THE TRUE WITNESS AND CATHOLIC CHRONICLE.

The Week's Anniversaries.

(By An Occasional Contributor.)

The anniversaries of the past week have been quite numerous, proportionately speaking; at least, a goodly number have come under our eye.

. . .

Sunday last, the 11th October, was the anniversary of the discovery of the Bahama Islands, which event dates from 1492. On the same date in 1741, the historical painter. John Barry, was born in Cork, Ireland. We may mention here that Cork has the honor of having furnished nearly all the great artists-painters, sculptors and architects-that Ireland has given to the world, and whose great works stand, in all lands, as a cumulative monument to the genius of the Celt. It was on the 11th October, 1798, that Wolfe Tone was captured. The result of which was the collapse of the famous '98 movement in Ireland. On such an anniversary Irishmen may well repeat Ingram's poem "Who fears to speak of Ninety Eight." On the very same day, the 11th October, 1798, another, severe an illegitimate son, and who became blow was received by the men who had organized the movement that culminated so fatally that year, was the destruction of Hardy's Expedition, in Lough Swilly. year later, on the same day in 1779, Pulgreat Latin poet, the author of the aski, the patriot, died. It was also on the 11th October, but in 1786. that Francis Rene de Chateaubriand was born. In recent issues we have made extensive allusions to this literary genius, who was one of the most brilliant and polished writers Pope Gregory XIV. died. The 12th October is famous for several events of importance. On that day, in the year 638, Pope Honorius 1. died. It is also the anniversary of the famous siege of Orleans in France, in 1438, when the heroid Joan of Arc made herself famous in history. In 1492, on the 12th October, the New World was discovered The same day of the month, in 1791 witnessed the organization of the "United Irishmen," a body founded by Wolfe Tone, and which played a most conspicuous part in the affairs of the Irish people for several years afterwards. In 1865, on the same date, William Vincent Wallace, the great Irish musical composer. died. And on the 12th October, 1870, General Robert E. Lee, who commanded the American civil war, peacefully breathed his last. It was the chival ric and heroic career of Lee that inspired Father Ryan, the Poet Priest of the South, to write his splendid tribute-"The Sword of Lee" - in which aupears one of the finest examples of gradation in English verse.

13th October, 1881, the world was ened with the sensation created by the arrest of Davitt and Parnell. Twenty-two years have gone that day, and of the men who stood foremost on the stage of public affairs then, Davitt is about the only survivor. Times have also changed as the men have disappeared, and it would be a nice matter of speculation to study the possibilities of the next twenty-two years.

(By a Regular Contributor.)

Last week the Peace tribunal, at the Hague, opened to hear the respective claims of Venezuela and of the Powers, in regard to the matters submitted for arbitration. The Count de Mouravier, Russia's representative, was called upon to preside over the deliberations of the tribunal. No objection was made to the publication of all that was to transpire And the President declared that the press and the public would be freely admitted to the sessions: the only restriction being the limited accom nodation of the Hali.

Mr. Clunet, advocate-counsel for France, declared that France did not wish to insist upon any restrictions being imposed upon the other nations, as to the language to be used. He and the representative of Spain simply asked the right to present their documents in their respective languages, with English translations. After the matter of the languages was taken into consideration and all the conditions and arguments carefully weighed, the President gave his decision, which was as follows:-

"The arbitration tribunal considering that no power, except France, made any reservation regarding article 4 of the May protocole, and that the reservation made by France did not give rise to any objection on the part of the other powers, without wishing to give any preference to one language over another, and being solely guided by considerations of ac commodation, has decided that the proceedings, minutes, resolutions and judgments shall be drafted in English and in French, that the written or printed memoirs shall be in English, and may be accompanied with a translation in the native language of each representative; as to the disthey shall take place in cussions,

English and in French.' Thus we find that the two langages-English and French-are equally accepted as official and diplomatic anguages for international purposes Here in Canada we have the only country in the world in which thes same two languages are equally official. Consequently, we have in this an evidence of how far in advance is Canada of the other nations in matters that tend to create precedents for the future regulations of the great world's affaits. In all other lands, there is but one official language that is accepted by each -and that is the language of that one country. But in Canada the two anguages are official; the two are equally recognized; and it happens to be that these are exactly the languages that the International tribunal, presided over by a Russian ntative, has selected for the represe Peace Conference.

Notes And Comments.

THE POPE'S DAILY LIFE .- This s a subject which has many attractions for the non-Catholic press. Already its columns have contained long drawn out articles-sensational and semi-sensational in style, on the daily actions of His Holiness Pius X., which for the most part are the product of the imaginations of the various contributors. Non-Catholic publishers regard those articles mo-

ney-makers, and even some Catholic

editors consider them-strange as it

may appear-worthy of reproduction.

IMPERIAL RECIPROCITY. Mr. Chamberlain is no longer engrossed with the Irish question. His bitter opposition to Home Rule is now seemingly, laid aside in the intensity of his desire to make his latest un-dertaking, "Imperial Reciprocity," uccessful and popular movement to reach a position to which he has long aspired, the British Premiership.

