

Two Questions

With so many low-priced so-called anti-skids obtainable, would that great host of motorists pay more for Dunlop "Traction" Tread if they could get its merits elsewhere?

Also, would that other large list of car owners buy "SPECIAL" if tires which somewhat resemble it in appearance resembled it in efficiency?

MURDER AND SUICIDE IN OTTAWA.

Ottawa, June 8th—Arthur P. Rodway, thirty years of age, employed as a clerk with the British American Rubber Company, here murdered Miss Myrtle Styan, daughter of Mrs. Mark Styan, at her home in Apartment No. 2, Federal Apartments. Last night by cutting her throat with a razor and then turning the weapon on himself, inflicting such injuries that he died a few minutes later. The tragedy is said to have been the result of the refusal of Miss Styan to accept to the request of Rodway to a marriage between them.

GERMANS MAY ATTACK FURTHER EAST—AMERICANS WILL CONTINUE TO BE IN THE FIGHT.

With the American army in France, June 7. Reports of recent heavy German train movements from the direction of Metz toward the St. Mihiel Salient has aroused discussion in the American expeditionary forces as to whether the enemy is planning an assault in the Woevre. Another place, which is likely to see more fighting is the sector around Mont Diar, where American troops recently captured Cantigny. It may be considered certain that whatever the future held the American forces undoubtedly will participate in some hard fighting.

NOTES FOR THE ANGLER.

(By Jack Pot (Sydney Post))

A few evenings ago I counted rods on the Mira and out of the half dozen not one weighed less than ten ounces and several over that figure, while one angler beat the air with a full-sized salmon rod. The biggest trout caught in these waters at any time would not scale more than six pounds, and for the life of me I cannot see what sport there is in catching trout of this size on gear almost strong enough to start a steam roller. A well-hooked fish has a one chance in a million fighting against such odds, and, after all, the sport of the game of angling is in matching one's skill against the struggles of a hard-battling trout. Take, for instance, a five pound salt water fish that rises and takes the fly attached to a light silk line and a rod weighing not more than six ounces. The angler in this happy position has encountered a foeman worthy of his steel, and the result of the engagement will be in doubt every minute until the speckled beauty is safe in the net.

Not so with the heavier tackle. With the latter it is only a question of main strength and holding on. The fish is hooked and with all possible despatch is reeled in and shoved into the creel. There is about as much sport in a game of this sort as might be had in jiggling flounders off the head of one of the city wharves. Some fishermen undoubtedly get a thrill out of sport of this kind, but to your simon-pure fly caster there is nothing in it. As for me I had rather fight one four-pounder on a four ounce rod than catch a boat-load of fish of the same size on salmon gear.

Fishing in the Newfoundland.

About the 15th of this month salmon are scheduled to run in the rivers of Newfoundland along the west coast of the colony. The early streams are the Codroys, Robinson's, Crabbe's and Fischell's. In these war days there is considerable red tape to be negotiated before fishermen from Canada can obtain entry into Newfoundland. Every male British subject between the ages of 16 to 45 intending to visit the Colony whether for business or pleasure must obtain a passport local men from Mr. J. A. Young, immigration officer, Post Office, Charlotte Street. This document must be decorated with a photograph of the permit holder, and must be filled in and countersigned by the immigration officer.

The traveller must also show proof he has been vaccinated within the past seven years and if new the vaccination must not be less than seventeen days old. A license to fish salmon costs \$10, and other outfit that fishermen usually take along, such as rods, cameras, etc., are taxed for customs at Port aux Basques, the latter monies being refunded before sailing on the return trip.

The Humber and Curling.

If you have a month to spare I would advise you to spend a couple of weeks at Curling Bay of Islands, where splendid sea-trout fishing can be had some fourteen miles out the bay, at the foot of frowning Blow-Me-Down, the highest mountain in the Island. The latter part of July and early in August is the best time to visit this place. The remaining fortnight could be spent on the lordly Humber emptying into Bay of Islands. A short run by motor boat up stream brings the angler to good camping ground at Steady Brook Falls, where salmon are to be had in abundance. Guides, camps and boats can be secured at Curling. If you wish to fish the Upper Humber you do not leave the train until arrival at Deer Lake station. One of the best spots on the river is Grand Falls, which can be made by easy stages inside of two days. There are a couple of portages, but they are easily negotiated.

KIDNEYS SO BAD WOULD FAINT AWAY THAT WAY FOR TWO YEARS.

