

CONSTIPATION

CURED BY THE USE OF
**MILBURN'S
LAXA-LIVER PILLS**

Constipation is one of the most frequent, and at the same time, one of the most serious of the minor ailments to which mankind is subject, and should never be allowed to continue.

A free motion of the bowels daily should be the rule with every one who aspires to perfect health.

Mrs. Fred. Hall, 299 Hibernia Road, Montreal, Que., writes:—"Having been troubled for years with constipation and trying everything I knew of, a friend advised me to use Milburn's Laxa-Liver Pills. I used four and a half vials and I am completely cured. I can gladly recommend them to all who suffer from constipation.

Milburn's Laxa-Liver Pills are 25 cents per vial, or 5 vials for \$1.00, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

LINCOLN LONG-WOOL SHEEP And Shorthorn Cattle.

The Riby Grove Flock and Herd, owned by
MR. HENRY DUDDING,

Is the source to which practically all the leading export buyers have resorted from time to time to obtain stud sires and dams, and rams and ewes of unrivalled merit and quality. The record of its show-yard success is unequalled, and so are its sale averages. Selections of Sheep and Cattle always for sale.

Apply: **THE OWNER, RIBY GROVE,
STALLINGBOROUGH, GRIMSBY, ENGLAND.**

Aluminum Ear Markers
are the best. Being made of aluminum they are brighter, lighter, stronger and more durable than any other. Fit any part of the ear. Nothing to catch on feed trough or other obstacle. Your name, address and any series of numbers on each tag. Sample tag, catalogue and prices mailed free. Ask for them. Address
**WILCOX & HARVEY MFG. CO.,
Dept. D, 325 Dearborn St., Chicago, Ill.**

When small Sigrid made her first appearance in a New York school, she was asked the usual puzzling questions, one of which was:

"What is your nationality, Sigrid?"
Sigrid tossed her flaxen braids. "I'm an American of Norwegian design, she said promptly.

GREAT TRIALS ON TRANSCONTINENTAL

Alphonse Jonelle Tells Tale
Filled With Human Interest.

Hardships attending work brought on Kidney Disease which threatened his life.—Dodd's Kidney Pills cured him.

Chicoutimi Ville, Chicoutimi Co., Que., March 6.—(Special.)—The trials of those men who push the great railroads through the obstacles Nature thrusts in their way, have been proclaimed in many a page of fiction. But no story ever told is of more absorbing interest, or teaches a greater moral, than the actual experiences of Alphonse Jonelle, foreman on the Transcontinental, and well known here.

"I contracted Kidney Disease working on the Transcontinental, where I am foreman," Mr. Jonelle states. "My skin had a harsh, dry feeling, and it itched and burned at night. I was always tired. Then came the pangs of rheumatism, and I finally got so bad I could not attend to my work. For five years I suffered, and in the end Bright's Disease developed.

"Then I began to use Dodd's Kidney Pills. Six boxes cured me completely. Dodd's Kidney Pills also cured my wife, who was suffering from Kidney Disease."

From all parts of Canada, and every day, reports come of Kidney Disease cured by Dodd's Kidney Pills. There is never a case reported where Dodd's Kidney Pills have failed. They never fail.

QUESTIONS AND ANSWERS. Miscellaneous.

PUMPING FROM DISTANT SPRING.

I wish to bring the water from a spring to the house, a distance of about 300 feet. This drawing will give a better idea of it than writing will. Drawing shows an upward slope from spring for 60 feet, with a rise of 12 feet. After that, the ground slopes gently to the house, which stands 7 feet higher than spring.

1. Could water be drawn through pipes by a pump?
2. Would it be hard to pump by hand?

H. S.

Ans.—1. There is nothing to hinder drawing water through pipes from distant spring in this case. If the difference in level were 30 feet or over, it could not be done.

2. There will be considerable friction to overcome in a pipe 300 feet long. Whether it can be pumped by hand, depends on the size of the pipe. The larger the pipe, the less the friction. Would recommend 2½- or 3-inch piping.

COLT COUGHS.

I have a colt coming three years old this spring. Since last April he has coughed somewhat. He coughs after drinking and after exercise. Has always been fed well on hay, and some oats. Is it heaves? If so, is there any cure? Is it contagious?

A SUBSCRIBER.

Ans.—Colts of that age very seldom have heaves, and it is quite possible that cough may be due to some other cause. For the cough, try giving every morning, a ball composed of 40 grains powdered opium, 40 grains solid extract of belladonna, 20 grains camphor, and 10 grains digitalis, with sufficient oil of tar to make plastic. Roll in tissue paper, and administer, or dissolve in warm water, and give as a drench. If cough does not yield to treatment, you might use such measures as are advisable in a case of heaves, and these will at least do no harm. Feed only small quantities of hay, and dampen all food with lime water. Water before meals. When he gets into work, be careful not to work hard or drive fast soon after a heavy meal. Heaves are incurable, but not contagious.

NUMBER POINTS ON LEGHORN COMB—STANDARD LEGHORN PULLET—PROMOTING GROWTH OF HAIR.

1. How many nicks, or notches, should be in comb of pure-bred Buff Leghorn cockerel?
2. How should a pure-bred Buff Leghorn pullet be marked?
3. About a month ago, a Buff Leghorn pullet became sick. She gets her head down under her breast bone, and then backs up. At first she could not stop on roost; now she can. What is the trouble?
4. What is the best treatment to reduce enlargement on horse's leg, caused from blistering?
5. Can you recommend a treatment to hasten growth of hair on horse's leg after blistering?

SUBSCRIBER.

Ans.—1. Single-comb Leghorns should have five points, or five notches, in comb. 2. Beak, shanks and toes, yellow; eyes, red. The face, comb and wattles should be bright red, the ear lobes white. The plumage should be of a rich, golden buff, of even shade on the surface, with lighter color underneath.—From "American Standard of Perfection."

3. In large-combed birds, convulsive movements of the head and neck occur in cramps, gapes, or common colds. If any affected birds die, send a specimen to Dr. C. H. Higgins, Biological Laboratory, Ottawa.

4. For most surface enlargements, mild blistering is recommended. You might try, however, the application of vinegar, or solution of alum, either in the liquid form or mixed into a paste with powdered chalk.

5. If the hair follicles, or roots, have been destroyed, nothing can be done; but if these remain, benefit may be derived from monthly applications of tincture of cantharides, in moderation. The action is that of a mild blister. Or this may be tried: Take ½ pint raw linseed oil, ½ pint coal oil, 4 tablespoons of sulphur. Mix, and rub in well on bare spots.

FLEURY PLOWS

They lead wherever introduced.

FAMOUS

For lightness of draft, steady running, the finest quality of work in the field. Beware of IMITATIONS which are INFERIOR.

The ORIGINAL NO. 21, "DANDY" 13, 15A (one-horse) and TINKLER WHEEL PLOWS made at AURORA only.
