

# your child

You note the difference in children. Some have nearly every ailment, even with the best of care. Others far more exposed pass through unharmed. Weak children will have continuous colds in winter, poor digestion in summer. They are without power to resist disease, they have no reserve strength. **Scott's Emulsion** of cod-liver oil, with hypophosphites, is cod-liver oil partly digested and adapted to the weaker digestions of children.

**THE UNIVERSITIES OF CANADA.** Their history and organization. With an outline of the British and American University system. Appendix to the Report of the Minister of Education, 1896.

The above reproduction of the contents of the title-page of this well-printed and neatly bound volume of 440 pages sufficiently indicates the aim and scope of the work. Part I., dealing with the Universities of Canada, occupies more than 200 pages of the volume, and is interesting as well as instructive reading for all Canadians who wish to acquaint themselves with the history of the leading educational institutions of their own country. The sketch of the foundation and the development of our own Ontario educational institutions gives evidence of careful preparation and accurate knowledge. No doubt, equal care has been taken with regard to all other Canadian universities. The Outline of the British and American University Systems will also be very useful to those who desire, in small space, a comprehensive sketch of those systems. This work, which should have been noticed more promptly in our columns, will be found very useful to teachers, who wish, as every intelligent teacher must wish, to know something of the history of the leading universities, not only of Canada, but of the English-speaking world.

The *Atlantic Monthly* for September contains two articles that suggest and (in a sense) contain the most eventful chapter in modern history. One is "The Story of Uncle Tom's Cabin," by Charles Dudley Warner, who tells the unprecedented history of this book; and the other is "The Awakening of the Negro," by Booker T. Washington, the colored founder and president of Tuskegee Institute in Alabama.

Author of "The Indians of Canada," "James Evans, Inventor of the Cree Syllabic System," etc.

Cloth, illustrated, \$2.50.

CONTENTS: Some Queer Folk—In the Lodges—Church and Camp—Native Heroes—Native Religions—Races and Languages—On the Trail.

REV. DR. WITHROW writes in *Onward*: "This is, we believe, the largest and most important book on the native races of Canada that has yet been published. It is the result of the careful and thorough study of many years. During his missionary life among Indian tribes, and by subsequent investigation, Dr. Maclean has familiarized himself with the languages, traditions, religions, manners and customs of the Canadian aborigines. His previous volume on the Indians of Canada is a demonstration of his qualifications for treating the records of our native races. This book will be a permanent authority on this subject."
