Indian Office

Quack Ont 9th Mar 1899

I enclose you a resolution
 passed at a band Council of The
 Moravians of the Thames. In which
 they would like to know the probable
 cost of a survey of the Reserve or
 re-establishing the roads. It is almost
 impossible to find any posts or
 marks to identify lines or corners
 as the timber has been cut and
 no stakes planted. I think
 it would be a good idea to have
 it re-surveyed before they begin
 to put up permanent fences
 if the cost will not be too much.

Yours obedient servant
 A. W. Donald
