Dr. Larookah's Syrup is kept at that high standard of excellence which has won for it at the bedside of the suffering such a reputation as no other medicine has ever merited or attained.

For Colds and Coughs.—Take the Syrup

morning, noon and evening, according to directions on the bottle. Take the largest dose at n ght, at retiring to bed.

For Croup or Hives.—Give the Syrup in

doses large enough to produce vomiting, and it will effect an immediate cure. Whooping Congh, however severe, may be alleviated and cured by the Larookah's Syrup given from three to five times a day.

Asthma and Catarrah.—Asthma, or Phthisis is caused by an accumulation of mucus or matter in the bronchial tubes which run through and supply every portion of the lungs with air; John Bull, Harvey, Worcester, Lazenby's New auces. Bottled Pie Fruits, assorted. Canche emon and Citron, Durham Mustard—18 bb besides the phlegm which clogs up the wind tubes, they are often lessened to one-third of their usual diameter by spasmodic contraction, so that it is with the utmost difficult that respi ration can be performed.

The Syrup immediately overcomes the contraction of the bronchial tubes, and enable them on in good order and the very best quality, and to expand to their original size; while at the same time it loosen the mucus which clogs them up, and which is by free and easy expectoration, jected from the lungs.
It should be taken in larger doses than for a

mere cough, and in such quantities as will give relief, even if it produces vomiting. The same treatment should be adopted in Catarrah.

Bronchitis .- Difficulty of breathing, harsh cough, a slimy expectoration, with all other symptoms caused by a disease of the air tubes leading from the throat to the lungs, are directly and specifically relieved by the use of this admirable remedy. This is a very painful, wearing and injurious complaint and always has a power ful tendency to inflame and soften the lungs, and thereby induce the worst forms of pulmonary disease. Be warned in time, ye afflicted, and employ this valuable remedy.

Spitting of blood, Pleurisy, Inflammation o the Lungs, Pain in the Side, Night Sweats Hoarseness, Influenza, &c.—take the Syrup frequently, in moderate doses. Avoid exposure, and everything likely to aggravate the com

Consumption of the Lungs is so distressing and so fatal in its results that those afflicted with its premonitory symptons should have the earliest and best assistance for the recovery of their health which it is possible to secure. We have put up and sold this article for over 30 years and can say in confidence and truth of the what we have never been able to say of any other medicine—nevar has it failed in a single instance to effect a cure, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of highest commendation of its magical effects and medical virtues. We speak in this matter "what we do know," after 30 years experience, and pledge our reputation for the fulfilment of what we here declare. In almost every instance where the in-DR. KNIGHTS ORIENTAL
