WEDDING BELLS AT CLARKE'S BEACH

Jerrett—Forbes

A well known young couple, Miss Minnie Jerrett, and Mr. Arch Forbes, of Messrs. Bowring Bros. dry goods, were united in matrimony at Clarke's Beach yesterday afternoon.

The ceremony was performed in the Methodist Church, Rev. Mr. Davies, of Cupids, officiating, assisted by the Rev. Mr. Jackson.

The bride wore a beautiful gown of ivory white satin trimmed with pearls. The gown had a full train. She also wore a veil and wreath of orange blossoms.

The bridesmaids were Miss Ethel Jerrett, cousin of the bride, and Miss Helen Leslie, cousin of the groom, both of whom were prettily attired; while little Miss Jerrett, niece of the bride, was flower girl. The groom was supported by Mr. E. Harvey, of this city.

The bride entered the church leaning on the arm of her father, W. H. Jerrett, Esq., and on reaching the church, Miss Pincock, who presided at the organ, played an appropriate march.

The church was filled with guests and friends, as the contracting parties are both popular and their acquaintances wished to see the ceremony performed which made the young couple one. Near the entrance an arch had been erected and the bride and groom passed under it.

The bride having been prominent in church circles, the choir was present and the wedding hymn "The voice that breathed o'er Eden" was sung during the service.

After the ceremony the guests repaired to the residence of the bride's parents where a reception was held. Mr. George Mackinson, of the Goules, was master of ceremonies, and filled the office to advantage.

The health of the bride and groom was enthusiastically toasted. The officiating clergyman in well chosen words proposed the health of the happy couple, to which the groom replied. He also proposed the health of the bridesmaids, and Mr. Harvey responded. The health of the bride's parents and the groom's mother was also proposed.

The groom's present to the bride was a cheque; to the bridesmaids gold earrings and a ring; to the flower girl a pendant, and to the best man a tie pin.

By the shore train last night the bride and groom arrived in the city, and were met by a number of friends. They drove to their home, Hamilton Avenue, where they will reside in future. The bride received a large number of presents.

The Daily Mail joins with other friends in wishing Mr. and Mrs. Forbes a long and prosperous journey through life.

The remains of the late Mrs. Garrett Hickey, of St. Kyran's, which left for home by train last week for interment, are still at Placentia, as owing to the ice blockade the steamer cannot leave.

Mrs. Hickey is also at Placentia. Mrs. Hickey had been married only a fortnight when she was obliged to come to St. John's for treatment, and she was called to her rest.

BRIGADE OFFICERS ACCEPT DECISION.

Governor's Ruling Accepted.—The Shoot For 1913 Called Off.

Monday Lt. Col. Rendell, C.L.B., Lt. Col. Conroy (C.C.C.) and Capt. McKay (Highlanders) met to consider the Governor's letter relative to the protest entered against Pte. Leo Kennedy of the C.C.C. shooting team.

It was unanimously agreed to accept His Excellency's decision which disqualified Pte. Kennedy.

In the order of events the cup should go to the C.L.B., that team being the next highest scorers and it was proposed to hand the cup to that corps.

Lt. Col. Rendell, however, considering the protest, preferred not to accept it, and it was then decided not to accept it, and it was agreed between the three officers to call off the shoot for last year.

Reichstag Is Defiant.

Adopts Resolution Favoring Supremacy of Civil Over Military Authorities

Berlin, Feb. 16.—The German Imperial Reichstag or Parliament, in order to demonstrate its indignation over the recent violent incidents between the military and civilians at Zabern, Alsace, has adopted by a large majority a resolution demanding government action to prevent the use of troops against citizens unless a requisition be first made by the civil authorities.

The House thereafter itself took the first step toward the adoption of a law to prohibit such occurrences in case the government should fail to act. A bill was introduced prohibiting absolutely the intervention of troops without a requisition and forbidding the use of arms by the military except in self-defence, to overcome actual resistance, to force the disarmament of armed persons or in the arrest of fugitives. The bill was referred to a special committee.

Another bill, drafted by the socialists, for subjecting the members of the army and navy to the jurisdiction of the civil courts, also was referred to a committee.

AMERICAN MANAGER CALLED 'UNDESIRABLE.'

London, Feb. 18.—That Henry W. Thornton, the new American General Manager for the Great Eastern Railway Company, be deported as an undesirable alien, was the proposition advanced to-day in the House of Commons by Will Crooks, the Labor member for Woolwich.

Members of the Liberal party have been greatly incensed by the demand put forward by Unionists for legislation to prevent such "alien desperadoes" as the labor leaders deported from South Africa after the recent general strike there, from being "dumped" into England.

A stormy protest filled the House, in the midst of which the burly member for Woolwich shouted out, "What about Thornton, the new manager for the Great Eastern? Is he an undesirable alien?"

SURVIVORS SUFFER FROM LONG EXPOSURE

Boston, Feb. 18.—Eight survivors of the Italian barque Castagna, wrecked at Cape Cod yesterday, were brought to the hospital here, all severely frostbitten and some probably maimed for life, as the result of five hours exposure in the rigging.

CLOUDBURST CREATES HAVOC IN SPAIN

Ovido, Spain, Feb. 18.—A cloudburst wrought havoc in the city of Ovido and the surrounding country. The lower part of the town was flooded and the residents were obliged to take refuge on the roofs of the houses.

In the country districts hundreds of cattle were swept away, houses collapsed, roads were inundated, and the tracks of both the Northern and East Uria railroad were washed away for a considerable distance.

The authorities have sent our urgent appeals for food, as many persons are destitute.

Will Disallow Immigration Act

Washington, Feb. 18.—The information that President Wilson would veto the Immigration Bill if it is sent him from Congress with the literacy test provision, amazed the members of the Senate and the Immigration Committee, and may of them confessed they were bewildered inasmuch as they are determined to retain the literacy test.

Their draft of the immigration measures as it passed the House was made under the impression that the President would accept the Bill if it passed the Senate.

The Durrett Immigration Bill provides a literacy test as the basis of admission of all aliens to the United States and under its terms immigrants must prove to the satisfaction of the authorities that they can read their own language.

William B. Wilson, the Secretary of Labor, has also recommended that the Bill be amended so as to compel all immigrants to submit to the physical test required of recruits in the United States Army.

An interesting session of the Committee is looked for to-day.

New York, Feb. 17.—Howard C. Butler, professor of art and archaeology at Princeton University, who has been conducting exploratory excavations at the ancient city of Sardis, in Asia Minor, reports having made some very interesting discoveries.

The party literally unearthed what is supposed to be evidence of the world's first industrial strike.

The record was an inscription in Greek, and was an agreement between the strikers and their employers, whereby the strikers went back to work under new conditions.

PACIFIC DOMINIONS PREPARED FOR DANGER

London, Feb. 18.—The Sydney, N.S. W., correspondent of the Telegraph reports the warning utterances of Sir Ian Hamilton, who is visiting that part of the Empire on a tour inspecting the legal defence system.

Sir Ian, speaking at a banquet, referred to the ever-present and formidable danger threatening the country by reason of its exposed position in the open Pacific.

This being the case, he said it was important for the people of Britain, South Africa and Canada to know that the peoples of the Pacific portions of the Empire were not waiting until danger actually arrived, but by their system of local defence were taking time by the forelock.
