#### AN IMPORTANT RESOLUTION.

Local Live Stock Markets.

The cattle markets on the other side were bad last week, but while the quotations are about the same business in London and Liverpool was much worse. The improvement noted two weeks ago proved more than the shippers could stand. They all started in to engage space and ship. No advice of their friends could induce the more impulsive ones to wait for a time. Cases are mgationed, where cattle sold lower than they could be sold in Montreal. In London the finest steers made only 5d, with the demand slow, but the average price was hardly above 44d. In Liverpool the private cables quoted tops at 5d to 51d, but no sales were reported at anything like these figures. The markets both in London and Liverpool were without a doubt the worse of the season, and a few of the shippers will need a pretty strong inducement before they go in again.

#### East Nissouri Show.

East Nissouri Show.

The show was held at Kintore on Friday last. A furious shower of rain just after dinner prevented numbers of people from attending, but the afternoon turned ouvery fine, and the show proved a great success. The exhibition of horses was good and eattle fair, what cattle was there were most excellent in quality. Mr. Sinkins' herd of Herefords were on the grounds early in the afternoon, but were taken home on account of the rain. Mr. Thompson's herd of Shorthorns occasioned many favorable comments. Although thinned out by an a recent heavy sale, some of the cattle brought \$200 a head. There was a very nice exhibit of ladies work inside. Take it all in all the show was a success. Messrs. Jas. Sutherland, M. P.; G. R. Pattullo and others from Woodstock were present, as were also a number from Ingersoll. The old Pottawattomic chief, Simon Pogagon, whose father, Leopold, deeded the land upon which Chicago is built, had been induced to come from his home in Hartford, Mich., for Chicago day, stood beside the Columbian bell with uncovered head in the dress of a white man and received the homage of thousands. He was born 63 years ago, September 27 last, on the anniversary of the day that the transfer deed was delivered to the agents of the United States Government. By his side stood Chief John Young, 60 years of age, who came from the Pottawattomic reservation near Niles, Mich., to tell the people of all nations that his father, who lore the same name, christened the World's fair city "Chicago," which literally intrepeted means "where the skunk dwells."

Long before the last bomb of fireworks had been available.

erally intrepeted means "where the skunk dwells."

Long before the last bomb of fireworks had been exploded on the lake front, there was a dangerous jam of people on the high-way leading to the elevated railroad station and the sixty-fourth street gates. The precautions taken by the police and officers of the guards to resist the human tidal wave which swept towards the street and the stairway leading to the elevated road were inefficient, and many men and women were injured in the crush. It was nearly morning when the grounds were cleared of the great crowd. Several accidents occurred, in which many persons were injured and others killed.

#### JURIES FAIL IN THEIR DUTY.

If anything will serve to bring the jury system into disrepute it is the repeated ailure of London,Ontario, juries to do their

duty.

Last year a detective was walking down one of the main streets of that city. Complaint was made to him that a tramp was committing a nulsance. He attempted to arrest the tramp. The latter resisted and called to a companion who was near by. The companion came up and shot and killed the detective.

ne detective.

Now, whether the detective was justified arresting the first man or not, he was ertainly not interfering at all with the ne who came up and killed him.

Yet a London jury satisfied itself with adding both prisoners guilty of manslaugher.

inding both prisoners guilty of manslaughter.

Some time since four constables went out to Raleigh Township, near Chatham, to surrest a negro "tough" named George Freeman. He and his brothers declined to be arrested and fired upon the officers. The latter fled and the negroes pursued. The pursuers overtook one of the officers named Rankin, and beat his brains out, they were arrested for murder.

Feeling ran high in Chatham so the venue was changed to London. Now, though the officers had a warrant for the arrest of George Freeman, a London jury could only see in poor Rankin's slaying a case of manslaughter.

#### Corn and Whisky.

Iowa receives \$25 for 100 bushels of corn. Illinois pays for it. This number of bushels of corn is converted into 400 gallons Peoria whisky, wholesale price gallons Peoria whisky, wholesale price of which is \$1.15 per gallon, or \$460 for the whole. Query: Should Iowa purchase back this 100 bushels of corn, would she have lost or gained, and how much? The United States government gets 90 cents internal revenue on each gallow. How much does labor get? How much does the poor (?) distiller get?

The man who sells his corn can get three drives per habel. How much does

three drinks per bushel. How much does he make?

Four hundred gallons could be con-

veyed in one quarter of a car. How much would the railroad get?

Invested in coal, the amount of \$460, which Iowa would pay for the return of her 100 bushels of corn in whisky, would bring her, at \$8 per ton, 58 tons. At 10 tons to the carload six cars would be employed. More freight to the railroad, more cars to be built and kept in repair, more engines, more engineers, more firemen, and so on ad infinitium. Which of the two channels of trade brings the most misery? Which the most comfort? Think this over.-Ventilator.

#### A Drunkard's Awful Deed.

A Hungarian of Cleveland in a fit of despondency and crazed by drink had a quarrel with his wife and stepchildren and drove them from the house. He and drove them from the house. He took his little daughter Lena to a vacant lot, and drawing a claspknife with a blade 4 inches long plunged it into her temple. He then shot her in the right temple, the ballet entering her brain. He then stabbed himself twice in the left breast and fired a bullet near the same place. the same place.
