

"TERRIBLE TEDDY" GRIM AND QUIET

Roosevelt Wants Starry Flag
Waving Over Trenches
in Short Order.

BUSY AT WASHINGTON

He Says Forty-Four Thousand
Men Must Be Hurried
to Front.

By J. P. Voder, United Press Staff
Correspondent.

Washington, April 10.—It was a different Roosevelt who came to Washington today to put across "the great idea of his life."

The colonel's idea is to plant American battle flags on the French front as soon as sufficient transports can be loaded, steam got up, and an army corps of 44,000 men put ashore. The colonel's idea is to plant American battle flags on the French front as soon as sufficient transports can be loaded, steam got up, and an army corps of 44,000 men put ashore.

Break With Germany Announced by Brazil

German Minister is Handed His Passports as
Preliminary to Formal Declaration of War
—Decision Acclaimed by Crowds.

By H. B. Robertson, United Press
Correspondent.

Rio Janeiro, April 10.—Brazil tonight broke off diplomatic relations with Germany.

German Minister Adolph Paolis was informed that relations with his government were severed, and was handed his passports.

Brazil intends to declare war against Germany, not to adopt benevolent neutrality toward the allies, if indications tonight are a guide.

Every preparation, bespeaking war, Foreign Minister Muller, an anti-war adherent, was reported to have resigned. Certainly he hurriedly concluded all pending routine work and apparently expected to receive his passport any moment. He was fully packed and up and ready to leave. Requisitioning for government service of the steamship Rio de Janeiro was believed to indicate that the government will use this vessel to transport the dismissed minister back home.

Cheer War Orators
Rio de Janeiro was a picturesque

lot of public demand for war tonight. Crowds thronged the streets; impromptu war orators were cheered to the echo; the national colors were everywhere apparent and picked soldiers in force patrolled the docks and the German embassy.

The government's action is believed to have been delayed somewhat owing to the problem of 500,000 Germans in Rio Grande Province and large numbers of Texans scattered in German settlements in other states. In at least two of these—Parana and Santa Catharina—the government found pretext for stationing heavy forces of troops—the pretext being that there was likelihood of a clash between the states themselves over a long smouldering boundary dispute.

SWITZERLAND TO ACT.
London, April 10.—Reuter's Rio Janeiro correspondent announces that Brazil has severed relations with Germany. Brazilian interests in Germany will be taken over by Switzerland, the correspondent adds.

WAR-TIME ARDOR
FILLS WASHINGTON
City Resplendent With Flags
and Bright With
Searchlights.

GUARDING BUILDINGS
Strict Precautions Taken to
Guard Against German
Spies.

Special to The Toronto World.
Washington, April 10.—Washington in war time presented tonight a unique spectacle among the war capitals of the world.

It showed a city resplendent in new flags, when other capitals have quieted down to the real work of the war; a city bright with searchlights in its geographical fearlessness of seppelins, where other war capitals huddled gladly under the shadow of night.

In the four days of war it had read about, from an ordinary city, a little more beautiful than other cities, into a war capital that showed its spirit, if not in any other way, by its flags and searchlights.

Autumn buildings and Washingtonians wore the flags. Public buildings were the searchlights. One was displayed from a hotel upon the high shaft of the Washington monument, rising out of ink blackness above the Potomac. Another was shot from the capitol itself on to the big, white marble dome of the building that saw, just four days ago, America's entrance into the biggest war she or the world has ever known.

Rush to Buy Flags.
Thousands of flags that at inauguration time formerly banked Pennsylvania avenue, tonight were scattered all over the city, on public buildings, office buildings, apartment houses, stores and houses. Thousands of the citizens of the nation, who bought out the available supply last week and are just buying out the second lot.

As for its flags Washington presented little to remind anyone, a visitor or a resident, of the war. The streets were a little more filled with soldiers—well-fed marines and engineers, yet to see field action, and militiamen. The citizens walked about as usual, heard recruiting arguments at the theatres and stared inordinately at newspaper bulletin boards that displayed the morning's or this early afternoon news—all of which they had read.

Guard Against Spies.
It was when the Washingtonian went sight-seeing that he ran against the war. Spy talk had entered the official mind in Washington—and spies, and incidentally everyone else, have been banded. Passports alone admit visitors to the state, war and navy and treasury buildings. Ability to withstand the stares of scores of extra policemen, furnished the passport to the public buildings.

At night the public buildings are illuminated—the state, war and navy departments—with plans for making the treasury with plans for paying for it.

Washington has changed somewhat during the war. Most of its change so far has been to the observer for the better—more patriotic and a great deal brighter and more spirited.

But there was a grim look in his eyes when he was presented to President Wilson. He had the manner of the true soldier reporting to his commander.

