## LONDON "MOVIES" OBJECT.

LONDON, Ont., March 28.—(Can. Press).—The owners of moving picture houses in this city will protest against the proposed amendments to the act governing moving picture houses, which is being considered by the provincial legislature. It is proposed to impose a license fee of \$500, with no license to be granted to any person who has not been a member of the Ontario Association of Motion Picture Exhibitors for a year. The contention of the owners here is that it would put them at an out of business if they complied with the proposals.

## HIS FINGERS ARE WORTH \$200 EACH

Court Decides in Favor of Wm. Scott, Who Was Injured in Printing Department of University—Counsel Argued on Law Not Exactly Up to the Minute.

William Scott was a pressman employed in the printing department of the University of Toronto. While operating a press the machinery was started and three of the fingers on his left hand were crushed so badly that they had to be cut off at the hospital. His valuation of his fingers was \$1500, and he sued the university for that amount. Chief Justice Meredith decided yesterday in his court at the city hall that three fingers were worth \$600, and the university must pay Scott at the rate of \$200 a finger.

The counsel for the university employed a plea that might have been effective in a court of justice in the middle ages, but was not successful with Chief Justice Meredith. The university board of governors, he pleaded, were really trustees of the privileges of the crown. The crown is not liable, according to a medieval law, which is still in the statute books, "for the non-observance or misfeasance of its servants." In ordinary intelligible English, this means, according to the counsel's contention, that the university board of governors are not liable if anyone employed by them is injured on account of their negligence. The chief justice decided that the theory of the statute books, written in Latin, should be invoked in Canada.

The counsel for the university also claimed that Scott had been careless.

\$50,000 ORIENTAL RUG SALE.  
 On Tuesday, April 1, and continuing on the following Wednesday, Thursday and Friday, a collection of Oriental rugs will be offered at public sale which is without doubt unprecedented in the history of the city. These rugs have been selected with great care and discrimination and include makes and weaves that are seldom open to the general public. Of special quality are the silky Persian and Kazak rugs, and even more particularly, two exceptionally magnificent silk throne carpets in exquisite colorings and of the finest texture. Nothing at all comparable to these has ever been submitted to competition in Toronto.

A visit to the art galleries of Messrs. C. M. Henderson and Company, 87-89 King street east, is like entering into the rooms described in eastern fairy tales in which sultans and caliphs had their abode. Floors and walls are covered with the superb products of the oriental expert craftsmen and the bewildering variety of this and designs is only equaled by the beauty and delicacy of the oriental fabric.

Some of the rugs shown are of unusually large dimensions, but all display the same perfection of workmanship.

Conspicuous among them is a very fine silk throne rug, in rich crimson ground, with magnificent mosaic border, specially made by a celebrated Persian artist for a Khan of his country in 1865 and valued at \$7500. Another rare specimen is a royal antique Bokhara in deep chocolate red, and yet another is a very fine Persian silk mosque rug in delicate shades of ivory and light blues, valued at \$5000. No table, also, is an extra fine royal Bokhara, worth \$2500, and the largest of its kind in Canada. These are only a few of the noteworthy pieces in this collection which will be on view today, Saturday, and Monday. The sale will be conducted by Mr. C. M. Henderson.

## DAMAGE BY FLOOD IN MASSACHUSETTS

Connecticut River Goes On Wild Rampage—Industries Are Paralyzed.

SPRINGFIELD, Mass., March 28.—(Can. Press).—Two flood waves, born of the rainstorms in the northwestern New England section earlier in the week, swept down the Connecticut River today, causing some damage to property in the lowlands, necessitating the shutting down of many industries and interfering with railroad traffic at several points.

So far as known there was no loss of life. The flood was not a record-breaker, but many old marks were threatened. The first wave was the higher, and this evening the crest was passing Holyoke and was being watched with some anxiety by the river bank inhabitants below the city. Philadelphia, Newark and other cities through the States.

The second wave was following 125 miles back, having driven the lowland dwellers from their homes at Woodsville, N.H., last night and carried out a dam on Israel River, a tributary of the Connecticut, at Lancaster this morning. The second wave was abreast of White River Junction to-night, but it was not so high nor so long as its predecessor.

Many Washouts.  
 The first wave left behind it work for the Boston and Maine, Central Vermont and the Rutland Railroads. There were many washouts and some bridges went out. The Boston and Maine had to stop its trains on the Cheshire division near Bellow's Falls, Vt., and on many stretches of the Passumpsic, especially in the vicinity of Bellow's Falls and Woodsville. The Canadian service on the Boston and Maine was fairly well maintained. The Central Vermont suffered delays near Brattleboro and between White River Junction and Montpelier.

Mr. Bryan O. Furey and son, the well-known and popular ex-manager of McConkey's, leaves New York today by the steamer Carmen for a three months' tour thru Europe. His first visit is to be to his relatives in the County of Sligo, Ireland, after which he will visit Berlin, Paris and other popular cities.
