

OUR DAILY BREAD.

The Great Food Question in America and Europe.

General Atlantic, the Dominion of Canada. In the year 1865 the average production of grain to each inhabitant of the United States...

The gain in the production of hay, of most of the dairy products of fruit and other agricultural food cannot be equalled to the present position...

If objection be taken that the agricultural statistics of 1885 were incomplete, because taken so soon after the war...

It is not until 1880 that the first complete stock took place of a through line under one management from Chicago to the seaboard...

In 1885 the average charge for moving a ton of produce from Chicago to the seaboard...

It is not until 1880 that the first complete stock took place of a through line under one management from Chicago to the seaboard...

When we take certain typical quantities of flour, beef, pork, dairy produce, and of those wool, weighing thirteen tons, their value at the market prices for export in the city of New York...
