

GOSSIP.

Hastings Bros., of Crosshill, Ont., breeders of Hampshire hogs, in renewing advertisement to this paper, write: Considering the scarcity of feed, our sales have been remarkable, thanks to "The Farmer's Advocate" for its due share. We have sent hogs to British Columbia, Prince Edward Island, Alberta, Saskatchewan, and different parts of Ontario. In fact, we have recorded and sold more Hampshire hogs than all other Canadian breeders combined. For the truthfulness of this statement, would refer to E. C. Stone, Secretary, Peoria, Ill. We have recently added to our herd, Hillwood Duke, bred by J. A. Edwards, of Platte City, Mo., at a long price. This is a perfectly-belted hog, with grand conformation, and since seeing his offspring, we feel that we have made a good investment. The Hampshire hogs, as the recent sales show throughout the United States, are fast coming to the front, auction sales of an average of \$60 and over being frequent. We have to offer at present boars soon ready for service, sows weighing 100 lbs. and over, and younger things.

GREENGROVE SHORTHORNS.

Despite the shortage of feed, the Greengrove herd of high-class Scotch Shorthorns, the property of Geo. D. Fletcher, of Binkham, Ont., was found in right nice condition on the occasion of a visit by a representative of "The Farmer's Advocate" a few days ago. There is no better Shorthorn judge, feeder and fitter in the country than Mr. Fletcher. He believes in keeping his cattle in the best possible condition, and he carries out that theory in practice. His herd is one of the best, founded on high-class animals of the most popular breeding, and no herd has had better sires at its head, including the three-times Toronto first-prize winner, Spicy Robin, a Marr Roan Lady, who had for grandsires the famous bulls, Imp. Royal Sailor and Barnpton Hero. Following him was the great sire, Imp. Joy of Morning, a Cruickshank Jealousy-bred son of the famous H. & A. S. champion, Pride of Morning. Following him was the Cruickshank Butterfly bull, Imp. Benachie, a son of Scottish Farmer, a half-brother to the famous 1,500-guinea Linksfield champion of 1907, dam Beatrice 22nd, a granddaughter of the renowned Star of Morning, and the dam of Bandmaster, winner of first prize at the Royal in a class of thirty, and sold for 600 guineas. Following him again, and now at the head of the herd, is the Bruce Mayflower bull, Imp. Royal Bruce, a son of the Wimple-bred bull, Winning Hope, dam Sunshine, by the Cruickshank Lovely bull, Sittytton Yet, a half-brother to the great William of Orange, grandam by the Lady Anne-bred bull, Statesman, a son of the great Socrates. Royal Bruce is a bull of high-class type and character, and a proven sire of worth. Mr. Fletcher is particularly strong in heifers, show material being in abundant evidence. It is very seldom indeed that so choice a lot are seen in one herd, a striking testimony of the right royal breeding and breeding qualities of the matrons of the herd. Two of the extra nice heifers, a yearling and a two-year-old, are by Joy of Morning and Benachie, and their dam is a richly-bred Missie, by Village Champion. Another cracker is a white ten-months-old daughter of Benachie, and out of Imp. Deeside Roan Lady. Imp. Lucretia, a Cruickshank Jealousy, has a grand yearling daughter by Benachie. Other right good ones are daughters of Imp. Benachie and Imp. Joy of Morning, and on their dam's side, Orange Blossoms, Clementinas, Languishes, Mysies, etc. In bulls, for sale, Mr. Fletcher is offering Imp. Spectator, a red, eight years old, sired by the Jenny Lind bull, Scottish Leader, dam Laura Hay, by the Missie bull, My Choice, a son of William of Orange, grandam Lady Laura 9th, by Mark Twain. Spectator was never more useful in his life than now, and is for sale at a price that will soon make him change hands. Another choice bull for sale is a red yearling, sired by Imp. Benachie, and out of a Mysie-bred daughter of Spicy Robin. This is a right nice young bull, low, thick, even and mellow. Write Mr. Fletcher to Binkham P. O. His station is Hillsburg, C. P. R., a few miles from Fergus.

