IS MORTALLY USED UP

Tracy Is Believed to Be Wounded—Is in the Coun-try Between Covington, Franklin and Ravensdale—Chase Is Nearing the End

BULLETIN NO. 1.

SEATTLE, Wn., July 12.—Convict Tracy encountered a rancher about half a mile from the scene of his last night's hold-up at 5 o'clock this morning. Tracy fired one shot, which went wild, and then disarmed the rancher and made off. The rancher reports that Tracy was very lame and appar-ently sick.

RAVENSDALE, Wn., July 12.—Harry Tracy, the hunted outlaw, probably is in the country between Covington, Franklin and Ravensdale. At present guards are out as far as Franklin on the east and along the Northern Pacific track. A strong posse is leaving from Auburn, Tracy is wounded. Sheriff Cuddehe says there is no question that he is mortally used up. The sheriff

believes that the chase is nearing an end. He says the utmost vigilance will be used, and it will be impossible for the outlaw to get out of King county on any railroad train, consequently he must walk, and as the roads are well covered that a visit would be reported within a few hours, it seems to him that before many hours the man hunt will be over.
Tracy was last seen on Green river about 20 miles southwest of Black Diamond last night by Frank Pautoto, a rancher. The convict passed in front of Pautoto's house and a short distance beyond took to the brush. Pautoto was so frightened that he passed the night at the house of another rancher. Twenty or thirty guards with blood-hounds have started for Pautoto's house.

FREIGHT HANDLERS' STRIKE AT CHICAGO

CHICAGO, July 12.—Conferences between the striking freight handlers and the managers of the railroads did not produce any definite result today. All the railroads, with the exception of the Chicago & Northwestern, Erie and Illinois Central refused to recede from their position, and declared that the men must accept the terms offered them on July first. This means 17 cents an hour and a period of proba-tion for new men. The demands of the men were 18 cents, time and one-half for overtime and no period of proba-tion.

tion, all men to receive full pay from the start. The Northwestern road offered 17 1/2 cents an hour, single time for overtime for men employed by the day but not for men whose wages are paid by the month.
The Erie offered 17 cents, single time for overtime and no period of proba-tion. The Illinois Central declared that it had made an agreement with its em-ployees about the inauguration of the strike and that it would do no more; the men must accept that or remain on strike.

UNCLE SAM IS TAKING A HAND

PANAMA, Colombia, July 12.—Acting on orders from Washington the United States special service steamer Ranger, now here, will sail at 6 p. m. today for Chiriqui to protect American interests there.
It is reported that General Herrera, the revolutionary commander, has de-clared that all produce is the property of his government, whether it belongs to natives or foreigners. The United States

consul, H. A. Gudger, will go to Chiriqui on board the Ranger to make the necessary inquiries there. Mr. Gudger will also take some important papers which General Salazar, the governor of Panama, is sending to General Her-rera. It is presumed that they include peace terms. As soon as the isthmus is pacified the general elections will take place and congress will meet and decide the canal question.

THREE FIREMEN KILLED.

Flour Mill Destroyed by Fire at To-ronto Yesterday.

TORONTO, July 10.—McIntosh & Mc-Arn's flour mill, 113 Front street east, was destroyed by fire this morning. Three firemen were killed and several others injured.
The premises destroyed were the huge storage and grain cleaning warehouse of P. D. McIntosh & Son. The build-ing, which was formerly a street rail-way car barn, was over 444 feet long by 68 wide, and the walls were about 30 feet high, with a flat roof. The ma-terials in the building were inflam-mable, which caused the fire to burn with great rapidity. The various sec-tions of the fire brigade were scattered around the walls and many men were on ladders as the roof was on signs of collapse were seen. Chief Thomp-son ordered the men on the ground, close under the walls, to go back, but two of them, who failed to respond quickly, and four others, who did not hear the order, were caught by the fall-ing walls and hurled in the debris, only one of whom, Fireman McTaggart, escaped death. All the bodies were re-covered and taken to the morgue. Fire-man Toplis of Parkdale reel was thrown from the wagon while galloping to the fire and the wheels passed over him, breaking his back.
The loss is estimated at over a hun-dred thousand dollars. Insurance not definitely known.

ANENT ALIEN LABOR LAW.

Information Against The Thousand Is-lands Steamboat Co.

