PROPOSES TO CHANGE INTO STOCK COMPANY

Norton Printz Explains a Scheme Which He Has in Connection With Organization.

Norton Printz, of the Twentieth Cen-tury Shorthand System, was seen Saturday morning with reference to the progress which is being made in introduc this into British Columbia. He said:
"I have proved the soundness of the
'20th Century Shorthand," I reached Victoria on the 18th June last from Tokio, and within the three months-lapsed I have opened studios in Victoria and Vancouver, also an agency at Kam-loops. I have trained pupils to write shorthand and transcribe correctly ver-batim, and have also taught pupils to

type-write with their eyes shut.
"I possess five new machines, and want twenty more within a few months, and I want to furnish and fit up twenty additional studios throughout Canada, and to train suitable people to act as managers and examiners for those branches. I want the head studio for Canada in Victoria, and I want to make

my permanent home here.

"All this costs money, and more than I possess. I want more dollars, and propose forming a limited liability enter prise in \$1 shares. I do not want any salary until the shareholders have re ceived 10 per cent. on their investment. "I further propose to add other depart ments of business training, as bookkeep

ing, figuring and telegraphy.
"To those shareholders who invest \$500 I would give the preference for positions in the enterprise. I estimate wanting one general secretary, one travelling secretary, one chief accountant, one as sistant, and about fifty ladies as examiners, and twenty gentlemen as chiefs. "Those who have confidence in this proposal may send in their cheque to me

rossed, 'The Imperial Bank of Canada, Victoria,' marked 'Trust Account,' and the same shall be received on the condition that if a company be not registered and go to allotment, the same shall be returned in full. "The directors shall be chosen from

am to act as sole managing director and head principal, with full power to control the whole business; further, I want in shares, and a little cash, \$5,000, for the and the business as a paying concern.

Estimate Made That the Shipments Will Total \$13,000.000 This Year.

According to a special from Dawson to the Seattle Post-Intelligencer the British Yukon is expected to ship out \$13,-000,000 of gold this season. This is practically all got within a radius of 50

niles of Dawson City. The dispatch continues: "More gold has been shipped from Dawson to the outside world the first three months of open river on the Yukon this year than for the same period last year. During June, July and August of this year the shipments to the outside aggregated \$7, 010,396. In June, July and August of last year, that is, in 1903, the shipments were \$6,727,918. The figures given show that \$282,478 more has been shipped from Dawson during the three months mentioned this year than last.

Express Company, which handles virtually all the dust shipped from the Yukon. Perhaps one to two hundred thoulast in the question of aggregate ship- is being retained.

"The September shipments likely will be the last of any volume this year. Shipments now continue heavy. Nearly ments by the big banks, which virtual send out all the gold. Miners in early days shipped much of the gold them but now they prefer to sell it and le mints, or to ship through the banks, All gold going these days is insured against loss on river, train or sea to its full

value. The aggregate of gold produced by the Klondike since it was first struck uns approximately \$125,000,000. "The insurance placed on the gold dust eaving the Klondike has practically all been handled through one New York ouse, and it is estimated that the insurance fees on the \$125,000,000 has profited the insurance people something near \$1,000,000 during the history of the camp, which began shipping in the spring
