There were 158 cases of typhoid fever
reported in this city this year up to
the end of October, with 28 deaths.
These figures do not show the actual
number of typhoid cases, as many are
not reported. I cannot imagine a sad-
der scene, and it has been my lot to be
present at more than one of them,
where the father of a young family—
the bread winner—is dying from a pre-
ventable disease, namely, typhoid fe-
ver, contracted from drinking our city
water. All of the people cannot get
boiled water at all times.

We blame the people in the country
for allowing their water supply to be
contaminated by typhoid germs.
We wonder why they sit their easi-
pool and manure heap so near the well.
Now, every citizen of Toronto who
reads the papers has learned from
published reports of the medical health
officer, the bacteriologist of the provin-
cial government, as well as from oth-
er competent advice, that water
taken from the source we now get it
from cannot be kept free from con-
tamination of typhoid and other germs—
that filtration, or better, drawing the
water from Lake Ontario at some dis-
tance east or west of the city, is the
proper means of securing pure water.

MAY LOSE PALATIAL NEW YORK RESIDENCE

City's Claim for Unpaid Taxes Was
Purchased by Man Who Now
Has 1000 Year Lease.

NEW YORK, Nov. 19.—Mrs. Collis P. Huntington, reputed to be one of the most wealthy women of America, has been notified by Daniel Eichner, of No. 352 East One Hundred and Twenty-second street, that she must either settle her claim against her magnificent home, at the corner of Fifth-avenue and Fifty-seventh street, or be dispossessed on March 30 of next year. Eichner attacked a considerable notoriety two years ago by purchasing \$80,000 of the city's claims for unpaid taxes against several properties here. One of these proved to be against the National Park Bank, which institution promptly settled the claim rather than have Eichner acquire the claim, the richest bank in the country for \$1000.

The city's claim against Mrs. Huntington's town house, which was purchased by Eichner at the same time, was acquired by the claim against the bank property. Under the terms of these sales at auction the man who bids in the property must allow the owner two years in which to settle the claim.

If the owner does not settle within two years the city is empowered to give the purchaser of the claim a lease upon the property for the number of years mentioned in his bid.

These two years of grace expired on Sept. 20, and the City of New York has given Mr. Eichner a 1000-year lease, signed by A. Taylor Phillips, acting controller, and P. F. Scully, city clerk, upon Mrs. Huntington's residence, which is one of the most valuable and most richly furnished in the city.

SUBMIT THE WATER BYLAW.

Dr. Riordan Urges That It is a Most Necessary Matter.

Dr. Bruce L. Riordan writes the following open letter to the mayor:

Many of our citizens are much disappointed that the city council will not submit to the property owners of Toronto a bylaw this coming January for raising money to give to each citizen pure water for drinking and other purposes.

Thru the mistakes of officials and former city councils the western district of Toronto and Toronto Junction have been allowed to become a drinking water by running into the lake their sewage. This district, which comprises all that part of the city west of Strachan-avenue and the Garrison Creek sewer, has grown in population rapidly—the amount of sewage emptying into the lake has increased in proportion to the increase in population, at the source of our supply (the intake pipe) now shows serious contamination—this year before next summer the water will be unfit for drinking, and as the city grows westward the danger of being poisoned by the water which we drink will be increasing each season. We will have to pay for a new plant which will draw our water from or filter it.

Could we not be allowed to vote the money for pure water this January, and leave the details of how the money should best be expended, as is now suggested in the proposed money bill, to raise money for cheap power?

There were 158 cases of typhoid fever reported in this city this year up to the end of October, with 28 deaths. These figures do not show the actual number of typhoid cases, as many are not reported. I cannot imagine a sadder scene, and it has been my lot to be present at more than one of them, where the father of a young family—the bread winner—is dying from a preventable disease, namely, typhoid fever, contracted from drinking our city water. All of the people cannot get boiled water at all times.

We blame the people in the country for allowing their water supply to be contaminated by typhoid germs. We wonder why they sit their easi-pool and manure heap so near the well. Now, every citizen of Toronto who reads the papers has learned from published reports of the medical health officer, the bacteriologist of the provincial government, as well as from other competent advice, that water taken from the source we now get it from cannot be kept free from contamination of typhoid and other germs—that filtration, or better, drawing the water from Lake Ontario at some distance east or west of the city, is the proper means of securing pure water.

FEVER ACTION DISMISSED.

Geo. Butler's Statement of Claim Against City is Thrown Out.

