CANADA'S GREAT EXHIBIT AT THE WORLD'S FAIR IS A GREAT ADVERTISEMENT FOR THIS COUNTRY.

fair opened was in itself a great advertise-ment. Many of the states and countries still have considerable work to do, and visitors to the buildings could not fail to

display from the older centres of art cul-ture. This also will be a splendid adver-

ment. Many of the states and countries still have considerable work to do, and visitors to the buildings could not fail to recognize the fact that Canada was in the lead, with the British exhibits a good second. While the sound of hammers were heard in heighboring spaces, and men were plays, the Canadian display in the immense agricultural building is one of the finest shown there. It is large and admirably set up, within polished brass railings, and shows grains, canned goods, bottled goods, dairy products, honey and other products in the most tempting array, with also large pictures of herds of Canadian pure bred cattle, groups of horses and harvest seenes. The flag is there, but not a sign-board or display advertisement of any kind disfigures the display. And yet the most effective and daring advertising is done in a way that cannot be overlooked. On the four sides of each of the large square pillars supporting the display of grains are printed brief sentences setting forth such information as that 143,000 Am erican farmers last year, and other facts and figures which must attract the attentant of the other booth loftily declared that they represented the state of Minnesota. The pavilion handsome structure set amid pretty ands, and makes a very favorable imsion on the visitors to the fair. Its mior finish is equally attractive.

The C. P. R. press party went to this parilion the first day they spent on the grounds, and were heartily welcomed by the commissioner and staff, who extended the commissioner and staff, who extended every courtesy. On the wall of one of the rooms is a monster map of Canada, and the staff are well supplied with data to complete the conquest of persons upon whom the exhibits in other buildings have made an impression in davor of Canada.

In the three year old class the entries were Lou Gans, Don, Barry Almater. Won by the former, best time 1.36.

The base ball game at the park was very interesting, the competing teams being the Colts and the Mysteries. Frank Sullivan was umpire and Roy Dickson scorer. Mayor Lindsay pitched the first ball over the plate and the first game of the season commenced. The colts got a score in the third innings but their opponents tallied three in the fifth and added one more in the eighth. No more scores were made and the Colts dost by a score of 4 to 3. The batteries were, Colts, Milmore and R. McLaughlin; Mysteries, McKinley and Pickle.

OUIET HOLIDAY

A QUIET HOLIDAY AT MONCTON.

Moncton, May 24-(Special)-Victori Day was spent quietly in Moncton. This afternoon a base ball match between St. Joseph's College and M. A. A. A. took place. The rain in the early part of the fternoon interfered with the attendance but between three and four hundred peo-ple were present. Moncton won by a score of 6 to 3. The college lost the game in the first inning, when its opponents, aided by errors, made four runs, adding another in the second and one in the venth. The college only scored in on inning, the second, when they made three runs. The batteries were Boyard and Smith, for Moncton; LeBlanc and Man-

Four Contestants for the Judge Landry Premium-Winner to Be Announced June 21.

St. Joseph, N. B., May 24-In Lefebvre hall, last evening, a large audience listened with evident satisfaction to the annual bilingual competition in ortaory for the Landry premium. The four contestants were R. Grignon, of St. Adele (P. Q.); John Landry, of Dorchester; R. Rive, of Caraquet, and A. Landry, of St. Joseph. Each speaker took part in a French and an English debate. The question discussed in French was: Resolved that Canada's professible to independ present status is preferable to independ COOKIES AND DOUGHNUTS ported the resolution, but were worsted by the negative speakers, J. Landry and R. Grignon. These latter had a comparatively easy task to win in the English debate also, as they upheld the affirmative side of the question: Resolved that the jour-Every Three Hours, and Drinks try's advancement than is the orator. The judges, whose appointment is left to the donor of the premium, Judge Landry, were H. A. Powell, K. C.; Rev. Louis LeBlanc, of Cape Bald, and Dr. E. P. Doherty. While they awarded the decision in each debate to Messrs. Grignon and L. L. Leblanc, with restriction and L. L. Leblanc, which restricts the property of the control of the J. Landry, they did not make known the name of the premium-winner. That is a secret until commencement day, June 21. Mr. Powell briefly addressed the audience at the conclusion of the debates, and complimented the speakers very highly on the excellence of their efforts. He said it was as interesting a students' debate as he had ever listened to. In the evidence given of thorough study and of original thought, in literary form and graceful delivery, all had done exceedingly well.

Father LeBlanc, in a brief French address, corroborated his associate's statement, and the audience apparently agreed
