WITH THE JESTERS

This umbrella is "all to the candy"  
Pretty soft for a duck, you bet!  
For a side from its style, it comes in so handy  
To keep one quite pleasantly wet.

FLIPPANCIES.  
The ultimate humor—the worm.  
China that always on the go—urchins.  
Does a linen shower come down in sheets?  
It's odd that we get soft water from hard rain.  
Burning your bills is not a good way of making light of your troubles.  
The umbrella is a symbol of hope; it looks up when under a cloud.  
The only reason we can see for its being called "football" is because  
it isn't played on horseback.

WAITING AT THE CHURCH.

him?"  
"Leave him! No, it returned."

FINANCES OF  
PROVINCE IN  
HEALTHY STATE

What the Hazen Administra-  
tion Has Done and Is Doing  
for New Brunswick—Hon. J.  
K. Flemming and His Work.

THE OPPOSITION  
AND THEIR LEADER

One of the hardest worked min-  
isters in Premier Hazen's cabinet is  
Hon. J. K. Flemming. That fact is  
not denied. But there is not one of  
them who is so misrepresented and  
unfairly attacked as he is.  
Last week the St. Andrews Beacon  
and the week previous the Sackville  
Tribune made some references to the  
provincial secretary that the writers  
no doubt thought were real cuts. If  
there had been shown even a disposi-  
tion to be partly fair with the senior  
member for Canada, the friends  
would take no notice of the articles.  
As a prudent financial man in the  
cabinet, Hon. Mr. Flemming has made  
good. The province as a whole, and  
Carleton Place in particular, is to be  
congratulated on having a man who  
can produce surpluses. Evidently that  
kind of a man is not what the Opposi-  
tion newspapers want.  
Less than two years ago our Opposi-  
tion friends had as provincial secre-  
tary Hon. C. W. Robinson. Now that  
was a man who warned the cockles of  
their hearts. True, judging from his  
actions, he did not have very much  
knowledge of financial affairs or the  
working of his department. This they  
will not agree to. They say he did  
have such knowledge. If he did, and  
we believe he did, then it is nothing  
to his credit that within a month after  
taking over his position he began a  
suspense account, grew and grew  
and finally, inside of five months,  
reached the sum of \$67,691.42. There  
were others in the same business.  
Their suspense accounts also grew  
larger and larger as the years rolled  
round.

Time For a Change.  
The people thought it was time for  
a change and the old government went  
out on March 3rd, 1908. Premier Ha-  
zen selected Hon. Mr. Flemming as  
Provincial Secretary. He has brought  
order out of chaos. He grouped the  
suspense accounts together and found  
that they amounted to the immense  
sum of \$2,781,410. This was a bond-  
ed. All the other expenses in-  
curred by the old government were  
paid out of the ordinary receipts of  
last year and still the Provincial Sec-  
retary was able to show a surplus on  
the year's operation of \$44,409.42.  
This was a real surplus after every de-  
partment of the public service had a  
clean sheet on the 31st October and  
not as had previously been the case,  
an imaginary surplus secured by hav-  
ing accounts overdrawn and holding  
payments in suspense. Again when  
the fiscal year closed two weeks ago,  
there was not a single unpaid account,  
of course not a suspense account, and  
Hon. Mr. Flemming was able to show  
a larger surplus than he had last year.  
It can easily be seen the object in  
view by the opposition newspapers  
and their party. They wish to dis-  
place Hon. Mr. Hazen and his Govern-  
ment and replace themselves. They  
wish to have the past blot out. The  
people of the province may be of a  
forgiving nature, but certainly they  
are not fools. The opposition party  
has the same old friends and supporters  
that the old government had, the peo-  
ple would have the same old crew  
navigating the same old ship in the  
same old way.—Woodstock Press.

LAND GRANT TITLES  
ARE FINALLY SETTLED

Commissioner of Public Works  
With the Surveyor General  
Settle Speedily a Score of  
Claims of Long Standing.

Hon. John Morrissey, Chief Commis-  
sioner of Public Works, spent Monday  
in Fredericton. On Monday evening  
the Chief, accompanied by Hon. W.  
C. H. Grimmer, Surveyor General, pro-  
ceeded to Donkton, and spent Tues-  
day in settling some fifteen or twenty  
claims regarding titles to land grants.  
This land dispute has been outstanding  
for years, but was never attended to  
until Tuesday when Messrs. Grimmer  
and Morrissey had it amicably settled  
to the satisfaction of all parties.  
Messrs. Grimmer and Morrissey then  
came to Newcastle and on Wednes-  
day they went down river to the  
village of St. Wilfrid, a new settlement  
near Burnt Church and completed fi-  
nal arrangements for several land  
grants there.  
Hon. Mr. Grimmer and Mr. Morrissey  
were visiting Chatham Thursday,  
and the Surveyor General will leave  
for home today.  
Mr. Ernest Hutchison kindly placed  
his boat at the disposal of the hon.  
gentlemen for their trip down the  
Miramichi, and they enjoyed the  
selves immensely.—North Shore Lead-  
er.

WHO IS RUNNING  
THE I.C.R. ANYWAY?

An interesting political story comes  
to the citizen, from pretty near the  
throne, so to speak. Indeed it comes  
from one close in touch with the Gov-  
ernment at Ottawa. Did we but men-  
tion the name there would be some  
sitting up and craning of necks.  
It runs somewhat this way: Dr.  
McAllister, the member for Kings-Ak-  
bert, N. B., seems to have been sub-

NOT A SUFFRAGETTE.  
A couple of days ago a man delib-  
erately threw a stone through a win-  
dow of a public building in London.  
The police arrested him, whereupon  
he turned to the crowd that had  
gathered and remarked:  
"They won't want no tube to feed  
me. I done it for food."  
The police then walked him off  
amid cheers.

