Shamrock Goes For a Short Spin Under New Sail, Designed Against Air Pockets.

New York, July 14.—The Shamrock IV., challenger for the America's, cup, enjoyed a short spin yesterday off Sandy Hook, while the defender Resolute spent the day at a Staten Island drydock, where workers removed tar and oil from her hull. Today the two rivals will have a final workout for the international races, which begin on Thursday.

Using a new sall designed to avoid r pockets, the Shamfrock had a short in in a light southeast breeze inside e Hook and as the velocity increased to eight knots, Capt. Burton decided to take her out for a short run down the coast. He expressed satisfaction later at the speed of his charge.

The rules were drawn up for the guidance of naval aircraft pilots, and it was said that others are expected to observe them "in a spirit of good sportsmanship."

#### **LOS ANGELES SCOUT PAYS** A VISIT TO BRANTFORD

BRANTFORD, July 13.—Scout Jack McCarthy of Los Angeles, who arrived in the city today, stated that he had come to take another look at Infielder Harry Stupp of the Brantford team. He was disappointed when he learned that Stupp had broken a bone in his ankle on the recent road trip of the Sox. He leaves tomorrow afternoon for Cleveland. Scout McCarthy also stated that while on a recent visit with John McGraw at New York he had strongly advised the manager of the Giants to send a scout here for the purpose of looking over Stupp. The latter will be out of the game for the rest of the season, although he is able to get out and around on crutches. The Brantford management today received from Judge Clements of Saginaw an option on Pike, but it was decided that the price asked was much too high. Pike was desired to take the place of Stupp on the infield. Pitcher Matthews, the property of the Baltimore club, was returned today, his wildness having brought about his release from the Red Sox.

NCE upon a time there was a peasant who said it was too cold to go out into the woods to chop logs for the fire, so he conceived the idea of chopping up the furniture. In a short time he had disposed of the chair and table,—then being cold once more, he took out the window frames and burned them, and after the window frames, the doors.

These being burned he was colder than ever, thereupon he started to tear down the house and burn it piece by piece, until at the end he had neither house nor heat.

The folly of this peasant is not unlike that of the person who for frivolous reasons sells his Victory Bonds which, by painstaking thrift and sacrifice, he acquired as protection for a rainy day. He is disposing of a sheltering roof and knocking out the door that might serve later to keep away the wolf.

### A Victory Bond is Capital

firm ever dissipates Capital, for it is the foundation on which prosperity is based. Anyone who dips into Capital for running expenses is courting trouble and possibly eventual ruin. Don't spend your Victory Bonds. To do so it is like burning down the house to keep warm.
