

GOLDSTREAM AND SOOKE COMPARED

REASONS FOR A VOTE FOR EXPROPRIATION

New Revenue, a Rival Disposed of, and Problems Solved.

(From Friday's Daily.)

That a more abundant source of domestic water supply must be secured at once so as to be prepared for near future need of this rapidly-increasing city is a matter upon which citizens are agreed. The only difference of opinion seems to be as to whether or not Sooke should be chosen in preference to Goldstream.

There is a short and clear explanation why, on every ground, the purchase of the Esquimalt Waterworks Company's plant is preferable to the bringing in of water from Sooke lake at this time. The natural route by which to conduct a supply from Sooke would be by way of Goldstream and therefore the outlay which would be necessary to bring water from the latter point is common to both schemes. The only satisfactory method of conduit between Sooke and Goldstream is a tunnel, the cost of which would be far in excess of the sum which it is estimated the arbitrator will award as the purchase price of the Esquimalt company's rights and properties.

By going to Goldstream the city gets a large source of revenue, disposes of a powerful and well-managed rival, and is in a position any time in the future, if its needs demand and its finances enable it to do so, to continue on to Sooke.

The matter of revenue is an important consideration. If the city were to go to Sooke it would simply have whatever revenue was to be derived from consumers within the present area of supply, and would have an important section of the community still depending on a private company for its water, with all the awkward problems which that has given rise to. But if the Esquimalt system is purchased the city at once comes into possession of a large revenue, understood to be about \$45,000 a year gross at present. This sum is greatly increased with even the present population of Victoria West and Esquimalt. It is a matter of notoriety that there are lots of householders out there who do not take the company's water, and that the company has not been at all active in extending its mains. With the city owning the system there is no doubt that the number of consumers in Victoria West at any rate, would be increased to a considerable extent.

SEEKING CHANGE

Thaw's Attorneys Will Endeavor to Keep Him From Mattawan.

Fishkill Landing, N. Y., Aug. 13.—Supt. Baker of the asylum for the criminal insane at Mattawan, started this morning for White Plains to take charge of Harry K. Thaw, and take him home to the asylum. It was expected that Thaw would be in his cell at 7 o'clock this evening unless Justice Mills listened to the plea of Thaw's attorneys that he be confined elsewhere.

FOR IMPROVEMENT OF DEEP WATERWAYS

Speaker at Irrigation Congress Urges \$500,000,000 Bond Issue.

Spokane, Wash., Aug. 13.—The general keynote of the addresses to-day before the seventeenth National Irrigation Congress in session here, was the deepwater ways of the nation and their relations to the prosperity and growth of the United States.

MOTHER AND CHILD INSTANTLY KILLED

Panic Stricken by Fire, Woman Jumps With Little One From Window.

New York, Aug. 13.—Panic stricken by a small fire in the tenement where she lived, Mrs. Esther Schwenger clasped her four-year-old child to her breast and jumped from the fourth story window early to-day. She struck the street below headfirst and mother and child were both killed. The fire was inconsequential and was soon extinguished.

CHINESE MINISTER RECALLED

Wu Ting Fang Ordered to Peking for Further Assignment.

Washington, Aug. 13.—Chinese Minister Wu Ting Fang has been recalled from Washington and ordered to Peking for further assignment. His successor will be Chang Yin Tang, formerly charge d'affaires at Madrid, and now deputy vice-president of foreign affairs. Mr. Wu is now in Peru, to which country he is accredited along with the United States.

FORMER BANKER RELEASED

Drives From Penitentiary in Automobile After Serving Fifteen Months.

San Quentin, Cal., Aug. 13.—J. Dalzell Brown, who was vice-president and general manager of the wrecked California Safe Deposit & Trust Company, was released from San Quentin penitentiary at 6:15 this morning after serving 15 months.

SUPFRAGETTE WILL LECTURE

London, Aug. 13.—Mrs. Fankhurst, the suffragette leader, will shortly take a trip to the United States, and will deliver a series of addresses in the large cities there.

NEW RECORD BY CURTISS BI-PLANE

THE "RED BUG" SAILS 12 MILES ACROSS COUNTRY

Covers Distance in 19½ Minutes—Machine Under Perfect Control.

