

under such terms and conditions as may be agreed, such quantities of heavy water as may be required in the power reactor programme in Canada, subject to the availability of supply and the needs of the United States programme.

D. It is understood and agreed that the existing contract between the Commission and Atomic Energy of Canada Limited relating to the sale of plutonium, and extensions thereof, will continue in full force and effect.

E. Collaboration between the two countries in the field of raw materials has resulted in the development of substantial uranium production in Canada which has been made available to the United States under arrangements and contracts now in effect. These arrangements and contracts shall remain in full force and effect, except as modified or revised by mutual agreement.

F. As may be necessary and as mutually agreed in connection with the subjects of agreed exchange of information as provided in Article II, and under the limitations set forth therein, specific arrangements may be made from time to time between the parties for lease or sale and purchase of non-research quantities of other materials under such terms and conditions as may be mutually agreed, except as provided in Article VII.

ARTICLE VII—*Materials and Facilities Primarily of Military Significance*

The Commission will not transfer any materials under Article III A or Article VI F and will not transfer or permit the export of any materials or equipment and devices under Article IV and Article V if such materials, or equipment and devices are in the opinion of the Commission primarily of military significance.

ARTICLE VIII—*Classification Policies*

The Governments of the United States of America and Canada agree that mutually agreed classification policies shall be maintained with respect to all information and materials, including equipment and devices, exchanged under this Agreement. In addition, the parties intend to continue the present practice of periodic consultation with each other on the classification of atomic energy information.

ARTICLE IX—*Patents*

A. With respect to any invention or discovery employing information which has been communicated hereunder and made or conceived thereafter during the period of this Agreement, and in which invention or discovery rights are owned by the Government of Canada or by the Government of the United States or an agency or corporation owned or controlled by either, each party:

1. Agrees to transfer and assign to the other all right, title, and interest in and to any such invention, discovery, patent application or patent in the country of the other, to the extent owned, subject to a royalty-free, non-exclusive, irrevocable licence for its own governmental purposes and for purposes of mutual defence.
