FINANCIAL WORLD

STOCK TRADING REDUCED TO MINIMUM

New York, May 15.—Trading in stock was reduced to a minimum today, and prices barely moved through the session. Wall street passed to day in a waiting word from Washington in the decisions of the supreme court in the Standard Oil and Tobacco cases, as this was only one of two days, which the decisions might be announced, prior to the adjournment of the court for the summer recess. It was believed generally, that there was strong possibility that final action might be taken today in these cases. The tension was not relieved during the day, no definite word having been received from Washington at the close. Business was restricted to the smallest total of some time, but the market showed no nervousness and the undertone was distinctly firm.

Thorough preparations had been made for the speculative commitments for the rendition of the cases and the market appeared to be braced to resist attack. The feature of the trading was the scant supply of stocks, even in the issues in which there is always an active speculative interest. This was especially noticeable in the late afternoon, when prices rose fractionally. Canadian Pacific moved up more than a point. Union Pacific made the best showing of the western railroads, advancing substantially in response to a steady inquiry which was reported to come in part at least from Paris. Buying of the Erie issues, which had been in progress for several days, was resumed today, and Pennsylvania continued its downward movement. The latter stock touched its lowest price since 1907. Warrents for the allotment of new stock have been forwarded to shareholders and it is supposed that much of the supply of stock which has depressed the market, has been received from the sale of the stockholders' rights. Statistics of imports for April revealed the expected falling off in value, which is ascribed largely to the possibility of changes in the tariff. The decrease amounted to \$13,000,000 and all exports fell off heavily. There was an excess of exports of \$27,000,000 against an excess of imports in April of last year of \$953,000. The latest statement again showed great change from the position in 1907. Warrents for the accumulation of huge credit balances abroad during the past few months.

Traffic of the Southwestern roads was reported as being more optimistic for some, most of the eastern roads have been running ahead of last year of late. Further economies are being practiced by many of the transportation companies, a better showing is hoped for in the April reports. Reports from the steel trade were conflicting. Some improvement in inquiries for steel rails, was noted at Pittsburgh, but it was said also that the price of steel bars might be reduced this week, and that quotations for iron ore were to be shaded, in spite of the reduction recently made.

London bid up American stocks before the opening, causing a slight rise in the early trading on the local exchange. International transactions were of small volume. London selling a small amount. Bonds were irregular, total sales, par value, \$2,000,000, United States 2's, 4's registered, declined 1/4 on call.

PRODUCE PRICES IN CANADIAN CENTRES

Montreal, Que., May 15.—HAY—Prices are very firm, owing to the continued good demand, and the large supplies going forward to English markets.
