

NOTICE.

The Board of Directors beg to announce that the Sixth of the Series of Reports, containing Articles on the cultivation of Fruits, Flowers, Vegetables, &c., suitable to this climate, will be issued at as early a date as possible. These Reports contain a large amount of valuable information, of the greatest use to all who are in any way interested in matters pertaining to Gardening and Horticulture, but especially to those resident in this Province. The want of reliable information on these subjects has been long felt, and very gratifying evidences of the appreciation of the Society's efforts in this direction are being constantly received.
