WEDNESDAY MORNING, MAL 6.

HYDRO RATE REDUCTION. An order has been issued by the Hy-

a reduction of rates from June 1. The reduction as affecting householders will be in the shape of a 20 per cent. discount instead of the present 10 per cent. The subject has been one of considerable contention between the city and the province, the city comthe responsibility of acceding to the recommendation of the provincial commission some time ago. The provinsponsibility, and, should any loss occur to the city, the provincial body must have nothing to oppose to the order beyond what has already been stated. Mr. McNaught has always taken the matter and it is not likely that he has changed his mind, especially with re-There is no doubt room for difference of opinion on the technical side of the question, and the complicated details may yield different results to different minds. A year's practical experience will settle this side of it.

We trust that the fears, with which we have had full sympathy, may not be realized, which were grounded on the actual business being done, in in the city. A very large amount of the paying business is attracted by the guarantee of continuity of service, which, as we have pointed out, depended on a steam reserve. This question does not appear to have been settled yet, altho the provincial hydro held that with duplicate transmission lines from Niagara, a reserve would be superfluous.

We are disposed to think that other considerations than merely business ones have entered into the settlement of the case. It is well known that Toronto, politically, will stand for almost anything the government does. That the city council and the city hydro commission should both be turned down so indubitably within a couple of weeks can scarcely be attributed to any other cause than that of political exigency. A 10 per cent. reduction of rates will be popular, whoever pays the piper, and if there be no piper to pay eventually, so much the better for everybody. The Gooderham bill took its rise in the legislative session of 1913, and the reduction of rates will be traced to other than obvious reasons by those who have followed the career of Mayor Hocken for the last fundamental principle as public ownership should be jeopardized in any way Mayor Hocken to solve the transporpected directions, owing to the efforts, ministration. direct and indirect, of those determined that he should not solve it.

Foreign Secretary Declines to Ask Washington to Let Him Stay.

LONDON, May 5.—Foreign Secretary Grey was invited by Sir John David Rees, Unionist, in the house of commons this afternoon to ask the United States Government "to abandon its position that the removal of Gen. Huerta is of greater moment than the restoration of peace and the protection of life and industry in Mexico."

The foreign secretary declined, declaring that in view of the fact that mediation had been undertaken by Argentina, Brazil and Chile it could serve no useful purpose for the British Government to make separate proposals on its own account to either Washington or Mexico City.

The federal governor of Tampico, the secretary continued, had given assurances that the employes of the companies operating oil wells in that district might return, while Gen. Huerta had promised to issue orders permitting all nationalities to return and resume work, saying at the same time that he would do his best to pre-

Temporary Injunction to Stop Officers Sending Out Ballots Dissolved.

Canadian Press Despatch.
INDIANAPOLIS, May 5.—The temporary injunction obtained last week by Charles F. Hawkes of New York by Charles F. Hawkes of New York to restrain the officers of the International Typographical Union from sending out the ballots for the biennial election, to be held this month was dissolved by Judge Remster in the circuit court here last night. The court held that Hawkes, who alleged that he had been deprived of his rights to be a candidate for president by a ruling of the executive council of the organisation, had not shown nor alleged that there was any fraud in the council action. The court also held that it was action. The court also held that it will doubtful whether Hawkes was qualified under the rules of the union to a candidate for president.
