Chicago, June 28.—Hot, dry weather, giving reason for anxiety about the safety of the oats crop, resulted today in a sympathetic advance of the corn market. Opening quotations, which ranged from 1/6c to 15/6c higher, were followed by moderate further gains and a decided reaction.

Broad activity developed in oats. After opening 1/4c to 1c higher, the market rose still more before beginning to react.

## ENDS; MEN TAKE STRAWBERRY SEASON 5 CENTS MORE

After Four Days, Street Car Men Return Sunday

WASHINGTON, June 27—Johnson had the Athletics at his mercy today, and Washington won its seventh straight Bame, 7 to 0. This was Philadelphia's technical band of the men of the after about an hour's consideration.

The position of the Toronto Railway Company in the matter of the increase will accept the situation and make the best of what it may regard as a bad bargain. Manager R. J. Fleming of the

When the railway board, on Friday, "suggested" that the company increase the men's wages by 5 cents an hour, it was understood that this was practically an order, and that if the men accepted the increase they should resume the operation of the cars whether the company agreed to pay the addi-tional wage or not. If the company agreed, all right; if not, the railway board would step in and operate the cars and pay the men 60 cents an hour. However, there seemed to be a tacit understanding that the company would act on the board's suggestion.

No Meeting Yet.

There has been no meeting of the directors of the Toronto Railway Company since Friday, so far as the public knows. It is probable that a meet-ing will be held early this week, when the situation will be discussed, and the company's decision made known. The street rallwaymen at first demanded 85 cents an hour, an increase of 30 cents an hour. A board of conciliation refused to give them any inyesterday's score of 11 to 6, Toronto crease in pay, nad recommended that captured its third victory of the series they continue at 55 cents an hour until company's franchise expires, August 1921. The men's representative on board, John T. Vick, at first signed the board, John T. Vick, at first signed this award, but subsequently made a minority report, in which he favored paying the men, 66 cents an hour. It was on the company's refusal to pay 66 cents that the men went on strike. It is estimated that the Toronto Railway Company's employees lost \$40,000 in wages during the strike and the company about \$90,000 in fares. The increase of 5 cents an hour in the men's pay will cost the company, it is stated, about \$375,000 up to the

ennobles obedience to all laws not manifestly unjust, even though the wisdom of their enactment is open to question."

Cannot Be Flouted.

Having thus laid down the clear duty of Catholics as good citizens, the bishop depicted n scathing terms the debauching of the public conscience, and of the official conscience by the state of things publicly known, or at least generally alleged to exist in this district.

"For, mark well," continued his lordship impressively, "this particular law cannot be brazenly violated; authority in this particular instance cannot be openly flouted without going far, dangerously far, toward bringing all law and all authority into contempt."

A Pastoral Duty.

Our informant, who had Bishop Fallon's permission to make public at his discretion this important announcement, assured the Canadian Press that it was one of characteristic directness forcefulness and vigor.

In this part of the province, where perhaps, the temptation to break this law was greater than elsewhere, Bishop Fallon reminded his priests of their pastoral duty, and reinforced this with all his episcopal authority by solemnly enjoining them to make known and to drive home to their people the enormity of its consequences which disgraced the community, imperilled the reign of law and order and was subversive of morality, public and private.

acid, an important drug, consumed in immense quantities the world over. The German manufacturers gave to it the trade-marked name "Aspirin."

The first man this side of Germany to manufacture successfully salicylic acid -the chief ingredient of "Aspirin"was a Canadian, Mr. A.H.C. Heitman, Manager of Chemical Products Limited.

Chemical Products, Limited, will manufacture about 1,250,000 pounds of "Aspirin" and 500,000 pounds of salicylic acid in excess of its needs for lead. Canadian enterprise and resourcefulness have scored again.

In addition to "aspirin" and salicylic acid, a large number of the chief products used by the chemical trade are being produced by Chemical Products Limited. A national distribution and a world-wide export connection have been established.

The tremendous volume of orders already booked indicates a splendid future for the largest concern of its kind in Canada.
