

UNSTAMPED FURS FROM CHARLOTTE UNDER SEIZURES

One Bundle Caught at Montreal and Another Lot is Detained in This Province.

LAW IN PROVINCE IS NOT REGARDED

Further Seizures Are Expected as Chief Game Warden is on Trail.

Fredericton, N. B., Dec. 9.—The first case brought under the new sections of the New Brunswick game law, which compels all dealers in furs to register and to have all furs tagged and to pay royalties thereon, is expected to result from co-operation between the wardens of Quebec and this province.

As the result of a report received from Montreal from Warden Hecht, that a large bundle of unstamped furs had arrived there from a man in Charlotte county, Chief Game Warden L. A. Gagnon, found that the shipper was operating without a license and the furs were ordered seized at Montreal.

Special Warden Cripps, of Chatham, was then sent to Charlotte county, where he seized a second bundle of furs there, as they were being made ready for shipment. Further seizures of furs which the same dealer had been handling are also expected, and it is expected that a long list of charges against the offenders will be laid under the game law. The value of the furs that have been seized is not yet known here.

POLICE ARREST ONE OF "TERROR SQUAD"

Band of Twenty-Four Men Pledged to Kill Public Authorities.

Bologna, Italy, Dec. 9.—Police officials at Potenza have arrested a man who boasts that he is a member of a "terror squad," which is composed of 24 men, who have plotted the assassination of public authorities.

He asserts, according to the police, that he escaped from this city in an automobile with Municipal Councillor Armando Gossi, a communist, and a Bolshevik "teacher" named Martelli. Both of them, he says, left him at Rimini, from which city they fled into the republic of San Marino for refuge.

CASE OF LEPROSY FOUND IN TORONTO

Woman from West Indies Found to be Suffering from Dread Malady.

Toronto, Dec. 9.—A case of leprosy has been discovered in this city, the first in eight years, the previous case being that of a Chinaman.

The present case is that of a woman from the West Indies. The case has been diagnosed by Dr. J. L. McKinley, nose and throat specialist, and the woman has been segregated by Dr. W. E. Ferguson, pathologist at the Western Hospital.

Dr. Ferguson said last night there was need of no fear of a spread of the disease, as it is only mildly contagious.

London's First Coffee House.

The first coffee house established in London was 1652. Coffee was heard of in France in 1658, and became fashionable in Paris in 1669.

Tells Dyspeptics What To Eat

Avoid Indigestion, Sour Gas, Stomach, Heartburn, Gas On Stomach, Etc.

Indigestion and practically all forms of stomach trouble, say medical authorities, are due nine times out of ten to an excess of hydrochloric acid in the stomach. Chronic "acid stomach" is exceedingly dangerous and sufferers should do either one of two things.

Either they can go on a limited and often disagreeable diet, avoiding foods that disagree with them, that irritate the stomach and lead to excess acid secretion or they can eat as they please in reason and make it a practice to counteract the effect of the harmful acid and prevent the formation of gas, sourness or premature fermentation by the use of a Little Bismarck Magnesia at their meals.

There is probably no better, safer or more reliable stomach antacid than Bismarck Magnesia and it is widely used for this purpose. It has no direct action on the stomach, and is not a digestant. But a teaspoonful of the powder or a couple of five grain tablets taken in a little water with the food will neutralize the excess acidity which may be present and prevent its further formation. This removes the whole cause of the trouble and the meal digests naturally and healthfully without need of peppin pills or artificial digestants.

Get a few ounces of Bismarck Magnesia from any reliable druggist. Ask for either powder or tablets. It never comes as a liquid, milk or citrate, and in the Bismarck form is not a laxative. Try this plan and eat what you want at your next meal and see if this isn't the best advice you ever had on "what to eat."

PLUCKY RESCUE OF DROWNING WOMAN

Fell Into Icy Water and But for Heroic Action Would Have Perished.

Special to The Standard

Calais, Dec. 9.—Mrs. Tillie Hall, who lives a short distance outside of St. Stephen, was rescued from drowning by Joseph Marra, of Calais, a local coal truckman, for the Boardman Coal Co.

Mrs. Hall had been out walking with her two children and had fallen into the Pit known as the Hall metal pit, on the Hall farm, where they prospected some years ago for metal. The Pit, which is deep, contained about fifteen feet of water, and the children as they saw their mother fall, hollered and attracted the attention of Marra, who was accompanied

by his uncle, John Marra. They quickly gained the edge of the Pit, and seeing the woman's plight, took the reins from their horse also from a milkman's horse, who happened along and tying them together, they threw them to the woman who grabbed the dangling ends and held on, but when they got her half way up the edge of the Pit, she lost her hold and fell back again into the icy water. The milkman and the elder Marra thought it was no use and that she would surely drown before their eyes, but Joe who, quickly throwing off his heavy reefer and shoes, said she wouldn't drown if he could save her, and jumped bravely in and caught the drowning woman who as she was going down said save yourself we will both drown, but Joe grabbed her by the hair and holding her head above water swam to the edge of the Pit and tying the reins around her waist she was hoisted to safety. This is the bravest rescue under trying conditions that has been effected in this vicinity for many years.

CLOTHING MAKERS MEET IN CONVENTION

New York, Dec. 8.—Clothing makers from 33 states, Canada and Mexico assembled here yesterday for the opening of the 24th semi-annual convention of the International Association of Garment Manufacturers.

Reduction of operating and production costs through introduction of improved machinery and equipment was up for discussion.

Injuries by Falls.

The greatest number of deaths charged to any one accidental cause, 11,114 or 148 per 10,000 is shown for falls. The rate for this cause varies but slightly from year to year.