Minneapolis, L. L., Aug. 13.—C. E. Willard, in the Curtiss bi-plane, "Red Bug," to-day sailed 12 miles in 19½ minutes, over three towns and rough country where descent would have been practically impossible, making a flight in certain respects the most wonderful ever accomplished in a machine heavier than air.

Willard brought the machine down under perfect control within 15 feet of the spot where he started. It is said that he exceeded the best cross-country record of the Wright Bros. The French record is better, but it was made over a smooth plain.

Willard started from Minneapolis at 5:30 o'clock this morning, the bi-plane rising beautifully like a bird and sailing away, moving at the will of the aviator. He made two turns around Hempstead plains and then started toward Garden City. He was not familiar with the country over which he flew, not having examined it or made any investigation before the flight. When Willard reached Garden City he was about 150 feet high. He passed over that town with the machine working beautifully. Then he crossed over Westburg and Hicksville.

During nearly the entire flight he was over woods, houses or other obstruction that would have worked disaster if he had attempted to descend. At five different points he passed over telegraph wires and crossed eight public roads. When he reached the motor park way he made three circuits of the course.

Willard intended to try to break the world's record for endurance and cross-country flying, but he found that his motor was working badly and decided to return, abandoning the attempt for the present.

OAK BAY AVENUE BEING IMPROVED

Constable Dawson Added to Staff of Municipal Police Force.

(From Friday's Daily.)

Tenders are being called for the blasting out of the rock on the south side of Oak Bay avenue in the places where it encroaches on the street. In some places there is a large quantity of rock, and when removed this will be used in street and sidewalk construction.

A determined effort is being made to improve Oak Bay avenue. A sidewalk is being constructed on the north side of the street, work on this having already commenced. The sidewalk cannot be constructed on the other side until the rock has been removed, and this work will commence at the end of this month. Tenders must be in the hands of the acting clerk of the municipality on or before the 28th inst.

A special constable has been engaged by the Oak Bay council. For some time two specials have been employed by the city to keep order during the race meet. One of these, Ernest Dawson, will be put on the Oak Bay staff permanently.

MOTHER AND CHILD INSTANTLY KILLED

Panic Stricken by Fire, Woman Jumps With Little One From Window.

New York, Aug. 13.—Panic stricken by a small fire in the tenement where she lived, Mrs. Esther Schwenger clasped her four-year-old child to her breast and jumped from the fourth story window early to-day. She struck the street below headfirst and mother and child were both killed. The fire was inconsequential and was soon extinguished.

TRAPS FOR AUTO SCORCHERS. Farmers living along the Folsom road, which recently has become a speedway for automobiles, are accused of digging trenches and chuckholes in the road for the express purpose of wrecking machines.—Sacramento dispatch.

CHARGE FRAUDS IN COAL LANDS

CONDITIONS IN ALASKA TO BE INVESTIGATED

Denver, Aug. 13.—The hearing to be held in Seattle within a few weeks will, government officials claim, disclose proof of gigantic frauds in connection with coal lands in Alaska. This investigation will be followed by similar hearings to be held in a score of cities. Special agents of the government who have been working quietly for many months securing evidence will testify.

The facts pertaining to the alleged frauds are known to Secretary of the Interior Ballinger and Fred Dennett, commissioner of the general land office, and they have given the word to their subordinates to proceed against persons responsible for the alleged frauds. Commissioner Dennett stopped off in Denver several days ago on his way to the coast and held a lengthy conference with the chief of the field division of the general land office, with headquarters here, when instructions were given as to the method of procedure.

That more than 200,000 acres of rich coal lands in Alaska, some of them having veins sixty-five feet in thickness, have been held upon by dummy entriesmen procured through agents of six large corporations, the land office has ample evidence to prove, according to information made public here.

The government's interest lies in the wish to have the great Alaskan coal lands opened to supply coal for the ships of the navy stationed in the Pacific. It is said that the opening of the Alaskan deposits will give the United States control of commerce of the Pacific ocean by reason of its ability to obtain fuel almost inexhaustibly.

Not Officially Informed.

Seattle, Wash., Aug. 13.—"If any hearing in the case of alleged frauds in the filing on coal lands in Alaska is to be held in Seattle, as reported in dispatches from Denver, it is entirely without my knowledge," said S. A. Twitchell, receiver of the local United States land office to-day. "Such hearing may be held, but so far I have received no official notification to the effect."

WOMAN LOST IN DESERT

Has Been Missing for Days and Is Believed to Have Died of Thirst.

