The business is beinning to assume something like form and shape. I have inquiries from all directions, and often great distances, in regard to the nature of the Cups. Wherever I go with them, they create intense excitement. But a few words are necessary to enlist an attentive audience anywhere the people can be found. I was at our fair last Tuesday, 27th inst., and I can safely say that I myself, or rather the Eye Cups, were no mean portion of the attactions of the occasion. I sold and effected futuresales liberally. They will make money, and make it fast, too. No small catch-penny affair, but a superb, No. 1, tip-top business, that promises, so far as I can see, to be life-long.

I am, very truly yours, HORACE B. DURANT, M.D.

FENTON, MICH., July 17, 1871. DR. J. BALL & Co .- Gentlemen :- It is with pleasure that I am able to inform you of my success with the Patent Eye Cups. I have been slow in my operations, but work on a sure plan. People are afraid of been humbugged, but I have convinced them of reality. The Patent Eye Cups are a perfect success. They have restored my son's Eye Sight who was blind in his right Eye since he was a lad, the obtic nerve was injured; after applying your Patent a few times he can read with that eye unassisted. He can shoot as many birds from the cherry tree, with his right eye that was blind, as any other person.

I have applied the Patent Eye Cups, with Myopic attachments, to two persons eyes who are Near Sighted; their sight is improving at an astonishing

After wearing glasses for 19 years, for reading and writing, I can now see to read any print in your pamplate without my spectacles. I can, therefore, accommend the Patent Eye Cups.

CHICRESTER, Sussex Co., England, Dec. 15, 1871. DR. J. BALL & Co.-Gentlemen, -On the reception of the Patent Ivory Eye Cups, on the first application, I found benefit, and now, I am happy to say unlesitatingly, from my own practical experience, that in my opinion the result produced through using your Patent Ivory Eye Cups is one of the greatest boons that ever God bestowed or man re-

teired (Spiritual Eye Sight excepted).

Over 12 years I have worn specks, and to my own wonderment, I can read Newspaper print, and I am writing this letter without my spectacles.

I cease to wonder at once why people are so antions for them, now I have tried them myself, and proved them with an ocular demonstration. They are simple in construction, and could not possibly, Ithink, be more suitably adapted for the Eyes, besides being Harmless, Painless and Pleasant. I speak with all due deference of the Faculty, but at the same time, I cannot divest myself of the fact that the present treatment, in the cases of Myopia, or Near Sightedness, Dimness of Vision, Cataract, Partial or Total Blindness, is a failure in ninetoen cases out of every twenty when they resort to the knife, and am sorry to say I know cases that have ended in total blindness, which cannot possibly occur in using the "Patent Ivory Eye Cups."

And now in conclusion, I beg to return you my sincere thanks for the inexpressible benefit received y using your Patent Ivory Eye Cups.

Yours faithfully, REV. J. FLETCHER.

Canboro, C. W., June 13th, 1871.

Da. J. Ball & Co .- Gentlemen :- It has been a long time since I wrote to you. I have waited to see what effect the Patent Eye Cups that you sent me last January would have upon my eyes. I can truly say the effect produced upon my eyes is truly astonishing. Before using the Eye Cups, a printed sheet was like a dirty blank paper to my naked eyes, but now I can see to read without glasses any print with apparent ease. The glasses I was compelled to use before I spplied the Eye Cups were of the greatest magnifyag power to enable me to read or write, but now I have laid them aside and can read diamond print, and write without them. My sight is restored as in

A young lady, the daughter of my tenant, which I have on my place, was affected very badly with near-sightedness, brought on by inflammation. She came to me to have the Eye Cups applied to her tyes, and, strange to say, after a few applications, (for reading) the book was removed from six inches focus to nine inches focus, and she can see objects at a distance distinctly, a thing she could not do

Gentlemen: This is to certify that, having been afflicted with sore eyes for several years, to such an extent that my sight was almost gone-could not see to walk about—having tried almost everything known in the Materia Medica, I was constrained to try Dr. Ball's celebrated Eye Cups, with happy results. My eyes are entirely cured, and my sight is ully restored. After such results, one of my neighbors, who had been entirely blind for three years, commenced using the Eye Cups, and now he can see to do any kind of work, and is restored to his full eye-sight. To those suffering from such afflictions, try Dr. J. Ball & Co.'s Eye Cups, and you will never regret the cost. Yours respectfully,

DEMORESTVILLE, C.W., Feb. 2, 1872.

Dr. J. Ball & Co. Gentlemen: When I obtained your Patent Eye Cups from you I was suffering very much from inflammation, dinness of vision, and weak eyes; I have been so bad for several weeks that my sight became so affected that I could not distinguish a man from a woman eight rods off. I applied your Patent Eye Cups a few times, as per your special directions, and to my great delight, they have perfeetly and permanently restored my sight, cured all inflammation and weakness of my eyes. I am now able to see a bird, where I could not see a man at the same distance.

I will also state my friend's case, who applied your Patent Eye Cups. I returned this morning from visiting an old lady that was almost totally blind in one eye, and could see no person standing before her with the other eye. After I made an application with the Patent Ivory Eye Cups of two and one-half minutes, she could see her hand and fingers with her eye that was totally blind, and the other was greatly improved. Your Eye Cups are simple, can do no harm to any eye, and far surpass any invention of the present age. I remain,

Very respectfully yours,
REV. JOHN HILL.

QUINIUM LABARRAQUE Approved by the Imperial Academy of Medicine

The Quintum Labarraque is an eminently tonic and febrifuge Wine, destined to replace all the other preparations of Peruvian Bark The Bark Wines usually employed inmedicine are prepared from Barks which vary considerably in the degree to which they possess the desired properties. Besides owing to the manner in which they are prepared, these Wines contain scarcely more

than the traces of active principles, and

these always in variable proportions. The Quinium Labarraque, approved by the Academy of Medicine, constitutes, on the contrary, a medecine of determined composition, rich in active principles, and on wich Physicians and Patients can always rely.

The Quinium Labarraque is prescribed with great success for persons of weak contitution, or for those debilitated by various exhausting causes or past sickness; for youths fatigued by too rapid growth; for young girls whose development takes place with difficulty; for women in childbirth; and for aged persons enfecbled by years or illness. It is the best preservative against Fevers.

In cases of Chlorosis, Anemia, or Greensikness, this Wine is a powerful auxiliary of the ferruginous preparations. In conjunction, for example, with Valler's Pills, the rapidity of its action is really marvellous.
