Enemy Must Lay Down His Cards, Says Paris Newspaper.

U. S. IN FEAR OF WAR

La Liberte Draws Conclusion From Wilson and Lansing's Words.

Paris, Dec. 22 .- "A dramatic stroke." s the way L'Intransigeant heads President Wilson's note to the belligerents. enting on the note, the newspaper

"Everybody will understand the importance of America's act. Mr. Wilson's proposal is clear. The U. S. has had to suffer from the war. Germany is-torpedoing its boats, and the U. S. is sending us material and already has given us financial aid.

"It is netural the president should like to know the purposes of the beliggerents. Certainly this act will disarrange the sly manoeuvre Germany is socking to accemplish at this time. Since the enemy has provoked peace efforts, it is right that he should explain clearly just what he wants and that he lay down his cards. He will not be able to escape the request of the American Government.

Fear Being Involved.

"On the eve of the Christmas holidays," say La Liberte, "President Wilson would greet the dove of peace with greater pleasure since he fears to see his country drawn into the melee. The submarine warfare which Germany threatens to wage to the utmost regardless of promises made if its peace overtures are ineffective, may draw the U.S. into the world conflict. Secretary Lensing expressed that fear and it is what American public opinion cheals.

"We should certainly be desolated if its dignity and interests obliged the Washington Government to break with perjured and barbarous Germany. More than any other country France, which was attacked without the shadow of a pretext, knows what there is of tragedy in such an hour, but we cannot help it. Our American friends must take into account the fact that we are strugging for ends common to them and to us. For civilization and right we are making war on war and to prevent forever the return of hecatombs such as the universe now contemplates with terior."

DECLARE A DIVIDEND OF FOUR AND HALF PER CENT.

Report Successful Year at Meeting of Guelph Radial Railway Board.

Guelph, Dec. 22. A meeting of the Guelph Radial Railway Board was held this morning, at which the principal business was the declaring of the annual dividend on the stock of the road. A 4 1-2 per cent dividend was declared, which amounted to \$7,-680.39, and this would have been larger but for the fact that the rails larger, but for the fact that the rails which will be used next your were purchased some time ago in order to getthem at a cheaper price. The amount paid for the rails was \$1,000. Another matter of importance which came before the board was the question of increasing the wages of the conductors and motormen on the radial railway. It was decided that an increase of one cent an hour should be given to them

Train Ran Alone for Time After Death of Engineer

Brandon, Man., Dec. 22.-Leslie Reed, a young engineer in charge of the Canadian Pacific Railway engine pulling No. 1, fell out of the cab about Poplar Point last night and was killed. He was not missed for a time by the fireman who, on making the discovery that he was alone on the engine, noti-fied company officials at the first stop and brought the train into Brandon himself. The body of Reed was found and later taken to Winnipeg.

W. Lyon Says It Must Not Be Dragged Into Political Arena.

PEOPLE TO SPEAK

Necessary for Electors to Give a Decided Opinion on Question.

Guelph, Dec. 22.—Speaking of the hydro-electric bylaw that is being submitted to many of the municipalities at the coming municipal election, J. W. Lyon, president of the Hydro-Electric Railway Association, stated to the newspaper men today that it was necessary that the people give a very decided opinion on the question. "There is nothing new in it," stated Mr. Lyon, "but the answer of the project to be dragged any place near the political arena. The whole drift of the vote is putting into effect the proposal that was carried at the meeting of the general executive of the Hydro-Electric Association in Toronto in August. At that time the idea was put this way. That leg'slation also be enacted divorcing the Hydro-Electric Power Commission from any department, and from the control of any department, and from the control of any department of the government. That is exactly what we want to have done now, and we want it done by the people themselves.

Constant Fight.

"For over three years," continued Mr. Lyon, "there has been a constant fight going on to keep the hydro movement out of politics. It has been in danger all that time. To continue that way any longer is too dangerous. To allow it to drift in the entanglements of a political department would mean the end of the whole scheme. It is essentially a municipal undertaking. The municipalities have assumed all the risk, so far, and the government was assumed none at all. If there were any loss, it would be the municipalities that would have to stand it, and not the government. The government wade certain that they would make the municipalities pay the difference, and right there they stated very plainly that the whole proposition belonged to the borse.

The municipalities must speak, and they must speak emphatically because we want to be able to tell the Ontario Government in no uncertain way that they must not put the political noose around the neck of the hydro enter-prises."

The German view here is that whatever the reply of the entente allies, the relations between Germany and the U. S. will have been immeasurably improved, probably to the point of assuring careful steps by the Berlin government to avoid any such conditions as led up to a crisis which threatened a break in diplomatic re-lations. That view is that the ad-vantage of comity with the greatest of neutrals will be so forcibly impressed upon the people of the cen-tral empires that it will not again be

Youthful, Wrinkleless

Now that the social season is here, be especially careful to keep your skin in fine condition. You know how conspict our complexion defects appear under the bright light of the drawing or ball-room. Also how very evident are some make-ups when similarly illuminated. I have my-self discarded cosmetics entirely, using a process which gives far better results, and which leaves no trace on the skin. At night I smear on a thin coat of ordinary mercollized wax, washing it off next morning. This gradually absorbs the as gradually the more youthful skin beneath comes forth, providing a complexion as clear, smooth and delicately tinted as a young girl's. Get an ounce of mercollized wax at your druggist's, and try this remarkable treatment. Remember, too, that wrinkles, even the fine times, are not easily concealed in a brilliantly lighted room. You can quickly obliterate these hateful marks by bathing sour face in a solution of powdered saxolite, one ounce, dissolved in witch hazel, one-haif plnt.
