July 31 1973

Dear Sir:

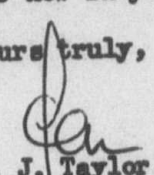

In accordance with the Airworthiness Certification Order (Air Navigation Order, Series II, No. 4), the Certificate of Airworthiness for aircraft CF- is now expired, since a Condition and Conformity (CCI) Report has not been submitted during the sixty-day interval immediately preceding the anniversary date of the Certificate of Airworthiness.

Before a new Certificate of Airworthiness may be issued, the aircraft must be inspected and test flown and a Flight Permit to cover the test flight is attached.

Upon completion of the test flight, please submit to this office:

- (a) Application for Certificate of Airworthiness (26-0024) - 3 copies;
- (b) Aircraft Condition and Conformity (CCI) Report (24-0006) - retain blue copy
- (c) Fee of \$20.00 - Certificate of Airworthiness;
- (d) Fee of \$10.00 - Flight Permit to test;
- (e) Certificate of Airworthiness now in your possession.

Yours truly,

for H. J. Taylor,
Regional Controller, Civil Aviation.

Encl.
