

XII.—BOTANY.

In this course special attention is directed to the natural Orders containing Medicinal and Poisonous Plants.

XIII.—PRACTICAL PHARMACY.

C. E. PUTTNER, Apothecary to Provincial and City Hospital and City Dispensary.

This course is conducted at the Provincial and City Hospital and City Dispensary, where students have actual experience in the compounding of Medicines.

Hospitals, etc.

THE PROVINCIAL AND CITY HOSPITAL visited daily at 12 M., by the Medical Officers; and the CITY ALMS HOUSE containing from 200 to 400 inmates, many of whom are in the Hospital Wards, will be available to students without fee. The best opportunities are here presented for clinical instruction, midwifery practice, and the study of the treatment of diseases; likewise for the observation of pathological appearances, which will be demonstrated by post-mortem examinations. There is a Hospital fee of \$1 for certificate of attendance.

THE HALIFAX DISPENSARY is carried on after the model of the DeMilt Dispensary, New York, being divided into four departments, viz: (1) *Surgical*. (2) *Medical*. (3) *Diseases of Women and Children*. (4) *Diseases of Eye and Ear*. Here the student has the advantage of becoming practically acquainted with the less severe forms of disease, the privilege of seeing patients with the visiting physicians, and opportunities for Obstetric practice.

During the past year a new and spacious building has been erected for Dispensary purposes which is now fully equipped and in active operation.

Prizes.

A Prize will be given by the Faculty to the Students passing the best Primary and Final Examination. Particulars at beginning of Session.