San Bernardino, Cal., Aug. 13.—Mrs. Harriet McCormick, 75 years of age, is supposed to have lost her life in the desert near Victorville. Dispatches received here to-day stated that the aged woman left Victorville late Sunday to walk to the home of her daughter, which is six miles from the Mojave river. When she failed to reach her destination by nightfall, the daughter became alarmed and searching parties were sent into the desert.

The heat in this section for the last week has been intense and it is believed Mrs. McCormick died of thirst under the burning sun. Another party left to-day to search for her body.

INQUIRY AT STANDSTILL

Committee Investigating Charges Against Supreme Court Awaits Instructions.

Olympia, Wash., Aug. 13.—The work of the Halsey committee, appointed by the House of Representatives to investigate charges against the Supreme Court, has come to a halt. It was announced to-day that no further steps would be taken in the inquiry until the committee has received instructions from the House. Dr. Eugene Jordan, who was charged by P. F. Morrow and other witnesses with displaying a typewritten document purporting to be the opinion of the Supreme Court in a case at bar in advance of its public announcement, was called before the committee last night. He was questioned briefly concerning his connection with the Sullivan case, but his testimony did not throw any light on the case, and he was excused from further attendance.

FIGHTER AND SCIENTIST

Rear-Admiral Thomson Passes Away at Seattle.

Seattle, Wash., Aug. 13.—Veteran of two wars, fighter in both the army and the navy, with a distinguished record of service on special scientific missions for the government and the Smithsonian Institution in time of peace, Rear-Admiral Wm. Judah Thomson, U. S. A., retired, died yesterday aged 83. The end came at the Providence hospital. For six weeks Admiral Thomson had been suffering from heart trouble and complications ensuing from the fevers and hardships contracted in Africa and the South Sea Islands in government service.

BODIES FROM MISSING WARATAH SIGHTED

All Hope for Safety of Missing Steamer Has Been Abandoned.

Cape Agulhas, South Africa, Aug. 13.—All hope for the safety of the big liner Waratah, with 300 passengers, was abandoned to-day, when the steamer Insiza arrived here, having covered the course of the lost ship and reported that many bodies had been seen floating in the sea off the Bashee river, where the missing vessel was last seen.

It is believed that the ship must have gone down in a storm.

HUNDREDS ARE LEFT HOMELESS BY FIRE

Three Hundred Buildings Destroyed—Relief for Sufferers.

Dover, Del., Aug. 13.—A company of militia with tents, blankets and provisions started to-day for Milton, forty miles south of here, which was practically destroyed by fire early this morning, when 300 buildings were burned in a fierce conflagration. The town has a population of about 2,000, and most of the people to-day are homeless as the result of the fire. No one was killed.

When the fire was first discovered a high wind was blowing, and in spite of the efforts of the volunteer department, the flames gained headway and rapidly spread until they had laid waste a wide area. No estimate of the financial loss can be made at this time, but it will be heavy.

Many persons have lost everything they possessed, and are without even sufficient clothes.

CHICAGO LOOKS FORWARD

Hopes to Have Five Million People by 1940.

Chicago will have a population of 5,000,000 in the year 1940, according to an estimate by Francis A. Eastman, city statistician, in his city manual for the current year. The estimate is based on the gradual increases of population for the last few decades.

Of the 2,572,835 residents of the city the report sets forth that 899,554 are Americans or persons whose parents are not foreign-born. The Germans rank second, with a population of 263,708; the Irish third, with a population of 240,550; the Swedes, with 148,307; the Russians, with 123,238; and Bohemians, with 116,549. Thirty other foreign countries are all below the 100,000 mark. The Chinese population is 1,801; the Japanese 257. The Albanians are the lowest, with a population of 38.

DARING BANK ROBBERS TAKEN

BOOTY AMOUNTING TO \$7,000 RECOVERED

Tried to Escape in Auto, But the Machine Broke Down.

Santa Clara, Cal., Aug. 13.—Two young men walked into the Santa Clara Valley Bank at 10:30 o'clock this morning, covered the office force of four men with revolvers and compelled the cashier to turn over to them \$7,000 in gold. The robbers then backed through the door, jumped into waiting automobile, in which they had driven to the bank and started towards San Francisco. About a mile out of town the automobile broke down and the two robbers and the driver of the machine, who evidently was an accomplice, took to their heels.

