance of 5 to 7½c. on all fine wools. We quote, Capes, 17½c. to 18½c.; B. A. Washed Merinos, 37½c. to 42c.; fine medium, 32c. to 36c.; scoured, 40c. to 50c., according to quality.

At Toronto there is quite a movement of new wool and the market is distinctly strong. Quotations are: combing fleece, 16c.; clothing, 7c.; rejections, 12c.; unwashed, coarse, 9c.; do fine, 10c.