THE SALVATION ARMY .- Booming and advertising in the columns of the daily non-Catholic press is a part of the programme of the various sects outside of the Catholic Church. Week after week, month after month, and year after year, the immense system of advertising goes on. The most recent section to seek publicity in that direction is the 'Salvation Army," through one of its officers, who is styled "Prison Gate Secretary of Canada." He tells a story of his experience amongst criminals of every class. The illustration accompanying it is drawn by an artist whose mind is centred on attracting the attention of the hungry section who feed on the sensa

MILLIONS FOR LIQUOR. - The statistics of the imperial health office show that the total spent on alcoholic liquors in 1902 throughout the German empire was about \$625, 000,000, an average per head for persons over 15 years of age of \$35.

A TESTIMONIAL .- On the occaion of the celebration of his silver jubilee, Rev. Father Marion, of Douglas, Ont., was made the recipient of an address from a number of Christian Brothers who claim Douglas as their native parish and Father Ma rion as their pastor of former years. The signers of the address were

A DARING ROBBERY. - A bold highway robbery was committed last week. Without striking a blow or using any violence, a man snatched from the hands of the postmaster of Port Greville, N.S., a seaport town on the Bay of Fundy, a parcel containing \$2,700. The money was sent from the Union Bank of Halifax from the Union Bank of branch at Parrsboro, N.S., to the Colonial Copper Co. at Cape d'Or, to pay the latter's miners on the 15th. The package was registered and insured.

C. P. R. ENGINEERS .- One of our exchanges reports that strained relations exist between the C. P. R. and their engineers. The latter demand a revision of the schedule.

A POLICE SCANDAL .- In one of the American cities a police official is accused of having extorted from an applicant for promotion from the ranks, a large sum of money. This seems to be a common practise nowa-davs.

THE GAMBLING CRAZE .- To satisfy a craving for gambling Carl Cheney forged the name of his employer to a Post Office order for the paltry sum of \$11, and fled the city. After having suffered the agony of all transgressors for nearly 18 months, he gave himself up to the police authorities in Chicago the other day, and begged to be sent to

"For a year and a half I have suffered torment," he said. "I fled from Chicago to escape arrest, but I could not escape my conscience. I am a thief and a forger. I have been Seattle and I have been to Boston.

"One night I lost all my money in poker game. I unlocked my employer's safe and took a money order for \$11. I hurried back to the poker game, signed Longhi's name to the paper, and had it cashed by the saloon keeper. "I thought of suicide, but my

nerve failed and I fled from the city in a freight car. But I was not ever good tramp; I almost starved Everywhere I felt that I was sha dowed. I got work, but could not stay anywhere.'

Armenians rebcl and wonder the strike savagely at their oppressor." This gives us the true and exact state of the situation in a few words. The religion of Russia is a national religion, it is a state religion, and

is based upon national interests and state exigencies. Thus it is that whatever the Czar desires shall be the law must be obeyed. He is the head of the Church as well as of the state. Napoleon once said:-'Scratch a Russian and you will find a Tartar." Beneath the civilization the Tartaric barbarism vencer of is hidden, and coating is only skin deep. Thus it is that when Russia's material interests are to be safeguarded or to be advanced, she uses her army, her navy, her national en-thusiasm and her religious fervor; Church and government are equally cast into the scales and she recognizes no rule save that of "might. It may be termed Christianity, but it is nothing other than Tartaric

barbarism under the mask of Christian ritual and in the armor of Christian ceremonials.

PRIEST AND MINISTER.-A reverend gentleman, preaching in one of our denominational churches on a recent Sunday laid down as principle that the clergywas no higher and posman sessed no more authority than any one in his congregation. He denied the existence of a priesthood and proclaimed it to be the mission of the minister to preach and noth ing more. He said that the word priest appears nowhere in the Bible He then drew a distinction between a priestly and an evangelical ministry.

He then concluded by saying that. in view of what he had said the evangelical conception must be the right one. It requires a good, pure, temperate and trained man for its ministerial functions. Intellectual development is demanded. The Bible must be pondered over, the hearts of men must be studied, and the methods of expounding the Holy Scrip-

tures must be known. "It is not with an evangelical minister, as with a priest. The latter may be without distinctive preparation. He may be good or bad, as he himself desires, as far as the admin-istration of his services goes, but with the former he must have all the requisites of a scholar, a Christian. teacher and a thinker. It is to prepare men for this great order of ours, that they may be your ministers in the coming years, that we ask your support to the Congregational College."

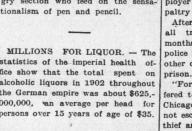

We are not going to enter into discussion of this subject, as to do so would entice us into a field that is to extensive for the present circumstances, and besides the futility of it is quite obvious. But we wish couple of words to show the lack of logic in the above reasoning. The priest he claims needs no distinctive preparation, while the evangelist nust be a scholar. By the very most elementary principle that which is the larger must contain that which is the smaller. The priest must be an evangelical minister as well as a very Christian Russia really is. Now priest; while the evangelical minister