Then the two—president and ex-president—went into the green room, where many historic events have occurred, and closed the doors. For 20 minutes President Wilson heard the colonel's suggestions. They must have been told grimly and in a subdued manner, for if they had been told as the Roosevelt of Spanish war or the Roosevelt of a presidential campaign had spoken, the voice would have carried beyond doors twice as thick as these which had shut on Roosevelt and Wilson.

DIED OF WOUNDS.
Special to The Toronto World.
Port Hope, April 10.—Yesterday morning the sad news came over the wires that Pte. Edward Milne, son of James Milne, had died of the wounds that he received in fighting at the front. He was the youngest son and a favorite with all.

Mr. E. M. Mitchell has received word that his son, Lieut. Frank Mitchell, is suffering from gunshot wounds in the hand and arm.

U.S. APPEALING TO SMALL INVESTORS

Big Publicity Campaign to
Dispose of Huge Bond
Issue.

MAY ACQUIRE PLANTS

U. S. Government Likely to
Take Step to Speed Up
Output.

Special to The Toronto World.
New York, April 10.—A tremendous advertising campaign, that will inform every man, woman and child of the nation concerning details of Uncle Sam's \$5,000,000,000 bond issue for financing the war, was being planned here today.

Representatives of various advertising agencies were in consultation with big bankers, and preliminary details were under discussion.

Wall Street was originally admittedly shocked by the government's idea of a "people's" bond issue.

Only the conference which Secretary of the Treasury McAdoo held yesterday with J. P. Morgan and the National City Bank group, the fact that Morgan was called in by McAdoo to discuss war financing plans has wiped this away, however, it was declared today, and the fullest co-operation can now be expected.

The belief was generally expressed today that one of the first steps of this government will be to take over munition plants, which are now virtually controlled by allied governments.

There are now several plants in which foreign governments have practically taken over the management. Russia, especially, owns the munition manufacturing plants, which the Americans have taken over supervision.

The government first will co-operate in the delivery of raw materials. This would probably be handled through the war department. Russian officials would be consulted as to the needs of the factories under their supervision, and the government would then direct all possible new plants to them. This would bring in the transportation problem, and other vital details, which the American government alone can absolutely control.

LUCKY BALDWIN AGAIN.
Makes Spectacular Strike in the
Kirkland Lake District.

It is always pleasing to hear of an "old-timer" having discovered something good, so that the news from the Kirkland Lake district that Hugh J. Baldwin has made a great strike close to the Kenogami Lake station will be received with acclaim by those who know Mr. Baldwin.

Some wonderful assays have been made from ore taken at different levels in the shaft now being sunk. The assays show that the ore is of a high grade, averaging over \$150.00 to the ton, and at six feet down spectacular ore material occurred, some of which went to the assay, and was found to be worth \$110.00 in silver. A company has been formed to develop the property.

The Blanche River, as well as the Timiskaming and Northern Ontario Railway, have entered the northern portion of the property, which comprises one hundred and sixty acres, less the right-of-way of the T. and N. R.

Mr. Baldwin has associated with him Messrs. Tanner & Gates, Limited, of Toronto, a well-known firm of mining engineers, and is greatly pleased with the outlook.

Work is being pushed aggressively at the property.

GOOD ROADS CONGRESS IS OPENED AT CAPITAL

Duke of Devonshire Among
Those in Attendance at
Proceedings.

Ottawa, April 10.—Encouraged by the presence of the Duke of Devonshire, and inspired by the assurance of support given by George B. Foster, acting premier, Sir Wilfrid Laurier, leader of the opposition; His Lordship Bishop Roper of Ottawa, and officially welcomed by Mayor Fisher, the delegates assembled in the fourth annual Canadian and International Good Roads Congress, proceeded to business this afternoon.

It was a notable opening for an event which will be of far-reaching importance in dictating the future road making policy to be pursued, not only in Ottawa and its environs, but throughout the Dominion.

Sir George B. Foster, reviewing the history of the good roads movement from the haphazard methods of half a century ago to the specialized construction, development of the present day, declared that the future history of the country would be reflected by the importance of roads, were a reflex of a nation's character.

KOLB IS FOUND GUILTY
OF BOMB CONSPIRACY
Jersey City, N.J., April 10.—The jury which tried Fritz Kolb, a German on a charge of having bombs in his room in a Hoboken hotel, brought in a verdict of guilty today, after an all-night consideration of the evidence. Kolb was remanded for sentence.

The jurors reported they were unable to agree in the case of Hans Schwartz, a German, who was tried with Kolb on the same charge. It was announced that Schwartz would be tried again.

The two men admitted during their trial that they had explosives in their possession. It was alleged by the state that they planned to cause a second explosion on Black Tom Island. They claimed that Jean Humbert instigated such a plot, but that they had no intention of carrying it thru. Humbert, a German, was indicted with them and was granted a separate trial, which has not yet been held.

