St. Thomas', New London, Dec. 25th, 1880.

On Christmas afternoon the service was held at Irish Town Church. The congregation was large and attentive, and we feel sure that the Church in Irish Town will not be behind their brethren of New London in making the necessary repairs to their Church.

**HOME NEWS.**

The Hon. Thomas Moss, Chief Justice of the Ontario Court of Appeal, is dead.

The Bank of Prince Edward Island has declared a dividend at the rate of 8 per cent. per annum.

The probability is that E. T. Brooks, M.P. for Sherbrooke will succeed Judge Dunkin on the Bench, of Quebec.

Ottawa, Jan. 12.—The new French Canadian Lumber Company are to erect a new mill at Hull which will employ some two hundred hands.

We are informed that albertite has been discovered in Albert County—back of Elgin, and about half way between that place and Alua.—*Globe.*

Advices from Boone Bay, Newfoundland, are to the effect that herring have recently struck there in great numbers, and vessels will have no difficulty in loading.

Mr. Joshua Peters, of this town, has received the contract for L. C. R. fencing between Point du Chêne and Pénobscot. The contract includes nearly 3000 rods.—*Moncton Times.*

Montreal, Jan. 9.—The ice bridge railway is running to-day, a diminutive locomotive having been obtained for it. The present severe weather is favorable to the company's operations.

The *Anherst Sentinel* says.—“The improved price of deals has given a decided impetus to lumbering this winter. Those engaged in the business are getting their men and teams into the woods, and the probabilities are that a large quantity will be got out.”

Montreal, Jan. 9.—The Montreal Telegraph Company has issued its annual report. It shows revenue for 1880 to have been \$550,840, and expenditure \$358,679, a profit of \$192,163; revenue includes a profit of \$50,000 from the sale of telephone interest.

A few weeks ago we stated that Messrs James Harris & Co. had secured the patent right for the Dominion of a new system of car wheel manufacture, and intended sending Mr. James Allen and Mr. Jared Green (foreman of the moulding shop) to the States to learn the different processes through the wheel passed before it was fit to use. Those gentlemen returned to St. John on Saturday night last, and active preparations are being made to commence in the industry at once. The new system, it is claimed, is much cheaper and better than the old, and has the special advantage that the wheel can be turned over after it has worn down.—*Moncton Times.*

Ottawa Jan. 8.—For some days past there has been talk in the lobbies that a new Syndicate of eminent capitalists was being formed for the purpose of making a more advantageous offer to the Government to build the Pacific Railway. It is now stated the report is correct. The new Syndicate is composed of Sir W. P. Howland, Herbert H. Cook, Allan Gilmour, Hon. Wm. McMaster, Col. Walker and Mulholland. They will offer to build the

road for twenty million dollars and twenty million acres, with no exemption for taxation or duty. The news has created a great sensation here, and there is speculation as to what course the Government will adopt on receiving the offer.

Ottawa, Jan. 7.—In the house to-day after routine, Sir John Macdonald moved that from and after to-day, the P. R. debate should go on day by day until concluded, urging the importance of proceeding as rapidly as possible on account of immigration. He pointed out that it would be unsatisfactory to have one system of immigration pursued by the Government and another by the Synodicate. Blake entered his protest against the motion, complaining that sufficient time would not be given for discussion in and out of Parliament. The debate was resumed by Coursel in French, followed by Charlton, Patterson (Essex) and Rinfort. Longley (Annapolis) moved an adjournment of the debate and the House adjourned at midnight.

**BOOK NOTICES, &c.**

**ENDYMION—By the Earl of Beaconsfield.**—“Have you read Endymion?” Yes, I have, and think it very like the author, a great puzzle. And the key or keys don't help it. Endymion was the son of a Privy Counsellor, and married a nobleman's widow. The key says he is the author's self. But Benj. D'Iarneli was the son of old Isaac D's, and married a commoner's widow. The key says the history ends in 1850, and in 1850 there was no Cardinal Manning, albeit, the key says he is meant by Nigel Peursedock. The Neuchatels says the key says the Rothschilds, and yet the book says nothing of the Neuchatels being Jews—they might as well be the Hope family as the Jewels, and the name of “Adrien” might indicate. And Lady Roehampton, as Lady Palmerston, is the greatest puzzle of all, for Lord Palmerston married the widow of Earl Cowper, and she outlived him, and certainly never married Prince Florestan, alias Napoleon III., who, it is well known, married the daughter of a Spanish Countess, born of Scotch parents, rejoicing in the Churchy-sounding name of Kirk-Patrick.

