 chrysalis, harmony of colour with leaves, 184
 colours of female, 177
 eggs of, 180
 emergence from chrysalis of, 184, 185
 flight of, 178
 method of capturing, 179
 habitat of, 177, 178
- Puss Moth—**
 and Ichneumon Flies, 38-43
 and struggle for existence, 32
 chrysalis of, 44, 45
 cocoon of, 43, 44
 eggs, where deposited, 32
 emergence from cocoon of, 44, 45
 meaning of marking on wings, 45, 46
- Puss Moth larva—**
 development of mask of, 34, 35
 effect of irritant fluid of, 41
 effect of mask on enemy, 36-8
 emergence from egg of, 32, 33
 eye-spots of, 35
 formic acid gland in mask of, 41
 influence of tail whips on Ichneumon Fly, 40
 meaning of its mask, 35, 36
 protective coloration of, 36
 tail appendages of, 33, 38-40
 young, and protective colouring, 33
 young, and feeding habits, 33
- Puss Moth, larvæ of, changing colour, 33, 34**
- Pyramis cardui, 127**
- Réaumur, estimate of descendants of a single aphis, 22**
- Red Admiral Butterfly and winter, 88, 89**
- Ruby-tailed Cuckoo Fly, 166**
- Scale-Insects, 124**
- Shipworm, 55**
- Silver-studded Blue Butterfly, eggs of, 100, 101**
- Small Copper Butterfly, 100**
 caterpillars hibernating, 100
- Speckled Wood Butterfly, 99**
 caterpillars of, 100
- Spider and winter, 201**
 cruelty of female, 187, 200
 economy of, 200, 201
 evolution of its snares, 193, 194
 face of, 198
 foot of, 197, 198
 poison-fangs of, 199
 silk glands of, 197
 snare of, 191
 spinnerets of, 196, 197, 198
 viscid threads of snare, 192, 193
 Wolf, 165
 wooing by male, 189-91
- Spider-hunting wasp, 162, 169**
 enemy of, 166
 searching for prey, 163-5
 storing nest, 166-9
- Spiders and insects, difference between, 187, 188**
 aversion to, 187, 188
 trap-door, 195, 196
 tube-living, 193-6