George Butler has an action pending against the corporation of the City of Toronto, in which he is claiming \$1000 damages for the death of his six-year-old girl at the Isolation Hospital, thru measles, alleged to have been contracted thru the negligence of the hospital authorities when she was recovering from diphtheria.

On behalf of the city an application was made before Justice Clute to strike out Butler's statement of claim as showing no ground of action.

His lordship has given judgment striking out the claim and dismissing the action with costs if claimed by the city.

Stars and Missions.

"A Visit to Star-Land" is the subject of a lecture to be given to-morrow evening by Rev. F. H. Cosgrave of Trinity College at the Young Men's Christian Association in the schoolhouse of St. James' Cathedral.

To-morrow evening Rev. J. Antie of the West Coast Mission will give an address on subjects connected with his missionary work in the schoolhouse of the Church of the Redeemer, under the auspices of the Women's Auxiliary.

Bargains in Planos.

Heintzman & Co., Limited, 115-117 West King-street, Toronto, announce to the public that their warehouses are uncomfortably overcrowded with eighty-five pianos in exchange for the intention is to utilize the holiday season to make a clearing, and the biggest kind of bargains are being offered just now. They have for sale a practice upright piano, seven octaves, in good condition, that will be sold for \$110, in payments of \$4 a month.

Dr. Bell Goes North.

Dr. R. W. Bell of the provincial health department has gone to New Ontario to confer with the provincial sanitary inspectors, Young and Roan, stationed at North Bay and Chapleau, with regard to the conditions in their districts.

For Legislature to Deal With.

Hon. J. J. Foy stated yesterday that the request of the Town of Essex Centre to be paid the fine of \$25,000 imposed on the Michigan Central Railway by Judge Riddell will come before the legislature at its next session. As the town sustained considerable damage thru the explosion the council feel that they are entitled to the fine, less the legal fees.

Scarcity of Teachers.

W. J. Paul, M.L.A., for Addington, interviewed Hon. Dr. Fyne yesterday about retaining the model school at Napanee. He said there are 40 teachers in the county employed on special permits.

Ex-Senator Indicted.

PINDLAY, Ohio, Nov. 19.—The grand jury today indicted an indictment against ex-Senator Thomas McConeys for alleged bribery in connection with the Standard Oil trust. Byron Wilson was indicted several months ago for a like offense.

Prohibition Bill Passes.

MONTGOMERY, Ala., Nov. 19.—The senate this afternoon passed the prohibition bill by 22 to 2. The law becomes operative Jan. 1, 1909.

BEER BOTTLES REFILLED WITHOUT BEING CLEANED

Magistrate Warns One Driver and Promises to Be Severe on Next Offender.

Medical Health Inspector Robert Wilson has determined to put a stop to the practice of certain milk dealers of filling uncleaned milk bottles. The bottles are taken from the doorsteps, in some cases with milk still in them, or adhering to the sides, filled in the wagon and re-delivered to customers. Jan. Hubbard, a driver, was charged in yesterday afternoon's police court with filling a bottle that had not been washed. His case was adjourned till called on, but Magistrate Kingsford gave him a warning that may keep others from doing the same trick.

A woman had complained to the inspector that she had from her window seen Hubbard deliberately take a dirty bottle from the doorstep and fill it. He delivered the bottle to her and she complained to him about it. He remarked that "it was all milk anyway."

On another occasion she used a bottle of milk and found in the bottom a note which she had left in an empty bottle the day before. The note said: "Milkies wanted immediately, one pint to-day."

Other cases have been reported to the inspector, and Magistrate Kingsford promises to punish future offenders to the full extent of the law.

YORK LOAN CLAIMS.

Referee's Engagements for the Rest of This Week.

The argument re the claim of the Toronto Life Insurance Company to rank as creditors as against the funds of the York Loan in the hands of the liquidator of the National Trust Company, on some \$8000 of the York Loan Company's securities, which came indirectly into their possession, and which they hold in trust, was yesterday afternoon postponed until Friday afternoon at 2.30 o'clock, before George Kappeler, C. A. Master, referee for the Nova Scotia claims.

This afternoon the claims of holders of York Loan securities to the extent of some \$800,000, held in three accounts, were argued before the referee. The claims of some \$800,000 in Nova Scotia and the balance in Manitoba and British Columbia, to rank as creditors and not as shareholders, on the ground that the company had no power under the Ontario Act of Incorporation to do business in those provinces, will be argued by C. A. Master, referee for the Nova Scotia claimants.

