The Right of Way

In the bowl of the

DE LAVAL CREAM SEPARATOR

1. No confusion occurs between the cream and skim-milk currents.
2. There is a guarded channel for each, and yet any dilatory fat particles have full opportunity to join the cream current without disturbance in any way. Each has its full right of way from entrance into, until discharged from the machine. That's why the skimming is so perfect.

Don't buy roofing from force of habit. Be progressive.

Make your new barn better than your old one—make your present one better than ever before—by putting on a roof of "Galt" Steel Shingles. "The Kids from Galt" will stick in your mind until you send for a free copy of our book "Roofing Economy". Better write for it today and get it off your mind. We'll send it by return mail.

There are other points of superiority. Write for catalogue, and learn how farm work is made profitable with our vehicles and equipments.