RHEIMS SEEMS DOOMED
FOE STILL SHELLS IT
Paris, April 10.—Eight thousand bombs fell in the City of Rheims on Sunday, Easter, April 8. Friday 25 fires broke out in the city.

This fact learned tonight explained the official order of today that the civilian population should evacuate the city.

For two years the people of Rheims have been almost constantly under fire or threatened with destruction. At latest reports the present bombardment continues.

ARMED U.S. LINER
INJURED BY MINE
New York Meets Mishap Off
Liverpool Bar, But
Reaches Port.

Special Cable to The Toronto World.
London, April 10.—A hole twenty feet square was blown in the hold of the armed American liner New York when she struck a mine off the Liverpool bar.

No one was injured, and the liner docked at Liverpool today, but the serious nature of the wound she sustained was revealed tonight.

A geyser of water was thrown high into the air when the mine exploded. It spouted up higher than the main mast. The force and noise of the explosion was terrific. There was no panic, however, and the lifeboats were quickly swung out. Passengers were held in the boats for an hour. Then the ship's officers decided to put off from the vessel. Two steamers responded to the New York's distress call, picked up the boats, and the crippled liner proceeded slowly to her pier.

Special to The Toronto World.
New York, April 10.—A tremendous advertising campaign, that will inform every man, woman and child of the nation concerning details of Uncle Sam's \$5,000,000,000 bond issue for financing the war, was being planned here today.

Representatives of various advertising agencies were in consultation with big bankers, and preliminary details were under discussion.

Wall Street was originally admittedly shocked by the government's idea of a "people's" bond issue.

Only the conference which Secretary of the Treasury McAdoo held yesterday with J. P. Morgan and the National City Bank group, the fact that Morgan was called in by McAdoo to discuss war financing plans has wiped this away, however, it was declared today, and the fullest co-operation can now be expected.

The belief was generally expressed today that one of the first steps of this government will be to take over munition plants, which are now virtually controlled by allied governments.

WHOLESALE FRUITS AND VEGETABLES

Potatoes advanced again yesterday, the New Brunswick Delawares selling at \$3.75 per bag, Ontarios at \$3.40 to \$3.50 a bag, and westerns at \$3.50 per bag.

California asparagus shipments continue to come in and are gradually becoming cheaper, now selling at \$5.38, 50 lb. crate, green onions, 30c per dozen bunches; Spanish, \$4.50 per half-case, 30 lb. large case.

Parley—75c per dozen bunches. Parsnips—\$2.50 per dozen bunches. Potatoes—New Brunswick Delawares, \$3.75 per bag; Ontarios, \$3.40 to \$3.50 per bag; westerns, \$3.50 per bag; Cobblers, 30 lb. large case.

Chas. S. Simpson had a tank of Florida strawberries, selling at 80c per box; California asparagus, at \$5 to \$5.50 per case; hot-house cucumbers at \$2.25 to \$2.50 per dozen; mushrooms at \$2.75 to \$3 per basket.

McWilliam & Everist had a car of bananas, selling at \$2.50 to \$3 per unit, two cars of western potatoes, selling at \$2.50 to \$3 per unit, a car of Messina lemons, selling at \$3.25 to \$3.50 per bag; a shipment of Valencia blood oranges, selling at \$1.50 to \$1.75 per case.

A. A. McKinnon had a car of New Brunswick Delawares potatoes, selling at \$3.75 per bag.

H. Peters had a car of oranges of choice quality, selling at \$3.50 per case; Florida strawberries at 80c per box; Spanish asparagus at \$5 per case; a shipment of choice quality California asparagus, selling at \$5 to \$5.50 per case; hot-house cucumbers at \$2.25 to \$2.50 per dozen; mushrooms at \$2.75 to \$3 per basket.

THE HORSE has submissively lowered its head, as befitting one in the presence of Royalty.

A sturdy ranchman of the Western plains! an attractive girl! They seem no more than this. You may predict their happy marriage, but you can have no inkling of their intimate relation to a European throne, unless you are one of the many thousands who are following the unfolding of the great serial

THE SECRET KINGDOM

The ranchman (played by Charles Richman) is the son of a Balkan King, spirited from his native land in childhood, to save him from assassination by emissaries of a usurper of the throne.

The charming girl, standing near (played by Arline Pretty), is a Princess Royal travelling incognito, whose life the ranchman has saved.

Ordinary romance shrivels in the light of this story of a lost Prince triumphing over his adversaries for the recovery of a kingdom and gaining, with it, kingdom over a woman's heart.

See this wonderful picture now at best theatres. Read the story in serial form in THE TORONTO SUNDAY WORLD
