There is nothing more discouraging than Nervous Prostration. Because of the exhausted condition of the nervous system, weakness and helplessness take possession of the body. The faculties of the mind as well as those of the body are affected and hope and courage disappear.

The patient, often appearing well, gets little sympathy, and few doctors understand diseases of the nerves well enough to treat nervous prostration intelligently. Dr. Chase's Nerve Food is founded on the prescription of a great nerve specialist, and hence its wonderful success in curing ailments of this nature.

Mrs. Edith May Williams, Tillamook, Ont., R. R. 2, writes: "I cannot speak too highly of Dr. Chase's Nerve Food. I suffered for years with my nerves, and at one time I was confined to my bed with nervous prostration for several weeks. I cannot just explain my feelings, but I was

weak and helpless and so discouraged and despondent that I thought I would lose my mind. I doctored with several doctors and received but little benefit. At last I became very much discouraged and thought I would never get better. A friend advised me to try Dr. Chase's Nerve Food, and before I had finished the first box I knew that it was helping me. It took several boxes of the Nerve Food to make me well and I can truly say that it is a wonderful builder-up of the nervous system."

It is only wise to prevent such dreaded diseases as Nervous Prostration, Paralysis and Locomotor Ataxia by keeping the nervous system in good condition at all times. When you cannot sleep well, have headaches and indigestion, be warned of approaching dangers and restore the nervous system by using Dr. Chase's Nerve Food. 50 cents a box, all dealers or Edmondson, Bates & Company, Limited, Toronto.

two hours to a patriotic programme of musical and literary numbers of great interest with an address by the Rev. A. H. Crowfoot on the day and its purpose. This evening the people gathered in the same hall and listened to two fine addresses, the first by Wm. Sproule, Esq., on our relations to the Empire and obligations and responsibilities in relation to the present crisis in its affairs. The address was interspersed with most appropriate poetical quotations delivered in a fine dramatic manner, and his appeal to all classes to take their share in the burden imposed by the war and for recruits to join the forces to be sent to the front as required found an echo in every heart.

His Honor Judge Forbes spoke admirably on the historical events which preceded and accompanied the growth of the various sections of the Empire and his auditors responded to his patriotism and eloquence by frequent applause. A fine chorus of young voices, members of the school, sang three patriotic songs between the addresses. Inspector of schools, A. J.
