

GOSSIP.

It is understood that Mr. W. W. Black, of Amherst, N. S., will exhibit a selection from his fine herd of Hereford cattle at Toronto Industrial Exhibition, and at the Pan-American at Buffalo the following week.

Mr. Cary Coles' sale of Hampshire Down sheep was held at Winterbourne Stoke, England, Aug. 6th, when 8 ram lambs were first let for the season at an average of £21 10s., Mr. Flower hiring No. 1 at 54 guineas. Those sold made prices ranging from 8 guineas to 21 guineas. The average of those let and sold was £10 5s. The draft ewes made from 62s. downwards.

Wm. Howe, North Bruce, writes: "My stock of Yorkshire hogs are doing finely, and I have some good young stock on hand. I have just got home a young imported boar for use on my young sows. He is of splendid type and promises to make a fine sire. He was selected by W. H. Hodson from Mr. Arthur W. Gibson's herd, Ruddington, England, is sired by Saint Paul 5611; dam Ruddington Duchess 22nd 10538, by Ruddington King David 8th 4931. He was brought out with Messrs. Brethour & Co. of London. The Yorkshire breed of hogs is doing well in Yorkshire is good and sales are more numerous than ever, with customers well satisfied.

EXTENSIVE IMPORTATION OF LINCOLNS.

J. H. Patrick, Fairfield Farm, Ilderton, Ont., writes: "I have been so busy shipping that I neglected writing you that my importation of 103 head of Lincolns will arrive at Fairfield about Sept. 1st. Among the shipment are first-year yearling ram, yearling ewes, ewe lambs and ram lambs, also two-year-old sweepstakes ram, and third-prize two-year-old ram at the Royal Show; seventy yearling rams and 30 ewes from the Dudding and Wildsmith flocks. It's not necessary to say they are from among the best. I am on my way to California with two loads of Lincolns, and will ship two cars a week now for the next sixty days."

MANSURÆ FARM, BRIDGE OF WEIR, RENFREWSHIRE, SCOTLAND.

A good herd of 75 Ayrshires is to be seen on the above farm. It has been established for a great many years, and is owned by Mr. Robert Wilson, who has had a life-long experience in breeding Ayrshires. The farm contains 200 acres. Mr. Wilson makes it a rule to raise about 20 calves each year. Of late years he has not gone to much trouble in procuring stock to being entered in the auctioneers' sales, and in consequence he has a number of his old show cows, and has always made it a practice to keep his choice females for breeders, and exercises great care in always keeping a good bull from a choice milking family. An old matron of the herd, May-town 3rd, was champion one year at the Highland and Agricultural Show at Edinburgh, and the same year at the first prize at the Glasgow show. A number of her progeny are in the herd. Pansy is another of his show cows, having won the red ticklet at several of the leading shows. In the fields are to be seen about a dozen nice two-year-old heifers, and about the same number of yearlings and calves. This is a very nice, rolling farm, well adapted for dairy purposes, and Mr. Wilson advertises it useful herd of dairy cows. See his advertisement in this paper.

SHORTHORNS AT AUCTION

As will be seen by referring to our advertising columns, Mr. J. H. Johnson, of Tarrytown, a village situated on the C. T. R. a few miles west of Owen Sound, is holding an unreserved sale, by public auction, on Sept. 27th, of his entire herd of pure-bred Shorthorns, consisting of a number of cows, heifers, bulls, and calves of both sexes. These cattle are all of the well-known Duchess and Beauty families. The cows are a big, thrifty, heavy-milking lot, while the heifers are of the one and two yearling grade, smooth, square animals that are well worth looking after. The young ones, both yearlings and calves, are all sired by that 2,000-lb. bull, Silver Cloud 27710, by Elm Hedge Champion, by Imp. Albert 2668, and of the Kinellar Ury family. In conformation, Silver Cloud is a full of grand make-up, being very even, with a splendid back and loin and well-sprung ribs. He stands on his feet like a North British Lad, and belongs to that grand old Lady Wytheville family. This will be a grand opportunity for getting pure-bred Shorthorns at your own price, as all must be sold. Make a note of the date,

IDEAL ABERDEEN-ANGUS CATTLE.

An ideal herd of Polled Angus cattle can be seen at Elm Park, the home of Mr. James Bowman, near Guelph, Ont. Mr. Bowman has been associated with the breeding of this popular breed of cattle for a great many years, starting on No. 1 imported foundation stock, using the best sires procurable, paying the strictest attention to feeding and care, thereby producing animals of early maturity for which he is well known. The following is a list of the number of as perfectly developed, symmetrically-formed Aberdeen Angus cattle as can be seen anywhere. The present stock bull, Kyma's Heir 2485, sired by Imp. Juv 1900, is full brother to the celebrated Jim Jams of American fame. His dam, Kyma 2nd 1820, is sired by Imp. Straipgash 2445, the champion

turned Angus bull at the Royal, Eng. Her. Kynia (Imp.) 5500, was the 1st-prize cow at the Highland Society Show, and a large, massive, smoothly-fleshed animal, very properly proportioned, and is a prizewinner, having won 1st and championship last year at Toronto, London, and Ottawa. His progeny are that could be desired. Some three or four young bulls of his get give promise of amply maintaining the reputation of their illustrious sire. Among the calves of the year, particularly one is Heather Bell 22610, sired by a daughter of Hillhurst; dam, Bonnie Bell. Another and one is Kyma 3rd, by Bognie of Canal Park; dam Kyma 2nd. A beautiful 3-year-old, Elm Park Bell 2nd, by Lord Aberdeen 3rd; dam Heather Bell. A beautiful 2-year-old will be mentioned, as she is above the average of the breed, and a daughter of this bull. She is Elm Park Bell 3rd, sired by Kyma 2nd; dam Heather Bell. Another candidate for honors is the 1-year-old, Kyma 10th, sister Emelyn of Willow Grove; dam Kyma 4th. Bowman is also showing a couple of magnificent fat animals. They are a cross between Polled Angus and Shorthorn, and if one judges by the outward appearance of these animals, that cross is the correct one for production of the highest class of excellence in beef.

Dr. Harlandson, whose opinion in diseases is worthy of attention, says when a man or woman comes to me complaining of indigestion, loss of appetite, sour stomach, belching, sour watery rising, headaches, sleeplessness, lack of ambition, and a general run-down, nervous condition, I advise them to take after each meal one or two of Stuar's Dyspepsia Tablets, allowing the tablet to dissolve in the mouth, and thus mingle with the food. The result is that the food is speedily digested before it has time to sour and ferment. These tablets will digest the food anyway whether the stomach wants to or not, because they contain harmless digestive principles, vegetable essences, pepsin and golden sea which supply just what the weak stomach lacks.

I have advised the tablets with great success, both in curing indigestion and to build up the system of nervous and nervous patients, whose real trouble was dyspepsia, and as soon as the stomach was put to rights they did not know what sickness was.

A fifty-cent package of Stuart's Dyspepsia Tablets can be bought at any drug store, and as they are not a secret patent medicine, they can be used as often as desired with full assurance that they contain nothing harmful in the slightest degree; on the contrary, anyone whose stomach is at all deranged will find great benefit from the use of Stuart's Dyspepsia Tablets. They will cure any form of stomach weakness or disease except cancer of the stomach.—Adv't.
