

WAY PAVED FOR RE-INSTATEMENT OF ATHLETES OUT SINCE 1920

RESOLUTION ON SECESSION IS NOT PRESENTED

M. P. B. Turns Down Recommendation Re Baseball Sanctions

THE ruling made last year at the annual meeting of the Maritime Provinces branch of the A. A. U. that no baseball sanctions need not be limited to one league in a city was affirmed at the annual meeting in Amherst on Thursday, according to W. E. Stirling, who was re-elected New Brunswick vice-president and who returned to the city today. The City League here sent over a recommendation that such sanctions be limited to one league, but this was turned down by the annual meeting. The situation, therefore, remains as it was at the beginning of the year.

RE-INSTATEMENTS UP

The question of re-instate-ments took up the greater part of the meeting, according to Mr. Stirling. Expressions of sympathy for those athletes who had been placed outside the pale since 1920 were heard on all sides and the way paved for taking many of them back in tendering the olive branch to three athletes, the union instructed its delegates to the annual meeting of the C. A. A. U. to fight strenuously for these re-instate-ments. Mr. Stirling said that this decision opens the way for any athlete who has been banned since 1920 to submit his case in proper form for consideration. This is a step off the beaten path pursued by amateur officials in recent years and the move will be watched with interest.

SECESSION MATTER KILLED
Short work was made of the secession talk when a resolution sponsored by the Halifax Crescents was killed in committee. The matter, therefore, was not discussed in the open. There was about 50 delegates in attendance, Mr. Stirling said.

WANTED BOLTON
Some of the Moncton delegates wanted G. P. Bolton, of Sussex, to run for the presidency but he declined, and "Sammy" Doyle was returned without opposition. Moncton also opposed Mr. Stirling's re-election, but he won out.

SAINT JOHN'S, N.B., Aug. 6.—The annual regatta postponed yesterday after two races had been run off, owing to a high wind, was held this afternoon. Conditions were ideal from start to finish, and the dense crowd that lined the shores of Quidi-Vidi Lake, even exceeded that of yesterday.

SCRAPS and arguments regarding the amateur union in the Maritime Provinces are of such frequent occurrence that one is apt to lose sight of some of the real good this union is accomplishing and it only takes a report such as presented to the annual meeting by the retiring secretary, Gordon Quigley, to remind sport followers of the growth and importance of this union. Mr. Quigley retired this year and is being succeeded by L. B. McMillan of Charlottetown but it is safe to say the union never had a more energetic or capable official than the Halifax man and it is with regret that those who have the interest of amateurism at heart see such a competent man step out. During his tenure of office, the union flourished, until today he reports there is 2,084 athletes on the M. P. B. register and that after a hard struggle with Olympic expenses the union is back with a credit behind it. New Brunswick, under Mr. Stirling, has kept pace and while there are several matters still to be attended to, the progress has been satisfactory. One of the matters many of the fans would like to see accomplished is the formation of a New Brunswick Amateur Baseball Association. Assurances have been received on several occasions that such would be done but nothing tangible has ever transpired. Baseball is growing rapidly and it should be under the control of an organization apart from the M. P. B., similar to hockey and skating.

A NEW name was carved on to the classic cup that commemorates the winners of the Canadian senior singles swimming championships last Saturday when Walter Hoover, Philadelphia, easily defeated Johnny Duran in the finals. Duran was beaten by ten lengths. Hoover also won the quarter-mile dash.

THE coming championship fight between the Water Department and St. John's for the City League title has the local baseball following on edge after a season in which fairly good ball has been served up. The Watermen, by reason of their winning both sections of the City League, are favored by many to go through again to another Maritime title but there is many a slip possible and the Fairville crew will put up a real fight. Their star twirler, "Bunker" Murphy, has been taking things easy in the second series in the way of pitching but in the batting line, the Fairville ace has been smashing away at a great rate. The Watermen have picked up a coming star in young John Armstrong and he should be a tower of help to last year's Maritime champions in the crucial test. Apart from the pitching, the batting duel between Aubrey Snodgrass, the league's leading hitter, and "Freddie" Fitzgerald, the clubbing backstop of the St. John's, also is arousing interest. According to the official scores, Snodgrass has belted the ball consistently for a 480 average for the entire year. Recently, Fitzgerald has been traveling at a terrific clip. In a short series, however, it usually is some other batter outside of the consistent ones who manages to capture the honors. The world series' lineup abounds with such instances. Gordon, Haney, Sparks, Corrigan, Mike Latham, Dick Bartlett, Ed Snodgrass and Thompson on the Watermen's lineup present a formidable barrier to the assault to be made on "their" honors. But Murphy, Fitzgerald, O'Toole, Doherty, Britt, Nelson, McPhee, McMurray, Sherwood and the other Fairville boys are determined to make it a real scrap right from the start. We shall see.

