DR. "JUMBO"

German diplomacy has given one exhibition of blundering after another since the outbreak of the war, and Austrian diplomats seem to be following in the footsteps of their allies. The indiscretion of Dr. Dumba, the Austro-Hungarian ambassador at Washington in employing an American newspaper correspondent who had previously distinguished himself by the virulence of his pro-German articles, and who no doubt was on the pay roll of the German secret service, to carry documents in which he proposed to the Austrian Foreign Minister a plan for fomenting and organizing strikes among his countrymen in the munitions works is not only unpardonable as an offence against the United States, but it shows gross stupidity on the part of the ambassador. This is the exact text in English of the Dumba letter, which was seized among the effects of the American correspondent who carried it, as given in a cable despatch to the Chicago Herald:

New York, Aug. 20, 1915

My Lord:

Yesterday evening Consul General Von Nuber received the inclosed aide memoire from the chief editor of the locally known paper Szabadsag, after a previous conference with him, and in pursuance of his proposals to arrange for strikes in the Bethlehem Schwab steel and munitions war factory, and also in the Middle West.

Dr. Archibald, who is well known to your Lordship, leaves today at twelve o'clock on board the Rotterdam for Berlin and Vienna. I take this rare and safe opportunity to warmly recommend the proposal to your Lordship's consideration.

It is my impression that we can disorganize and hold up for months, if not entirely prevent, the manufacture of munitions in Bethlehem and the Middle West, which, in the opinion of the German Military Attache, is of great importance and amply outweighs the expenditure of money involved.

But even if strikes don't come off, it is probable that we should extort, under the pressure of the crisis, more favorable conditions of labor for our poor, down-trodden fellow countrymen. In Bethlehem these white slaves are now working for twelve hours a day and seven days a week. All weak persons succumb and become consumptives.

So far as German workmen are found among the skilled hands, a means of living will be provided for them.

Besides this, a private German registry office has been established, which provide employment for persons who have voluntarily given up their places, and is already working well. They will also join, and the widest support is assured me.

I beg your Excellency to be so good as to inform me with reference to this letter by wireless telegraphy, replying whether you agree.

(Signed) DUMBA.

His Excellency, Count Burian, Minister for Foreign Affairs, Vienna.

It was an open proposal to violate the laws of the United States, which has put an end at once to Mr. Dumba's diplomatic career, not only in the United States but in any country. A man who would undertake to send a letter of this character to his Government is unfit to occupy any position of trust. But, the disclosures made in this case and in other cases by the New York World simply afford, further evidence of the plotting and conspiring of the Teutonic agents in the United States. Dr. Dumba should have his name changed to Jumbo. The clumsiness displayed in this outrage upon international conventions is truly elephantine.

British labor men are standing up loyally for their country's cause. Even Mr. Ramsey Macdonald, whose attitude has not been free from blame now declares that it is the duty of every citizen to defend their national honor.

Germany promised the United States "full satisfaction" for the torpedoing of the Arabic, and Germany again breaks her word. The relations between the two countries are again strained to the breaking point. President Wil-

son's patience must be nearly exhausted.

The Customs receipts for the five months of the present fiscal year amounted to \$36,731,165.01, as against \$37,125,639.92 for the corresponding period of 1914-15; a total slump as compared with last year of \$394,074.91. At this rate the seven and one-half per cent. "war tax" imposed by Hon. W. T. White went largely into the pockets of the protected interests. The Customs revenue did not benefit, but the people paid just the same.

The financial statement issued by the Borden Government makes a melancholy showing. Revenue has fallen off enormously. Expenditure apart from the war which is all provided for by money borrowed from Great Britain—is still growing. The national debt is steadily mounting, and the deficit for the fiscal year, apart from the war expenditures, amounts to 53 millions. In face of all this there is no sign of retrenchment. The policy of the government is still "dash away and spend."

For two weeks now the Anglo-Belgian-French artillery attack on the German lines has been carried on with increasing intensity, while the British fleet bombarded Ostend and other German positions from the sea. The Allies have varied their artillery activity by occasional air raids, sapping and mining operations and bomb throwing. The French Commander-in-Chief, General Joffre, has just returned from a visit to his Italian colleague, General Cadorna. All this gives support to the growing belief in London that an offensive movement of some nature will soon mark the operations of the Allies in the West.

The number of ships lost in commerce throughout the world is presented in the statistical summary for 1914 prepared by Lloyd's Register, which announces that in the course of the year the gross reduction in the effective mercantile marine of the world amounted to 766 vessels of 1,055,122 tons, excluding all vessels of less than 100 tons. Of this total, 401 were steamers representing 870,662 tons and 275 sailing vessels, of 184,450 tons. The reduction was due to those lost, broken up, condemned, etc.

The sailing vessel record is practically the same as in 1913, but the loss to commerce of steamers represented a total of 338,000 tons higher than for the preceding year.

The losses involved are but a small percentage of the full mercantile marine of all countries, the figures of which for 1914 were: Steamers, 24,444, tonnage, 27,987,782; sailing vessels, 6,392, tonnage, 3,685,675; steamers and sailing vessels, 30,836, tonnage, 31,673,457.

MA AND THE AUTO.

Before we take an auto ride Pa says to Ma, "My dear, Now just remember I don't need assistance from the rear; If you will just keep still back there and hold in check your fricht, I'll take you where you want to go and get you back all right. Remember that my hearing's good and also I'm not blind And I can drive this car without suggestions from behind."

Ma promises that she'll keep still, then off we go, But soon she notices ahead a peddler and his cart.

"You'd better toot your horn," says she, "to let him know we're near, He might turn out," and Pa replies: "Just shriek at him, my dear."

And then he adds: "Some day some guy will make a lot of dough: By putting horns on tonneau seats for women folks to blow."

A little further on Ma says: "He signaled for a turn," And Pa says: "Did he," in a tone that's hot enough to burn.

"Oh, there's a boy on roller skates," Ma cries, "now do go slow, I'm sure he doesn't see our car," an' Pa says: "I dunno.

I think I don't need glasses yet, but really it may be That I am blind an' cannot see what's right in front of me."

If Pa should speed the car a bit some rigs to hurry past, Ma says: "Now do be careful! You are driving much too fast."

An' all the time she's pointing out the danger of the street An' keeps him posted on the roads where street cars he will meet.

Last night when we got safely home, Pa sighed an' said: "My dear, I'm sure we've all enjoyed the drive you gave us from the rear."
