Another Bull Campaign is Expected-Sao Paulo Makes Slight Ascension.

World Office. Tuesday Evening, May 15. Professional operations in the Toronto Stock Market were carried into this morning's business, and it was only on definite signs of a development of weakness at New York that efforts to stimulate sales and advance quotations were dropped. There was an absence of speculative activity in any other issues, but quotations as a whole were retained at comparative steadness. Except for a little more freedom in obtaining loans nothing transpired during the day to induce trading or quotations.

New York, May 15.—To-day's stock market was almost wholly in the hands of the professional element, the operations of the room traders being responsible for the larger proportion of the fluctuations.