AMAZONIAN CAMPAIGN  
IS ASSURED

London, Nov. 22.—When one sees  
flaming news placards on the streets  
reading "The House of Lords Declares  
Civil War," and the Radical press  
shrieks that the revolution has al-  
ready begun, it begins to appear that  
there is something doing in Great Brit-  
ain.  
The only reason for these hysterics,  
to be sure, is the announced intention  
of the leader of the majority of the  
upper House to offer a resolution to  
refuse assent to the budget until the  
country has had an opportunity to  
pass a vote of censure on the govern-  
ment. But the agitation is not as ab-  
surd as this fact would lead one to  
believe. England is more deeply stir-  
red at the present moment than at  
any time in modern political history.

DR. JONNESCO  
COMING TO THE  
UNITED STATES

Painless Surgeon to Introduce  
Stovaine, His New Anaes-  
thetic, to American Medical  
Circles—His Long Record.]

HOW HE CONQUERED  
IN GREAT BRITAIN

London, Nov. 22.—Prof. Jonnesco,  
dean of the University of Bucharest,  
Rumania, who performed the remark-  
able operation at the Seamen's Hos-  
pital at Greenwich on Thursday, using  
the new anesthetic, stovaine, has  
aroused the deepest interest in Brit-  
ish medical circles by the successful  
demonstration of the possibilities of  
his discovery. Although a man of the  
highest standing at home, he came to  
England without having put himself  
in relations with any medical associa-  
tion or even any individual medical  
man of mark.  
At first he found great difficulty in  
securing a hearing and an opportunity  
for a demonstration of his wonderful  
discovery. He was surprised and  
somewhat aggrieved. He might have  
left the country unknown, for no class  
of men are more conservative and  
more suspicious of countenancing even  
a suggestion of unorthodoxy, let alone  
charlatanism than the British medical  
men.  
Difficulties Removed.  
Fortunately, however, meeting Dr.  
Bland-Sutton, one of the greatest sur-  
geons in England, his difficulties were  
removed, and the week after his arri-  
val Prof. Jonnesco performed the op-  
eration, details of which have already  
appeared in The Standard. The re-  
sult of this was that he was invited  
to lecture before the Royal Society of  
Medicine the following afternoon.  
Prof. Jonnesco commenced his ex-  
periments in 1904 and soon proved on  
animals that a mixture of neutralized  
stovaine gave a perfect analgesia with-  
out any of the drawbacks of a gen-  
eral anesthetic. The proportions of  
the mixture vary with the seat of  
the puncture and the age and general  
condition of the patient.  
Prof. Jonnesco, in hundreds of op-  
erations of all kinds on all parts of  
the body, from head to foot, and on  
patients varying in age from 21  
months to 75 years, did not find a  
single instance of the heart or the re-  
spiratory system being affected. He has  
maintained the condition of analgesia  
during various periods up to two hours,  
which was the longest.

Other Helps.  
Many advantages for this form of  
analgesia are apparent immediately.  
One notably is the avoidance of diffi-  
culty in operations in the throat due  
to the danger of blood interference  
conscious, caused by the patient's in-  
terference with the breathing. Prof. Jonnesco's  
methods enable him to do without  
tracheotomy in these cases.

A good example of the completeness  
of the analgesia and its total lack of  
bad effect on the patient was given  
by the professor in his lecture before  
the Royal Medical College, when he  
showed on a screen photographs of a  
surgeon operating on himself. The  
surgeon is a specialist in hernia liv-  
ing at Jassy, Rumania.  
He himself developed inguinal her-  
nia. He had a strychnine-stovaine in-  
jection and operated on himself before  
a class of students to whom he lec-  
tured while performing the operation.  
Eight days later he removed the stit-  
ches and was perfectly cured.

No Ill Effect.  
In no case yet has there been the  
slightest after ill effect from stovaine.  
The man operated on Thursday by  
Prof. Jonnesco has had no ill effect  
after a couple of hours that night. Otherwise  
he was not affected.

One of the fundamental principles  
of the method is the puncture of the  
cord at two points between the first  
and second dorsal vertebrae, giving  
superior analgesia of the head, neck,  
thorax and upper extremities, and be-  
tween the twelfth dorsal and first lum-  
bar vertebrae for inferior analgesia  
of the abdomen, perineum and lower  
extremities. The amount of the in-  
jection is a cubic centimetre.  
Prof. Jonnesco will sail for Amer-  
ica on the steamer Kronprinzessen Ce-  
cilie. He has not made any plans for  
his visit here. He has not intended  
to lecture, but he hopes to find the  
American medical world easier of ap-  
proach than he found the English, al-  
though to those who know the latter the  
professor, by conquering it in a week,  
accomplished under the circumstances  
a very considerable feat.

NO CULTURE IN  
UNITED STATES

London, Nov. 22.—Prof. Goldsworthy  
Dickinson, writing to the Cambridge  
Review, sums up his impressions of  
a recent visit to America. He at-  
tempts to describe and account for the  
mysterious quality "culture," which  
he believes, arises for English speak-  
ing people only in Oxford and Cam-  
bridge.  
In America, he says, broadly speak-  
ing, there is no culture. There is  
every kind of specialized training, but  
there is no life for the educated.  
There is never anything the educated  
Englishman looks for in daily con-  
versation, only question and answer, an-  
ecdote and jest, and above all informa-  
tion.  
Mr. Dickinson admits that the "Eng-  
lish are not cultured," but he says  
they have culture among them.  
Though the dons may be dull dogs and  
most of their pupils barbarians, yet  
there is a certain attitude claiming  
the name of culture, which is some-  
what the result of the old universities.
