THE EVENING TIMES AND STAR, ST. JOHN, N. B., SATURDAY, MAY 18, 1918

NEW DEVICE PROVES MASTER OF U-BOATS

Listening Instrument Not Only Tells
of Approach But Shows Exact
Location

Chicago, May 18.—That an entirely new device has been perfected whereby enemy submarines are being trapped and which detects the presence of U-boats at a distance of thirty miles is the information conveyed to the Chicago Daily News, in a despatch to that paper today from its Washington correspondent, who further declares the invention, which is

OPENS VICTORIA DAY.
"The Hidden Hand," Pathe's four-star serial, opens at the Star Theatre on Friday, May 24. Don't miss the opening chapter.

TEN THOUSAND WILL GO OVER
THE TOP ON MAY 24TH, VIC-
TORIA DAY.

At the grand athletic meet at Moosepath under auspices of the Y. M. C. I. total returns good. Further development of devices against submarines are also well under way, which will materially assist in curbing their already lessened effectiveness.

GIFTS TO PIPERS
That each man in the pipe band had presented the instrument which he had used during the life of the battalion as a unit was the information contained in a recent letter from Lieutenant-Colonel P. A. Guthrie, O. C. of the 28th McLean Highlanders, to Mrs. E. Atherton Smith, of this city.

Many a man's dyspepsia is due to the mistaken belief on the part of his wife that she can cook.

C. P. R. TRAIN SERVICE.
Attention of readers is called to Canadian Pacific advertisement in this issue covering train changes effective Monday, May 20.

The suburban service is about the same as that in effect last year. Suburban trains will leave the city at 9:15 a. m., 12:10 p. m., Wednesday and Saturday, and a train at 9:15 p. m. after June 2. These figures in local city time.

The Sunday train service between St. John and Moncton will be restored in June, and the exact date will be announced later.

ELECTRICITY AND CROPS.

British Government Establishes Stations to Test the Much-Disputed Theory.

Electricity as an aid to agriculture is receiving attention from the British government. There have been many experiments in stimulating the growth of crops by electrical means, but this is the first time any government has taken an interest in the matter.

Several stations have been erected throughout the country where seed is electrically treated. It is claimed that the result of such treatment is an increase of from 25 to 80 per cent in the final crop. More than 60,000 bushels of seed grain will go through the process before planting time.

Private companies are supplying apparatus by which whole fields are to be electrified so that the plants will be stimulated by electrical discharge throughout their period of growth. E. H. Demmon, U. S. consul at Birmingham, England, reports that the cost is

not prohibitive and the power required is very small.

Teacher—Now, Robert, can you tell me how a bat hangs with his head downward?

Bobby—Please, miss, do you mean a chimney bat or an acrobat?

BROWN'S GROCERY CO., OPENING SALE