OGDENSBURG, N. Y., July 12.—The Ogdenburg Marine Firemen's Union has laid information against the Thousand Islands & St. Lawrence River Steamboat Company, controlled by the Folgers of Kingston and run in com-bination with the New York Central, and also doing an excursion business on the St. Lawrence river. The charge is the employment of Canadians on the steamer's crew in violation of the alien contract labor law. Union firemen. It is alleged, were replaced by three Cana-dians. Immigration Inspector Estelle, after investigation, has taken steps to prosecute the company under the law, the penalty being \$1000 fine for each of-fence. The same question was previously laid before the Washington authorities against this company.

RIFLE TEAMS FOR CANADA.

England, Australia and New Zealand Will Compete Against America.

SEA GIRT, N. J., July 12.—Word reached here today that England, Aus-tralia and New Zealand would send rifle teams to Canada to compete against the American teams. The riflemen prac-ticing here for places on the American team are very much pleased at the prospect of meeting three as strong rifle teams as there are in the world. Better work was done here today on the thousand yard with new ammuni-tion, but the scores are still below rec-ord mark. In August the team will be assembled at Sea Girt for daily team practice. Lieutenant Jones, secretary of the National Rifle Association, says that many prominent military men are arranging to accompany the team to Canada.

DETERMINED TO STRIKE.

Freight Handlers Decided to Go It Alone If Necessary.

CHICAGO, July 10.—A large per-centage of the striking freight handlers voted today to refuse the terms pre-sented by the railroads last night and to continue on the strike, despite the official refusal of the Chicago organi-zation of labor to help them. A thou-sand members attended the meeting. The strikers decided to fight to the last without seeking co-operation or support.

AGAINST GENERAL STRIKE.

United Mine Workers of Alabama in Favor of Accomplishing Scale.

BIRMINGHAM, Ala., July 10.—The local unions of the United Mine Work-ers held meetings throughout the dis-trict yesterday to take action on the re-cent agreement by the joint committee of miners and operators. It is under-stood that a majority of the leagues have declared in favor of accomplishing the scale and preventing a general strike.

NEW ZEALANDERS WON.

BROOKWOOD, July 10.—The Cana-dian rifle team shot a match with the New Zealand and Natal teams, Kalo-pore cup conditions, and took second place. The New Zealanders won by 19 points.

CHAMBERLAIN'S ILLNESS DELAYING CONFERENCE

MONTREAL, July 9.—The Star's London cable says: Chamberlain's ill-ness is delaying the colonial conference. Laurier and other premiers are, how-ever, conferring among themselves with a view to adopting a united position in discussing the trade defence and other questions with the British minis-ters. Laurier was overwhelmed today with visitors at the Hotel Cecil. He dines tonight with Lady Winborne, who will hold a reception afterwards.
The Canadian ministers are delig-hted with their kindly, genial reception by the Prince and Princess of Wales at the Royal dinner at the St. James palace last night. The prince and princess recalled many incidents of their Canadian tour with manifest de-light.

The Canadian arch is being divested of its grain today to make way for flag designs for Lord Kitchener's reception Saturday night. There were many an-using scenes as the crowd begged and obtained souvenirs of Canadian wheat and corn. Two wagon loads were thus eagerly snatched away, the policemen watching smilingly. The crowd even ap-proxiated the shrubs intended for the Kitchener design.
Illuminated portraits of the king and queen, Lord Roberts and Lord Kitch-ener form part of a new design with the Canadian message of greeting to Lord Kitchener upon a red background.

ARTICLES PROPOSED BY THE VATICAN

ROME, July 9.—The answer of the vatican to the note of Governor Taft, governor of the Philippine islands, con-cerning religious affairs in the archi-bishop, which was handed to Cardinal Rampolla, papal secretary of state, July 3rd, was delivered to Judge Taft at a late hour tonight. It will be telegraphed entire to Washington tonight.

LATER DISPATCH.

ROME, July 9.—The vatican's answer to Judge Taft is as follows:
The contract which the vatican pro-poses shall be signed by both parties comprises twelve articles.

The first article says the Philippine government is to buy the lands of the four religious orders concerned, the holy see acting as intermediary.

The second article describes what are the agricultural lands to be bought. The third article says that if some of these lands are to be possessed by cor-porations the friars will sell their shares.