Let me Tell You, Face to Face

"Here is my question:—A \$100 roof gives a \$500 building several years of service. A \$125 Pedlar roof gives the same building 100 years of service, because it is a 100-year roof. Is the extra \$25 wisely spent?"

"I Have Learned How to Make You a Roof That Will Last One Hundred Years."

"I have been a good-roof missionary all my life. I invented Oshawa Metal Shingle for lightning protection. I made improvements in it and got my design perfect after 50 years. My roof was rain, wind, snow, ice, fire, lightning and sun proof. I still needed one thing—the longest lasting metal—non-rusting. At one step, when I found this metal, I achieved a roof to last you a whole century."

lem—a perfect metal roof. I, only, can make you a roof with the right metal in it to back the wear, because my shingle metal is the only one that make the deal honestly possible."

"There is No Building Made Right, If the Roof Is Not Perfect."

"Guard a building on top, and you guard the whole building. The weather beats fiercest on top. I tell you, no building ever made is better than its roof. I want to see you build a good roof. Skimp the walls, if you skimp anything. See your roof is right. Your good roof gives three-fold building service."

"Why, in 50 years, a little thousand-dollar barn protects \$75,000 worth of hard-harvested product. A poor roof can easily rot, and waste, and lose for you twenty times its cost—twenty times the cost of a Pedlar Oshawa Shingle roof. With most roofs lightning may burn all—with my roof you can defy lightning to try its worst on your barn."

"I Make a Roof that Answers Every Roof Demand You Can Think Of."

"My roof has 'give' in it. It can expand in the sun. It can shrink in winter cold. It does this without drawing the nails that hold it. It is ice proof. Frozen snow cannot gouge it open. It is clean. Dirt cannot rest on it. Roof water gathered from it is pure. My roof covers its nails. They cannot loosen or rust. My roof is not too heavy or too light—it is ventilated."

"As a result, wind or storms cannot lift it bodily, like a shingle roof. It is spark proof and fire proof. It is lightning proof. It still protects a building if the frame sags. A man can lay it without special tools. He can only lay it right, the right way. Every protection, besides the protection against rust, comes with my roof. You lay my roof on ordinary framing"

"Why Do You Get Such a Good Roof from Me ALONE?"

"You can't get a roof deal like mine anywhere else in the world. This is because other metal shingles haven't my design or metal. Other metal shingles haven't my years of pioneer knowledge to back them. They haven't my ground-floor patents—my skill—my earnest and hard work of years on the one prob-

"Can You Lay It, and Lay It Right? Yes!"

"You, a tinsmith, anybody, can lay my roof— whoever can handle a hammer. I spent years in making my Shingle so it couldn't be laid wrong. There isn't an exposed nail, after you are done. The roof is ventilated so it is almost cyclone proof. My roof is earthquake proof, if your building under it is. It is settlement proof, sun proof—lodged ice cannot open it."

"Yes, sir, you can lay an entire Pedlar roof yourself in my Oshawa Shingle, while you are patching a few shingles on a leaky cedar roof. When you figure its service, the price of my roofing is ridiculously small. My price is very fair. Your bill for my roof is kept down, because folk all over the world are also buying. Big output means big quality at little price."

"Every Roof Owner Should Have the Help in My Big Roof Book FREE."

"My roof book, 'Roofing Right,' ought to be in your hand this very minute. I will be glad to send you a free copy. The book shows roofs, of course. It shows good buildings under them. You can get a score of hints for barn design, planning and arrangement, even if you don't buy my shingle."

"But the main point about my book is that it tells you all you want to know about Oshawa Shingles. I would like you to know its goodness. I am proud of the perfection, excellent quality, fine service, easy laying, beauty and adaptability of my clean Oshawa Shingle. It is a bigger thing than it looks to give any man weather, fire, lightning, and time-resisting protection rolled into one article. My 'Roofing Right' Book tells you all about a roof that 'Makes good' for 100 years."

"Send Me a Post-Card To-day."

"Get my 'Roofing Right' Book to-day. A post-card will bring you the whole story of my perfected Oshawa Shingle. Ask one of my branches near you. Or write me direct. Remember you better any building three-fold if you put the best roof you can get on it. People on the other side of the earth know this. You write me."