TWO days after the host between Premier Maglen and Rt. Hon. Mackenzie King in Canada, Messrs. Jack Dempsey and Gene Tunney will look in another big one at Yankee Stadium. Sept. 14 has at last been settled on as the date for this world's title bout and both Dempsey and Tunney now are in training.

AN IMPOSING list of entries gives the New Brunswick Tennis Association's 1926 championship tourney opening in Fredericton on Monday plenty of material for some interesting play. The withdrawal of Haas short, last year's men's champion, and also of Phil Halliday, who teamed with Short to win the men's doubles, removes two dangerous contenders. Last year's mixed doubles title team, Miss Jean Knight and J. P. McInerney, will be on hand this year. Miss Fairweather, last year's ladies' champion and member of the championship doubles combination with Miss Margaret Henderson, is not entered this year and Miss Henderson is teamed with Miss M. Tilley. Lloyd Keating, who won the junior singles last year, is competing in senior company this year. Keating is from Moncton. It is noteworthy that all of last year's championships went to Rothesay save the mixed doubles honors which were taken to Renfrew. The tourney of 1926 started on August 10 and ran its course on August 19. This year, the association hopes for a little better break and expects to crown its champions by the end of next week.

Royals and Martellos Win in S. E. League—St. Johns and Trojans Play Tie

The Royals collected 10 hits off Leary and triumphed over the Nationals by a score of 4 to 2 on the South End diamond last night in a League fixture. The Nationals played errorless ball but the hitting of their opponents proved too much for them.

Paul Twiford for the colored aggregation and confined the Nationals to four scattered safeties. Leary also kept his evenly distributed. Curran's running catch of Price's drive in the third inning was a brilliant piece of fielding. Paul collected a double and a pair of singles in four trips to the plate.

The Martellos strengthened their grip on first place in the South End League last evening when they walloped the Crescents by a count of 17 to 1 in a six-inning game at St. Peter's park. How To Swim

By LILLIAN CANNON

FIRST TWO POSITIONS OF BACK STROKE.

FROM the breast stroke one graduates very easily to the back stroke, which is invaluable for resting. While in deep water, push forward so that one goes over backward. The first position is with hands extended along the side.

Second, the hands are brought together over the body, touching the body all the time, and upward as high as is natural.

Third, the forearms are brought over and outward to the stretch of the arm, and in the water with palms at right angles to the surface.

Fourth, the arms are swept downward to the first position, beside the body, and the movement is started all over again.

Bicyclist, Seeking Health, Reaches N. B. After 27,000 Mile Tour About Continent

EDMUNDSTON, Aug. 7.—Tanned by the sun of half a hundred different climes, and bearing greetings from governors, mayors and even from the White House, "Happy Sam," 21-year-old bicycle tourist, is now in Edmundston, on his way to the old country, where he intends to travel across Europe in search of adventure.

Condemned to die at the age of 18 years from tuberculosis, "Happy" desires to see the grim reaper, and to date is some four years ahead in the marathon; having been pronounced O. K. in Chicago.

"Happy" has covered 37 states in the Union, parts of Mexico, Cuba and Canada.

He left Montreal five days ago, and on Wednesday made the trip by bicycle from Riviere du Loup to Edmundston, a distance of 90 miles, arriving here early in the evening.

"Happy Sam" was received by His Worship Mayor Gormier yesterday, who assured him a cordial welcome in Edmundston.

He has now covered about 27,000 miles since 1922, and during that time has suffered untold hardships; he has had one ear frozen when talking through the Canadian Rockies, and was lost twice in the Mojave desert of California, having been two days without food or water.

"Happy" is on his way to Saint John and Halifax, at which latter place he will take the boat to England.