The fourth article established a tri-bunal of arbitrators, to be composed of five members, two of which are to be chosen by the vatican, two by the Phil-ippine government and the fifth mem-ber by the other four.

The fifth article provides that the work of the arbitrators shall begin Janu-ary 1st, 1903.

The sixth article refers to title deeds. These will be transferred to the Phil-ippine government.

Article seventh sets forth that payment is to be made in Mexican dollars, in-terest accruing at four per cent.

Article eighth deals with the transfer to the church of ancient crown lands with ecclesiastical buildings on them.

The ninth article proposes an amic-able accord in the matter of the exist-ing charitable educational trusts which are in dispute.

The tenth article provides for arbi-tration as to the indemnity the United States shall pay for the ecclesiastical buildings used during the war in the Philippines.

According to the eleventh article the expense of the tribunal of arbitrators is to be paid by the Philippine govern-ment.

Article twelve declares that the holy see shall use all its influence for the pacification of the Philippine islands and in favor of their adhesion to the established government, and which shall prevent all political opposition on the part of the clergy, both regular and secular.

FREE FROM MA-LIGNANT DISEASE

LONDON, July 10.—An authoritative statement regarding the health of King Edward was published in today's is-sues of the British Medical Journal. It says: "In view of the fact that sinis-ter stories continue to be manufactured and printed it may be again stated as emphatically as possible that during the operation no trace of malignant dis-ease was observed, that no suspicion of any kind has arisen since, and that the medical attendants are quite satis-fied that his majesty's constitution is thoroughly sound."
The British Medical Journal adds: "The progress of the last week has been everything that could be desired." The wound, though still deep, is graduating well, and during the last

en days the improvement in his ma-jesty's health has been remarkably rapid. The king has regained his strength almost completely, and is able to take restricted diet with a good ap-petite."
"The Lancet also stigmatises as "lies" the sensational rumors circulated, and says: "There is not and never has been the faintest shadow or ghost of a sus-icion of any malignant disease."
The Lancet specifically asserts that the king is free from cancer.
King Edward is not yet able to sit up, but every day he is removed to an adjustable couch, which gives a wel-come change to his position and which enables him to read with some degree of comfort.

TROOPS ASKED FOR IN THE STRIKE REGION

HARRISBURG, Pa., July 10.—In re-sply to a request from Sheriff Gombert of Carbon county, asking that troops be sent to Lambert and Summit Hill to preserve order, Governor Stone sent a telegram today saying that the law under which the national guard is called out does not justify action under the conditions recited, the national guard

not being police officers. The governor said he will not hesitate to send troops if the civil authority is exhausted after reasonable effort by the sheriff.
The sheriff informed the governor that the strikers are gathering in large mobs at the places mentioned and citi-zens are attacked and beaten, and in danger of their lives and he cannot preserve order.

ABOUT RUSTICA-TION OF CADETS

LONDON, July 10.—Lord Roberts, commander-in-chief of the forces, re-plying to the house of lords today to criticisms made by Earl Carrington (Liberal) and others, regarding the rustication of 29 of the cadets of the royal military college at Sandhurst as a result of their failure to denounce the persons guilty of starting the re-cent fire at that institution, and who were not convicted of any connection with the attempts at incendiarism, de-fended his order which affected the rus-tication of the cadets in question, on the ground that otherwise he found it impossible to discover the culprits. He promised personally to investigate each of the rusticated cadets and see that no boy would lose his seniority un-justly. Lord Roberts said, however, that the 29 cadets would not be allowed to return to the college until a satis-factory conclusion as to the origin of the fires had been reached.

board admitted that this colossal busi-ness mistake was indefensible upon less they consented because Schmidt made them believe in "the process's" amazing possibilities and profits.
Schmidt also had an invention for distilling wood alcohol, by which he represented that he would obtain a monopoly of the wood alcohol of the world. His receipts were upon the European, and he opened negotiations with American companies for the for-mation of a world trust and estab-lish sub-companies in every continental country. The alcohol invention con-tributed to the dazzling of the Leipsig directors, who, however, made it clear that they did not know how much the bank had really loaned to Schmidt.
Schmidt is now in jail awaiting ex-amination.

