A Few Facts and Figures Which Go to Prove That the Junction is Forging Ahead.

## WATERWORKS MAY SHOW SURPLUS

Just as Soon as the Ten-Year Free Supply to the C.P.R. Runs Out—East Toronto Notes.

Toronto Junction, Nov. 20.—(Special).—Mr. Ketter, a resident of Charles-street, fell on his doorstep, striking with paralysis, and has lost the use of his right side, right leg and arm and to power of speech.

The assessors' figures, which last year showed an increase in population of 500 over the preceding year, will show an increase of about 250 for the figures for this year are tallied up. Last year the population numbered 5355. This year it will be 5605.

Desirable residences continue to change hands, and although there is no actual boom, there is a brisk demand for good houses and nice residential sites. Mr. Connors has purchased No. 46 Laws-street for \$1500; Mr. James Gibson has bought a house on Pacific-avenue for \$1200; Mr. Conrad Miller has purchased the store that he occupies; Mr. Cardus bought a house on Quebec-avenue, and Mr. Savage has made the purchase of No. 37 Medland-street.

The great value of Toronto Junction real estate was instanced to-day when a man named Albert Campbell was arrested for stealing a watch. He took the police from early this morning until 4 o'clock this afternoon to find a magistrate to sign the necessary papers for holding him.

For 10 years the town of Toronto Junction has been supplying the Canadian Pacific Railway with free water. Much of this was supplied during the years when the waterworks system was not self-sufficient, and when the ratepayers had to make up the deficiency. Times are getting better now, the waterworks' system year by year long it will furnish a little annual nest-egg towards the running expenses of the town. The 10 years of free water will be in a few days, and after that the C.P.R. will begin to pay for the water used by it. On Saturday, Superintendent Haggis completed a table for the past 44 days, showing that in that time the company has used an average of 104,975 gallons a day in the repair shops and for locomotives, not including water for the station uses. The reading of the meter was as follows:

Oct. 6, one day, 93,450 gals. Oct. 7, two days, 236,117 gals. average per day, 118,058. Oct. 10, three days, 282,283 gals. average per day, 94,094. Oct. 11, final set back to Oct. 23, 12 days, 1,291,479 gals. average per day, 107,589. Nov. 3, 11 days, 1,133,169 gals. average per day, 103,019. Nov. 18, 15 days, 1,562,494 gals. average per day, 104,166. Average for six days, 106,641. Average for 44 days, 104,975.

A liberality which Toronto Junction has conferred on all manufacturing concerns has been the supplying of water at cost of pumping, or about 6c per 1000 gallons. As the C.P.R. uses 40,000 gallons per year, based on the readings of the last 40 days, the town will receive \$2400 a year by charging the mere cost of pumping.

Mr. Chas. Bonnick was chairman of the assembly; Mr. J. J. Garraione distributed prizes, and Rev. E. A. Pearson, the pastor, distributed candles at the close of the various exercises. A parade drill by eight little girls developed much enthusiasm, that was only eclipsed by eight boys who sang "Biblical Song to the Core," emphasizing the title song by movements with the Union Jack.