To-morrow afternoon the claims of holders of York Loan securities to the extent of some \$800,000, held in three accounts, were argued before the referee. The claims of some \$800,000 in Nova Scotia and the balance in Manitoba and British Columbia, to rank as creditors and not as shareholders, on the ground that the company had no power under the Ontario Act of Incorporation to do business in those provinces, will be argued by C. A. Master, referee for the Nova Scotia claimants.

OTTAWA MINT CLOSED STOUT FENCE NEEDED

Royal Proclamation Withdrawn Until All the Requirements Are Complied With.

OTTAWA, Nov. 19.—The Ottawa branch of the royal mint, which was proclaimed open on Nov. 8, has been proclaimed closed again by the imperial authorities. In case of a mint the British authorities are very strict. The King personally puts his signature to the proclamation which announces the mint open and ready to coin gold for anyone who may offer. Therefore, everything has to be in readiness according to the regulations of royal mint authorities.

One of these regulations declares that around every branch mint there must be a protection in the form of a good stout fence. Since proclaiming the Ottawa branch of the royal mint open the royal mint masters have learned that the fence here is not furnished. Therefore they have withdrawn their proclamation and postponed the opening of the mint until Jan. 1.

NO PREJUDICE.

Scotchmen Should Be Able to Get Work in Canada.

Thomas Southworth, director of colonization, made a statement yesterday with regard to a complaint of "A Briton," an able-bodied Scotchman, who had almost exhausted his resources in an endeavor to find employment in Canada. Mr. Southworth declared that his nationality was against him, and that he had repeatedly been met with the declaration "No Scotchman need apply." Mr. Southworth was unable to find any record of this Scotchman having applied to the department for employment, and he believes there was the prejudice against Scotchmen complained of. Mr. Southworth was surprised at the statement of Mr. Chamberlain, president of the British Welcome League, that 200 destitute Scotchmen had passed thru the hands of the league.

ONE AT A TIME.

Newspapers Fail to Consolidate the Mattie Perkins' Suits.

Justice Clute has given judgment on the application to consolidate the actions brought by Mattie Perkins against a number of newspapers for publishing certain alleged libelous statements with reference to the proceedings against her on the charge of murder.

His lordship decides that the libels in some cases are not the same, and that therefore they cannot all be consolidated. The costs are given to the plaintiff in any event.

LEVIATHANS MAKE MONEY.

LONDON, Nov. 19.—The Liverpool Courier, regarding the expenditure and revenue of the steamers Lusitania and Mauretania, figures that a single voyage of either steamer yields a profit of about \$60,000. The expenditures are estimated to be \$89,550.

Asylum Changes.

Hon. W. J. Hanna, provincial secretary, yesterday announced the following changes in the staffs of the asylums, consequent upon the resignation of Dr. P. H. Spohn, medical superintendent of the Penitentiary Asylum.

Dr. George A. McCallum, superintendent of the London Asylum, succeeds Dr. Spohn.

J. Robinson of Guelph, a member of the provincial board of health, and medical health officer for Guelph, has been appointed superintendent of the Penitentiary Asylum.

The Strenuous Life.

Nature will have her compensations. Our overworked bodies and nerves require recuperation and rest. The longer the delay the greater the price. Before too late try the tonic influence of the Mineral Salt Springs. The "St. Catharines Well" for nervous troubles, rheumatism and allied diseases, applied to the body, relieves and restores convalescence. Write to J. D. McDonald, district passenger agent, Grand Trunk Railway System, Toronto, for illustrated descriptive matter.

To Improve Vancouver Narrows.

The federal government has been petitioned by the Vancouver Liberal Association to send an engineer to the city to report upon the proposal to deepen and widen the first narrows entrance to Vancouver harbor. An expert has already given the opinion that to remove a couple of bars and put the narrows in first class condition will cost about a million and a half dollars.

Winter Trip Across the Atlantic.

If you intend crossing the North Atlantic this fall or the coming winter you should consider size, safety and speed of the ships before making your reservation. The best is none too good. The Cunard ships, such as the Lucania, Campania, Carmania, Lusitania and Mauretania ought to be taken into the most favorable consideration, especially as this company takes the most southerly route.

Logging Industry at Standstill.

VANCOUVER, Nov. 19.—(Special).—Many of the largest logging camps on the coast closed during last week and it is expected within a short time the industry will be practically at a standstill for the reason that there is now no demand for logs of any description