ADOLF SCHMIDT HAD SCHEMES GALORE

BERLIN, July 12.—The ruin of the Leipsig bank, that failed about a year ago for nearly 200,000,000 marks (\$50,000,000), was wrought by the fasci-nating personality of Adolf Schmidt, ac-cording to the testimony given at the three weeks' trial of the bank direc-tors, now nearing its end at Leipsig. Schmidt, who was managing director of the Treibstocknng (grain drying) company of Cassel, a concern exploit-ing on an enormous scale, a press for drying beer dregs and cattle feed, per-suaded the bank to advance, during a number of years, sums of money ag-gregating 80,000,000 marks (\$20,000,000). The accused directors, who were suc-cessfully examined before the jury, were unable to give a lucid explanation of their reasons for consenting to make these extraordinary loans. Every mem-ber of the apparently well-meaning

board admitted that this colossal busi-ness mistake was indefensible upon less they consented because Schmidt made them believe in "the process's" amazing possibilities and profits.
Schmidt also had an invention for distilling wood alcohol, by which he represented that he would obtain a monopoly of the wood alcohol of the world. His receipts were upon the European, and he opened negotiations with American companies for the for-mation of a world trust and estab-lish sub-companies in every continental country. The alcohol invention con-tributed to the dazzling of the Leipsig directors, who, however, made it clear that they did not know how much the bank had really loaned to Schmidt.
Schmidt is now in jail awaiting ex-amination.

JOHNSTOWN MOURNING

112 Bodies Have Been Ta-ken Out of the Mine—Be-lieved to Be But Few Re-maining—A Day of Funer-als and Sorrow in the City

JOHNSTOWN, Pa., July 12.—The ex-tent of the horrible catastrophe at the mill of the Cambria Steel Company is now capable of being grasped early to-day, in spite of the continuing reports as to the number of the dead. A careful and complete compilation by the Asso-ciated Press shows that 112 is the ex-tent of the list of the bodies taken out of the mine. To this future explorations of the mine corridors may add a few, but it cannot be many. Almost all the employees who could have been in the mine at the time of the life-wrecking explosion of Thursday are accounted for.
Very few inquiries for missing have been presented to the authorities as to the mine officials, and these, better than anything else, demonstrates the impos-sibility of many bodies still remaining in the death tomb.

The mine officials say there is no use of attempting to estimate the num-ber of dead. They say they simply do not know and urge the futility of plac-ing the matter on the basis of guess-work. They express the belief, however, that all the bodies will be recovered.
General Superintendent Robinson came out about 4 o'clock this afternoon, after an arduous day's exploration. He expressed his conviction that not more than five dead bodies would be added to the 112 already known.
Sunday will dawn upon the populous town of Johnstown prepared to devote its attention to mourning and funeral obsequies. The inaugural of this grim program was given today when more than a score of interments took place. As late as 7 o'clock this evening gen-eral processions, with bands playing dirges and uniformed escorts at their heads, passed through the streets of the city.

LORD KITCHENER ARRIVES IN LONDON

SOUTHAMPTON, July 12.—The Pa-cific Steam Navigation Company's steamer Orontava, which left Cape Town June 23rd with Lord Kitchener and staff on board, arrived here at half past 8 o'clock this morning. Owing to the fact that Major Gordon, who was also a passenger on the steamer, had been stricken with smallpox, Lord Kitch-ener and his staff only were allowed to land. The Orontava has been placed in quarantine.

eral French also comes in for many acclamations. Before long, however, the man who ended the South African war is likely to appear in a new role and one less pleasant to the popular tastes. The royal commission to investigate the conduct of the war is being formed. Viscount Goschen, ex-chancellor of the exchequer and ex-first lord of the ad-ministry, will be its president and Lord Kitchener will doubtless be examined at length. An air of nervousness already pervades the war office regarding the opinions which the general may then express.

LONDON, July 12.—Lord Kitchener arrived at St. James palace at 1:27 p. m. The Prince of Wales was already there awaiting him.

