

006 423

OTTAWA, April 6, 1933.

Dear Mr. Stanley:

I have your letter of 5th.
This is in the form desired. I wish I
could hold out hope but I do not think
there is much chance for a time anyway,
because the Hydro has been letting out
engineers whom it would be glad to con-
tinue if only work warranted. I intend,
however, to present your special qualifica-
tions and to do everything I can to have
them kept carefully before the Engineering
Board.

Yours very truly,

Arthur Meighen.

Mr. T. D. Stanley,
3506 University St.,
Montreal, Que.
