Daniel & Co. only have twelve "Northway" tailored suits, all this season's long coat styles on which they may now cut the prices to clear before November 30th. The sizes, colors, etc., will be found in their advertisement—page 3. Those coming first will get choice.

Freel J. Argall, of Three Rivers (Que.), Canadian representative of the Balse (Glove Manufacturing) Company, is at the Victoria, on his annual visit to St. John. Since his last visit here he has visited every town in Canada from St. John to the Pacific coast. He says that business in the west is better this year than he has ever seen it before. Travellers secure larger orders, and as a general thing the western merchants are carrying heavier stocks. Prosperity is apparent everywhere, and beyond doubt it has been a fine year.

## MANY CANS WERE FILLED

Free Distribution of Caledonia Water Successfully Continued Today.

As early as eight o'clock this morning, crowds of men and women were assembled at No. 3 freight shed, awaiting a chance to get their pitchers filled with the mineral water from the Caledonia Springs.

It was thought that very little of the water remained for distribution today, as the general migration in the direction of the shed yesterday was thought to be large enough to exhaust the supply, thus the cause of the early rises this morning.

Mr. Brown, the lessee of the Caledonia water rights, however, foresaw the great rush which would attend the distribution and sent two cars, loaded with the sparkling fluid, enough of which is left to satisfy the wants of today.

When the Times man left the freight shed this morning, crowds of old and young were wending their way towards the cars where their pitchers and cans were filled. The distribution was in every way a success.

## POLICE COURT

Minnie Worth's Husband Was Unable to Get Her Out of the Hands of the Law.

In the police court this morning Thomas Davis was fined \$5 or two months in jail for being drunk. The magistrate informed "Tommy" that he is coming before him frequently.

Minnie Worth was arrested yesterday afternoon about five o'clock on a warrant issued by her husband for assaulting him at his residence, 46 Erin st.

This morning Worth said that he was a tinsmith, and yesterday at noon went home to enjoy his mid-day meal. His wife, however, had no dinner ready but was enjoying herself by using the household furniture in a violent manner, which action, he said, was caused by liquor. He remonstrated with her, but to no avail. Finally she was directed to leave her husband's house and it took effect in his case. He then denied it and it took effect in her case. He did not want to be charged against her, and stated that of late she has acted extremely.

Robert Dixon has been a very prominent figure in the past few mornings. "Bobby" was the one spectator for the time this morning and after the magistrate had tempered justice with the mildness of a mother, he was, after a short time, caught the eye of the court, and by the great, left the room.

## THE COAL INDUSTRY

New Fields in Cumberland County Are to be Developed.

The Amherst News learns from excellent authority that S. P. Pearson and J. Johnson of Halifax, who have taken up a large field of coal areas adjoining the territory that is now being developed by the Standard Railway & Coal company, have succeeded in interesting a number of wealthy capitalists from Pennsylvania in the property held by them and that it is the intention in a few months to make borings and to otherwise prospect their areas in the view of opening up new coal fields in the province.

The areas now leased by these two gentlemen cover over one hundred and eighty miles of what is now supposed to be the basin for the Cumberland Coal field and extend from the property of the Standard Co. through to Apple river and then up to the Joggins area.
