Queries re Buying Milch Cows

Queries re Buying Milch Cows

I intend to go into dairying this fall and will want to buy from 10 to 12 cows. A second of the property of the

Skunks and Grasshoppers

Ed. Farm and Dairy,—The subject of interest throughout the summer has or interest throughout the summer has been some way to get rid of the grasshoppers. Many remedies have been hoppers. Many remedies have been tried. None are of value. It would appear that the Government should appear that the Government should take a hand in the matter. What is take a hand in the matter. What is wanted is something to destroy the eggs. That much abused animal.

in their pasture fields in September and October about an inch deep and and October about an inch deep and about the size of a pencil. That is the work of a skunk after grasshoppers' eggs. These eggs are in clusters of 50 or so, and the skunk makes an end to thousands in this way. He also lives all summer on grasshoppers and crickets. He may do some damage among
