

Break Ground Next Spring In the Southwest

- ☐ You don't have to wait for the frost to leave the ground—when you are ready the soil is ready. In fact it's growing weather all the time in the southwestern section of the United States.
- ☐ Nature has spread her favors with lavish hand throughout this favored section.
- ☐ No long cold winters that eat up the summers' profits—the climate is delightful all year 'round. The winters are open and mild—no need of building expensive shelters for live stock.
- ☐ No breaks or long distances between neighbors—farmers in the Southwest have telephones, rural free delivery, convenient schools and churches. They are provided with all the comforts and conveniences of the older settled communities.
- ☐ In this section good fertile land can be had cheap—so cheap that the returns from one crop usually pays for the land. This land is very productive—two and sometimes three crops a year can be grown. Think what it means to have your land producing all year 'round.
- ☐ This is one of the greatest opportunities of the age. If you grasp it now, it will mean, with energy and thrift, an independency in a few short years. Write today for illustrated literature descriptive of the prosperous Southwest. It's a pointer that points out the pathway to success.

Rock Island Lines
300 LaSalle Station, Chicago

That Cold Room

on the side of the house where winter blasts strike hardest always has a lower temperature than the rest of the house. There are times when it is necessary to raise the temperature quickly or to keep the temperature up for a long period. That can't be done by the regular method of heating without great trouble and overheating the rest of the house. The only reliable method of heating such a room alone by other means is to use a

PERFECTION
SMOKELESS
OIL HEATER

Absolutely smokeless and odorless

which can be kept at full or low heat for a short or long time. Four quarts of oil will give a glowing heat for nine hours, without smoke or smell.

An indicator always shows the amount of oil in the font. Filler-cap does not screw on; but is put in like a cork in a bottle, and is attached by a chain and cannot get lost.

An automatic-locking flame spreader prevents the wick from being turned high enough to smoke, and is easy to remove and drop back so that it can be cleaned in an instant.

The burner body or gallery cannot become wedged, and can be unscrewed in an instant for reworking. Finished in japan or nickel, strong, durable, well-made, built for service, and yet light and ornamental. Has a cool handle.

Dealers Everywhere. If not at yours, write for descriptive circular to the nearest agency of the

The Imperial Oil Company,
Limited.

Granite Harvester Oil

For Reapers, Threshers,
Plows, Harrows

Insures better work from the new machine and lengthens the life of the old. Wherever bearings are loose or boxes worn it takes up the play and acts like a cushion.

Changes of weather do not affect it.

Gasolene
and
Kerosene
Engines

Standard Gas Engine Oil

is the only oil you need. It provides perfect lubrication under high temperatures without appreciable carbon deposits on rings or cylinders, and is equally good for the external bearings.

Steam Traction
Engines
and
Steam Plants

Capitol Cylinder Oil

delivers more power, and makes the engine run better and longer with less wear and tear, because its friction-reducing properties are exactly fitted to the requirements of steam traction engines and steam plants.

Traction Engines,
Wagons, Etc.

Mica Axle Grease

makes the wheel as nearly frictionless as possible and reduces the wear on axle and box. It ends axle troubles, saves energy in the horse, and when used on axles of traction engines economizes fuel and power.

Every dealer everywhere. If not at yours, write for descriptive circular to
