SUNNY SOUTH****President of United States
Warmly Welcomed in Mobile.**

Mobile, Ala., Oct. 23.—All Mobile to-night lent itself to the reception of Theodore Roosevelt, during his two hours stay in Mobile this evening. There was general closing of all business houses and along the route of the procession from the Union station to the stand on Bienville square, where the ceremonies took place, residences and stores were crowded with thousands of people to witness the national colors.

The route lay out Government street, one of the most modern in the south, for ten blocks, passing the homes of some of Mobile's most influential citizens, her chief educational institutions and one of her historic churches. The sidewalks and streets along Government street were packed with humanity and at McGill Institute, Barton Academy and one or two other points hundreds of schoolchildren were massed, singing national songs as the procession passed. After the chief welcomed the nation's chief.

A stand was erected in Bienville square, which, when the president arrived, was filled with 40,000 citizens. The area was brilliant with electric lights while live oaks formed a canopy of green.

The president reached the stand at 6 o'clock where he was received by a reception committee of 800 citizens. His seat was on an elevated dais in a chair which was built by the students of a technical school in Japan. Back of the chair was an enormous stuffed bear, eight feet tall, bearing in its mouth a floral independence bell and above its head a white dove holding a streamer on which was the inscription: "Blessed is the peacemaker." The bear was killed in a hunting expedition by His Majesty, Alexander II, of Russia in 1887, according to the inscription on a bronze plate on the base of the mounting.

Oliver J. Semmes, son of Confederate Admiral Raphael Semmes, then presented to the president and pinned on the lapel of his coat a handsome souvenir badge as the gift of the people of Mobile.

In delivering the badge Judge Semmes said: "Mr. President—I have been delegated by the people of Mobile to present to you this token, a symbol of their fealty as citizens of the United States. Though it is but a small thing, yet it is a sentiment which represents the loyalty, the worth and the honor of a brave, chivalrous and noble people as it is based on the face of God's green earth. We proud citizens of a proud republic feel and believe that you, as the head of that republic, will by your broad views and judicious actions unite in bonds of friendship all sections of our loved country, that Americans will advance still they become the foremost of nations and may without mingling defy a world in arms. Should this award necessity ever arise then the sons of the south will find a mighty armed camp. Take this little reminder and when you leave Mobile, let the people of the north and south, your arduous and multifarious duties feel and know that the people of Mobile have buried the past and look without fear to the future, recognizing that you, as it shown by your late utterances, are president of the north and south, our whole country."

Judge Alford, chairman of the committee on arrangements then introduced the president who was warmly and warmly welcomed by Mayor P. J. Lyons, who paid high tribute to him as a man, a statesman and a patriot. The president was then delivered by Colonel Edward Lafayette Russell.

**ONE DYE COLORS, WOOL,
COTTON AND SILK.**

Every woman who has tried to color at home, knows of the disappointments and failures. Goods that were thought to be "pure wool" contained cotton. Silk turned out to be, not "pure silk" but a mixture, a black wool dye, for instance, colors the wool in a skirt but leaves the cotton as it was and the same with all other goods. "DY-O-LA" does away with all this uncertainty. "DY-O-LA" takes away the mystery and hard work, and prevents failures. Because "DY-O-LA" colors silk, cotton, wool and mixed goods perfectly. The same package of "DY-O-LA" colors a cotton or silk waist—and a woolen or mixed waist—or all four. "DY-O-LA" is absolutely pure—contains no acids—and will not injure the most delicate fabrics. The colors are beautiful and permanent. A woman, who is tired of dyeing, too good to be laid aside yet not a suitable color, can change it into any shade she likes at a trifling cost with "DY-O-LA." All druggists and general stores have "DY-O-LA" for coloring at home, 10 cents a package. Color card sent free on receipt of 5c. stamp by The Johnson-Richardson Co., Limited, Montreal, Can.

HE WAS AN ISLANDER

Charlottetown, P. E. I., Oct. 23.—(Special.)—The first mate of the schooner Minnetonka that foundered in Lake Huron, was Trevor Waller, of Charlottetown, aged thirty-eight, who left here in the spring to join his ship. Seymour Inman, from Vernon River, was another Prince Edward Islander on board.

"We don't want no fyin' machines," said Erasmus Pinkley, emphatically. "Dem automobiles is bad enough."

"Do you think fying machines will be worse than automobiles?"

"Yas, I do. When you is hit by an automobile, dar you is; but when you is hit by a fyin' machine, you ain't thro' yet. You has a long, hard drop comin'."—Washington Star.

AN EXCELLENT LECTURE**Rev. Dr. Buckley Delights a
Large Audience in Centen-
ary Church.**

Rev. Dr. James M. Buckley, of New York, lectured to a good sized audience last night in Centenary church on "Queer Phases of Human Nature." Dr. Buckley is as much at home on the platform as he is in the pulpit, and he held the closest attention of his audience to the close.

Some strange kinds of evidence were first touched upon. The idea of being able to absolutely identify any man's signature was ridiculed. The doctor said there was no man who could sign his name twice with a half hour interval but the magnifying glass can detect some points of difference.

The popular idea that the character of a man can be judged by his voice, by his build, by his gait and by his countenance, were declared absurd. The so-called science of palmistry and phrenology, Dr. Buckley said, were frauds and physiological reasons were produced to show that the claims of those who practiced them were contrary to natural laws.

WATERLOO STREET CHURCH**Annual Meeting Held Last
Night Was Most Successful.**

The annual meeting of the Waterloo Street United Baptist church last night was largely attended. The financial statement, which was submitted by the treasurer, James Patterson, was gratifying. It showed receipts from all sources to be \$2,024.10; disbursements, \$2,030.08. The balance due the treasurer, however, will be more than met by various sums not yet paid in. William Peters moved the adoption of this report and T. A. Dunlop seconded it, it was unanimously adopted.

The advisory board suggested that the following be added to the board: W. Peters, J. Patterson, J. V. Morrell, Thos. Graham, Thomas Robinson, J. S. Smith, T. A. Dunlop, J. W. Sharpe, Amos Gibbs, M. W. Gallop, W. Fenwick, J. Connell and E. W. Patterson. The following were suggested as ushers: P. J. Coeman, James Ward, F. Wright, O. O. Gibbs, C. J. Lake, John Connell, Charles Wamaker and John Driscoll. This report was also adopted.

This was all the business transacted, and the balance of the evening was spent in a social manner. A short programme was given. Miss H. Gallop, Miss B. Everett and Mr. Noble taking part. Cake and coffee brought a pleasant evening to a close.

THE LAKE FISHERIES

Ottawa, Oct. 23.—(Special.)—The international watersway commission is going to interest itself in the lake fisheries. A proposition has come from the American side that the commission should see if the international boundary could be defined by buoys in the centres of the lakes. The Canadian commissioners have agreed to this. If the line can be buoyed down the lakes it will make place of ignorance on the part of the poachers impossible in future.