The three men were captured about noon, three-quarters of a mile from the place where their automobile broke down. The \$7,000 in gold was recovered by the posse, which was led by Sheriff Langford, of Santa Clara county.

The men when overtaken were feet toward San Francisco on foot, having hidden the treasure between them. The officers who had pursued the robbers in automobiles were armed with rifles and the capture was effected without resistance. The robbers were taken immediately to San Jose, where an effort is being made to identify them.

The cashier of the bank was forced to hand over all the gold in sight. "Don't hold any back or I'll blow your head off," said the robber. The cashier was forced to put the gold into canvas sacks which the robbers had thrown under his counter.

WASHINGTON SENATOR BIL

Has Been Greatly Misrepresented.

Seattle, Wash., Aug. 13.—"The new tariff bill will bring a wonderful prosperity to the country, and when the people study it and learn of its effect for good, they will quickly see that it has been subjected to much misrepresentation and hastily formed opinion." This was the declaration of United States Senator Samuel H. Piles, who has just returned from Washington, D. C.

"We did not get all we wanted, yet there is a satisfactory tariff on shingles, and I think that on the whole the tariff will prove effective in bringing prosperity to the country. The impression prevails throughout the east that it will produce a marked revival in business."

Senator Piles was asked regarding the policy of the president toward the department of the Interior.

"The president," he said, "will not do anything that will deprive the people of the water power of the country."

KNIGHTS' TEMPLAR

Halifax, N. S., Aug. 13.—At the twenty-sixth annual assembly of the Sovereign Great Priory of Canada, Knights Templar, held at Truro, officers were elected as follows: Supreme grand master, W. F. Byrie, Toronto; grand constable, John W. Logan, Truro; grand marshal, Allen W. Mansell, Montreal; grand chancellor, W. H. Whyte, Montreal; grand treasurer, G. V. Mansell, Toronto. The members of the Sovereign Great Priory came to Halifax yesterday, and were met by the Nova Scotia preceptory of Halifax. The registrar is John Dunlop, of Toronto, and the grand chaplain, Rev. R. J. Craik, of Kingston.

DOOD'S KIDNEY PILLS

The Public may be assured that this is the only medicine of its kind, and that it is the only one that is guaranteed to cure all kidney diseases.

MOORS BOMBARD SPANISH FORT

ATTACKING ARMY STRONGLY REINFORCED

Both Sides Lose Heavily During the Recent Fighting

Lisbon, Aug. 13.—The Spanish troops at Mellilla have been driven from all advanced positions by the Moors, who are bombarding the fortress of the city with cannon which they captured from the Spanish, according to dispatches from Mellilla to-day.

The fighting has been going on for a week, and both sides have lost heavily during the conflict. The Spanish troops are taking refuge within the inner fortifications.

The Moors have gained a big advantage over the Dons, and reinforced by Rif soldiers and sympathizers from the interior, they have the largest force of men that has yet attacked the city.

The cannon have been hauled up the steep slopes of Mount Jugura, which overlooks Mellilla. From there the Moors are directing a heavy fire downward into the fortifications.

General Marina, who is in command of the Spaniards, led a sortie against the tribesmen in a vain effort to drive them from the outside entrenchments that they have captured.

The Spanish fought bravely. Facing a withering fire directed at them by the Moors, they were gaining ground when a force of Moorish troops charged their flank and drove Gen. Marina back into the fortifications. The general was nearly captured before safety was reached behind the walls. The position of the defenders is growing more untenable.

The Moors, pleased by their advantage, are pressing forward eagerly, and impelled by religious frenzy are taking desperate chances to capture the town and annihilate the depleted Spanish garrison.

AUTHORITIES SEEK MANAGER OF BANK

Alleged to Have Overdrawn Account With Institution Which Closed Doors.

San Francisco, Cal., Aug. 13.—A warrant charging a felony is out for Wm. Hays, vice-president and manager of the Union States Savings and Commercial Bank, which was closed by order of Superintendent of Banks Alden Anderson three weeks ago. The warrant was sworn to yesterday by Anderson, following his report of the bank's condition.

Thus far Hays has not been arrested. The specific charge against the banker is that of overdrawing his account with the Union States Bank to the extent of \$1,200 on July 7th, when Anderson alleged Hays had no money to his credit in the institution.