Then from a Church point of view. The author knows, or affects to know, so little of Church matters that he makes one of his characters say that the Roman Church admits the validity of our orders, their “inner consciousness” convinced by the inexorable logic of facts doubtless must do this; but practically they re-ordain all foolish parverts. Another character of Lord Beaconsfield is made to say, “all wise men are of the same religion, and that what this is ‘wise men never

tell.” If they did tell probably those wise men would be found to be followers of Gaillo. And here is the lamentable part of the whole matter. Such men appoint bishops and have the Crown patronage, as well as their own at their disposal. And what is the alternative, a man who knows better and does worse, writes in favor of establishing and endowment, and dis-establishes and dis-endows, goes to Church faithfully, and reads the lessons from God's word, (so declared by the Church,) and sells the interest of the Church for the support of a Bright or Bradlaugh, and in consequence there is at the helm of the Church one who undertakes by imperial authority alone to steer her without regard to compass, chart, or sailing orders as Pontiff Pilot.

**THE Living Church of Chicago** comes out with a handsome wood cut on its first page, and a supplement. It is, to our mind, the brightest and the best of the American Church papers. The **CHURCH GUARDIAN** wishes it and all its exchanges a prosperous year.

**A LADY'S WISH.**

“Oh how I do wish my skin was as clear and soft as yours,” said a lady to her friend. “You can easily make it so,” answered the friend. How? “By using Hop Bitters, that makes pure rich blood and blooming health. It does it for me, as you observe.”

**WHOLESALE DRUGGISTS,**

**Spice Merchants,**

HALIFAX,

Invite the attention of readers of the Church Guardian to the

**UNRIVALLED EXCELLENCE**

of the Spices ground and sold by them. For more than Twenty-Five years, our House has made

**PURE SPICES**

A specialty.

Having been Pioneers in introducing and advocating their use in place of the MINERAL TRANSI very commonly sold in these Provinces as Ground Spices. We were the FIRST, and for many years the ONLY packers of really Genuine Ground Spices in Halifax, and with little or no advertising Avery, Brown & Co's

**UNADULTERATED GROUND SPICES**

have come to be recognized in most parts of Nova Scotia as THE BEST.

The result has been the gradual creation of a demand for better Spices, and other packers and dealers have been forced to meet this growing improvement in popular taste by furnishing better goods than formerly.

Still while most grinders profess to supply Pure Spices, they also send out several inferior grades, thus admitting that they practice adulteration. The recent reports of the analysis of Spices and Foods, by the Inspectors appointed by the Dominion Government have thrown fresh light upon the enormous extent of the adulteration practiced upon Spices. Reference to these reports will show that

**BROWN & WEBB'S SPICES**

have invariably stood the test, and been reported

**Absolutely Pure Spice.**

The only excuse for the adulteration of Spices is that the price is thus reduced; but this really only benefits the dealer at the expense of the consumer. In reality as the value of Spices depends only on its Strength and Flavor

**The Best is Always the Cheapest.**

Our sale of Pure Spices has increased to a very gratifying extent, and as we purchase the whole Spices in large quantities in the best markets of the world, we are enabled to offer our Genuine Spices at little, if anything, higher prices than are demanded for inferior goods of other brands. Do it under stood, however, that we will never sacrifice the QUALITY of our goods to the rage for CHEAPNESS, but will always maintain the standard of purity which has given our brand of Ground Spice the preference wherever it is known.

Our Spices are ground by Steam Power, On Our Own Premises, packed in tinful packets of 2-ounce and quarter pound FULL WEIGHT, and labelled with OUR NAME. They may be had at all the leading retail grocers throughout the Maritime Provinces. We request the favor of a TRIAL of them by any who have not already used them. Convinced that their own merits will secure their continuous use.
