

## A Coal and Wood Range with a HIGH OVEN

Patented  
in  
Canada

Not a Gas Range

MOTHER too often sits down to the meal she has prepared too tired to enjoy it. Happy—but oh, so weary!

Stooping constantly to attend the oven—to watch the roast, the pies, the cakes! It's a back-breaking task.

Yet baking need not be wearisome. This new coal and wood range makes it what it always should have been, the most interesting part of housework. It has so many ways of lightening housework!

## LIGHTER DAY HIGH-OVEN RANGE

6 pot-holes—4 outside 2 inside—cooking odors cannot escape.

What a difference to have Lighter Day in the kitchen.

Never to stoop to do your baking! No lifting up and down of hot, heavy pans! The High Oven makes all the difference between "weariness" and "pleasure" in baking. Everything that used to tire a woman's back is changed in this wonderful High Oven Range.

The thermometer and cooking chart meet you at standing height. The warming closet is just above the oven—and it is heated so that things are kept piping hot.

The oven door is clear glass—You can watch your baking without opening the door—and without stooping. There are pot-holes in the oven and in the warming closet. Vegetable odors need never get into the house.

You have a toasting lever to raise the whole section of the top over the coals. You have grates that shake down easily and without sticking.

Extra long pieces of wood can be burned in the LIGHTER DAY High-Oven RANGE. It has a 26-inch fire box. Or special Duplex reversible grate for either coal or wood can be supplied.

You could hardly imagine an oven that heats so quickly. The reason is simple—there is no heat wasted waiting for the fire to "burn up." The oven starts to heat as soon as the kindling is lit.

So the Lighter Day makes lighter coal bills, too.

### The Photographer Tells The Story

Wouldn't you like to see a Lighter Day Range? Every day, more stores are ordering Lighter Day Ranges, but if you want to see the range right away, if you want to see how your own work can be lightened—we will send you a wonderful little book. The photographer made this book. He took pictures of a woman using the Lighter Day Range, and, really, it's almost as good as seeing the range itself. Let us send you this little book—and if you have a friend who thinks as you do about planning for "A Lighter Day in the Kitchen," write her name on the coupon, too. Just mail the coupon to-day, so you won't forget.

### Handy Storage for Pans

Cooking utensils are kept right at hand and out of sight. This storage closet is heated and can be used as a big warming closet.

### Clear Sweeping Space.

It's as easy to clean the floor under the Lighter Day as under the table.

### Porcelain Enamel or Tile

You may choose a finish of either beautiful tile or white porcelain enamel. Both styles are very handsome and are so easy to keep clean, and, of course, cannot rust.

### Read This Guarantee

In the 58 years we have been making ranges we have never expected a woman to keep one that did not give perfect satisfaction. We guarantee THE LIGHTER DAY High-Oven Range unconditionally.

## DE LAVAL SEPARATORS

Make Fall and Winter Dairying More Profitable

THERE are special advantages in using a good cream separator during the fall and winter months. The milk from cows long in lactation is hardest to cream, and likewise hardest to separate with an inferior separator.

Moreover, cream and butter prices are highest, so that the waste of gravity setting or a poor separator counts for most.

Then there's the sweet, warm skim-milk for stock feeding, alone worth the cost of a separator in cold weather.

There is surely no reason to delay the purchase of a separator or to continue the use of an inferior one.

You can't afford to wait until next spring. Let the De Laval start saving cream for you right now and it will earn its cost by spring. See the nearest De Laval agent at once, or if you do not know him, write us direct for any desired information.

## DE LAVAL DAIRY SUPPLY CO., LTD.

## 4 H.P. Cushman Weighs Only 190 lbs. 8 H.P. 2 Cylinder Only 320 lbs.

Cushman Engines are the lightest weight farm engines in the world, yet they are even more steady running, quiet and dependable than most heavy engines, because of Throttle Governor, perfect balance and almost no friction nor vibration.

The simple Cushman Governor releases just enough fuel to take care of the load at any moment, thus avoiding the fast and slow speeds at which most engines run. While Cushman Engines are only about one-fourth the weight, per horsepower, of most other stationary engines, they will deliver as much or more steady, reliable power, per rated horsepower, than any other farm engine made.

Note the Many Special Advantages Not Found On Other Engines.

## Cushman Light Weight Engines For All Farm Work—4 to 20 H. P.

Are not cheap engines, but they are cheap in the long run, as they do so many things heavy engines cannot do. May be attached to machines such as binders, balers, etc., to save a team. Easy to move around. Moving parts enclosed and run in bath of oil. Run at any speed—speed changed while running. Direct water circulating pump prevents overheating. Schebler Carburetor and Friction Clutch Pulley.

Farmer's Handy 4 H. P. Truck  
Easy to Move Around from Job to Job.  
Same Engine Used on Binder.

The ONE Binder Engine  
The Cushman 4 H. P. is the one practical binder engine. Its light weight and steady power permit it to be attached to rear of binder. Saves a team during harvest.

Dave Linton, Ransom, Ill., says: "I can do everything with the 190-lb. Cushman that I could with an engine that weighed 1000 lbs., and do it better and with a lot less noise."