Under the new banking law of California, an officer of a bank is guilty of felony should he overdraw his account with the bank at which he is employed. Anderson reported that the closed bank will pay about 75 cents on the dollar, provided forty cents is realized on each dollar represented by notes recovered.

The superintendent stated that the bank never was conducting a proper, and the bookkeeping methods were lax.

SAYS NEW TRAFFI WILL BRING PROSPERITY

Washington Senator BIL Has Been Greatly Misrepresented.

Seattle, Wash., Aug. 13.—"The new tariff bill will bring a wonderful prosperity to the country, and when the people study it and learn of its effect for good, they will quickly see that it has been subjected to much misrepresentation and hastily formed opinion." This was the declaration of United States Senator Samuel H. Piles, who has just returned from Washington, D. C.

"We did not get all we wanted, yet there is a satisfactory tariff on shingles, and I think that on the whole the tariff will prove effective in bringing prosperity to the country. The impression prevails throughout the east that it will produce a marked revival in business."

Senator Piles was asked regarding the policy of the president toward the department of the Interior.

"The president," he said, "will not do anything that will deprive the people of the water power of the country."

THREE CADETS PROBABLY DROWNED

Are Believed to Have Lost Their Lives by Capsizing of Boat.

Avalon, Cal., Aug. 13.—Launches and patrol boats to-day are searching the 25 miles of water between Catalina Island and the mainland for a trace of three cadets of the Whittier state school, who disappeared from the school's summer camp here Wednesday.

The boys are Will Ernest, aged 17; Ramon Salazar, and George Weaver, both 18 years of age.

The absence of the boys was noted Wednesday evening and a search instituted. Two boats belonging to a Y. M. C. A. camp also were missing. It is feared that the cadets, determined to escape from the school, tried to row to the mainland, and were lost in the heavy seas that have been running in the channel for the last three days.

Mrs. Brooks, widow of a captain in the merchant service, of Montpelier, Vt., near Chelmsford, who is probably the only person living in England who saw Napoleon, is now in her ninety-eighth year. As a small child she was rowed across Plymouth Sound when Napoleon was on board the Bellerophon.

CLOSING NIGHT OF FLOWER SHOW

RECEIPTS HAVE BEEN BELOW EXPENSES

Splendid Concert Given at Final Gathering in Drill Hall.

(From Friday's Daily.)

There was a large attendance at the closing of the flower show last evening, and the musical programme, under the direction of Mrs. C. E. Wilson, was a most excellent one. The Em-press orchestra rendered a series of selections in their best style, while the order, Mrs. Gregson sang "Beauty's Eyes," by Testi, and "Fiddler and I" as an encore, both of which were greatly enjoyed by the audience.

Miss Nyland's spirited rendering of "Sweet Vale of Avoca," won her a well deserved recall, to which she responded with a dainty little air, "Bow of Roses," which was most appropriate.

Mrs. D. C. Reid, although suffering from a slight cold, was received with great enthusiasm, and her splendid voice filled the hall apparently without effort, although her song, "In Summer Time," demanded full, high notes. In response to a most persistent recall, she gave a dainty, rippling, interpretation of "The Brook."

Mr. Jessie Longfield's violin solo, "Cordova Memories," his own composition, was much enjoyed.

Miss Cochrane presided at the piano for the orchestral numbers and also accompanied Mrs. Reid and Mrs. Gregson with her customary efficiency and tact. Mr. Dobson accompanied Miss Nyland and Mr. Longfield in his usual happy manner, playing as he always does with sympathy and feeling.

The young ladies who assisted Miss Angus in the tea rooms, carried out a pretty color scheme during the afternoon and evening by wearing white dresses, with fancy white caps and aprons, ornamented with different colored ribbons to match the flowers on their several tables. The entire effect was very pretty.

The committee of the Horticultural Society, while they feel very much encouraged at the decided improvement from year to year in the quality of the plants and flowers shown, cannot help being disappointed that the attendance at the flower show is not larger.

The gate receipts last year for the first day were \$97.45. This year the first day was \$101.00. The second day last year was \$108.90; this year the second day was \$115.50. The prize list, including the cups, will go about \$350, so that there is a deficit of about \$80. This is not as it should be. The committee go to an immense amount of trouble and expense in making the show not made worth while the competition will not be so keen.

A special feature of the show was the decorated baskets, which were well worthy of all the praise bestowed on them, and the three trade exhibits were exceptionally fine.