LONDON, July 12.—The Prince of Wales welcomed Lord Kitchener at Paddington, where an address was pre-sented to the general. The latter shortly after started for St. James palace.
Columns of alleged anecdotes concern-ing Lord Kitchener and voluminous de-scriptions of his life, especially his re-cent campaign in South Africa, monopol-ize the newspapers, and the coronation arches which were being torn down are now redecorated in his honor. Gen-eral French also comes in for many acclamations. Before long, however, the man who ended the South African war is likely to appear in a new role and one less pleasant to the popular tastes. The royal commission to investigate the conduct of the war is being formed. Viscount Goschen, ex-chancellor of the exchequer and ex-first lord of the ad-ministry, will be its president and Lord Kitchener will doubtless be examined at length. An air of nervousness already pervades the war office regarding the opinions which the general may then express.

20-MILE BICYCLE RACE.

Has Been Postponed Until Next Satur-day Owing to Breakdown.

NEW YORK, July 12.—The 20-mile bicycle race, planned by moten students, in which the contestants, Albert Cham-plain and Basil de Gueyhard of France, Tommy Hall of England and Nat But-ler of Cambridgeport, Mass., were to have tried conclusions at the Manhat-tan beach track this evening had to be postponed until next Saturday owing to the breaking down of some of the racing machines.

STOVE MOUNTERS' UNION.

International Body Elected Officers For the Year.

PITTSBURGH, July 12.—The conven-tion of the Stove Mounters' Interna-tional Union of North America and Canada, which has been in session here since Wednesday, adjourned today af-ter the election of the following officers: General president, J. F. Tierney of De-troit; first vice-president, Allen Stud-holme of Hamilton, Ont.; second vice-president, H. J. Ragon of Atlanta, Ga.; fourth vice-president, Louis Volkert of St. Louis, Mo.; secretary-treasurer, J. H. Keefe of Detroit, Mich. At this morning's session death beneficiaries were fixed at \$100.
The next meeting will be held at In-dianapolis in July, 1903.

EARTHQUAKE SHOCKS.

Experienced at Caracas and Other Towns in Venezuela.

CARACAS, Venezuela, July 12.—At 1 o'clock this morning a violent shock of earthquake was experienced at Carac-as. Reports from the interior of the country say that shocks were felt there also. Slight damage was done at Guernas, Valencia and La Guara.

A DESPERATE SHOEMAKER.

Arrested on Suspicion of Poisoning John Anderson.

BREWSTER, N. Y., July 12.—John Valstedt, a shoemaker in this village, was arrested today on suspicion of murdering John Anderson, a journeym-an in his shop, who died on June 26 from what is believed to be strychnine poisoning. Valstedt is said to have held insurance policies on Anderson's life. Valstedt resisted arrest, holding the posse at bay with two revolvers, and was only captured after he had severed the arteries in his wrists with a razor.

NEW WIRELESS SYSTEM.

Transformation of Light Waves on Sound Waves by Searchlight.

BERLIN, July 12.—Ernest Ruhmer, the physicist, has invented a system of wireless telephony. His experiments have been successful over a distance of three miles. The invention acts on the principle of the transformation of light waves on sound waves by using a searchlight and a microphone.

RAILWAY COLLISION.

Two Men Were Killed and Several Se-verely Injured.

PEORIA, Ill., July 12.—Two men were killed, one was fatally injured and several were more or less seriously injured in a wreck on the Toledo, Peo-ria & Western railway late today. An extra engine and caboose were coming slowly toward Peoria, having word to look for a construction train, when the two trains met on a curve.

10,000 DELEGATES.

Baptist Young People's Union of Amer-ica in Convention.

PROVIDENCE, R. I., July 10.—Every State and Territory in this country and the provinces of Canada and Mexico were represented when the Baptist Young People's Union of America con-vened in this city today. Nearly 10,000 delegates congregated in Infantry hall and at the First Baptist church for the opening praise service this morning. The convention, which will continue until Saturday, was formally opened by President Chapman of Chicago.

Cook's Cotton Root Compound
is successfully used monthly by over 10,000 ladies. Safe, effective. Ladies ask your druggist for Cook's Cotton Root Com-pound. It is the only medicine for all female ailments and is dangerous. Price, No. 1, 51 per box; No. 2, 10 degrees stronger, 65 per box. No. 1 or 2, mailed on receipt of price and two cent stamp. The Cook Company Windsor, Ont. For No. 1 and 2 sold and recommended by all responsible druggists in Canada.
No. 1 and No. 2 is sold in Rossland by Goodfellow Bros. and Rossland Drug Co.