Those who have never been troubled with kidney trouble do not know the suffering and misery which those afflicted undergo.

The dull pains, sharp pains, and quick twinges, all point to the fact that the kidneys require attention.

Doan's Kidney Pills are a specific for all kidney troubles.

Mrs. Albert Williams, Edam, Sask., writes: "I have the greatest pleasure in telling you what Doan's Kidney Pills did for me. Ten years ago I was so bad with my kidneys that I would faint away, and could not stand to do anything. I had been that way for two years, and had done all I could, but did not get any better until one day some one put a little book in our door, and I saw how another young girl had suffered like I was then, so I thought I would try them, and I am glad to say that after taking four boxes I have never had the same thing again. Thanks to Doan's." When asking for "Doan's Pills" see that you get the oblong grey box with the trade mark of a "Maple Leaf." Price 50c; put up by The T. Milburn Co., Limited, Toronto, Ont.

HEROISM OF GALLANT FRENCH SOLDIERS.

With the French army in France, June 3rd.

The Allies are now checking the German armies everywhere. Terrific struggles took place today when fresh German Divisions entered the line between the Ourcq and Oise rivers, trying with the greatest determination to enter the forest of Villers Cotterets. The town of Favelleres, on the edge of the forest, was retaken by the Allies, after the most fierce fighting in which the French displayed utmost heroism against superior numbers. Choisy Hill, north of the Aisne near Choisy Au Bac, was the scene of some terrific fighting. The heights change their hands five times and eventually was carried into an assault by a battalion which had distinguished itself at Douaumont in the defence of Verdun.

A cavalry corps executed one of the most brilliant performances of the war by marching 160 miles and immediately joining in the hottest part of the battle, where it fought off enemy attacks, causing heavy losses to the German.

HUNS WELL HELD ON DRIVE TO PARIS.

Paris, June 4th—The French stop the German drive toward Paris, it now may safely be said. This was forecast when the offensive began; it lasted just eight days.

The enemy movement is now splitting up into a series of battles for positions in which the French have the advantage of terrain. The region of Ourcq, where the enemy is making his greatest effort, forms roughly an arc into which he is marching. On the northern side of the arc is the dominating physical feature is the forest of Villers Cotterets and on the south three hills ranging towards the Seine around Cocheil. Both of these hills positions are held by the French. On the west the enemy is confronted by the obstacles formed by the rivers Ourcq and Savieres, so that he is held in on three sides.

600 MISSING FROM U-BOAT WARFARE.

New York, June 4—Between five hundred and six hundred persons were missing at sea today because of Germany's submarine warfare brought home to American shores. The passengers and crews of two steamers and two schooners were unaccounted for, their fate unknown.

MORE CAMOUFLAGE FOR THE GERMAN PEOPLE.

Amsterdam, June 4—The French resistance at Rheims appears to be highly unpleasant to the Germans, according to a semi-official telegram from Berlin. The message, which doubtlessly is intended for the ears of the credulous in Germany, tries to draw attention from the German failure there by plaintively upbraiding.

SAFE IN PORT.

Vineyard, Haven, Mass, June 4—The city of Columbus of the Savannah line, which it was feared had been sunk by a German submarine, is safe in an Atlantic port harbor.

BOAT PICKT UP.

New York, June 4—A British steam ship arriving here today from Cuba picked up at sea an empty boat of the New York and Portorico liner Carolina.

HUN CLOSING IN ON RHEIMS.

London, June 4th—The Germans have drawn their line closer round Rheims, and hold three quarters of an armed semi-circle.

S. S. TEXEL SUNK BY SURMARINES.

Atlantic City, N. J., June 4th—The steamer Texel was sunk by a German submarine Sunday afternoon sixty miles off the coast. The crew of 36 men landed here last night.

5 SUBMARINES ON AMERICAN COAST.

Norfolk, June 4th—Naval officers here last night said their reports indicated five German submarines had been operating along the Atlantic coast.

REPAIR WORKS DESTROYED AT ZEEBRUGGE.

Amsterdam, June 3—During the British aerial attacks on Zeebrugge, on May 30 the Dejaegher Works employed in repairing guns and assorted ammunition, were partially destroyed. Many soldiers and a few civilians have been killed in the frequent Allied air raids, which have greatly delayed the work of repairing the Zeebrugge sluices, which are still out of commission.

BIG SHIP BUILDING PLANT AT HALIFAX.

Montreal, June 3rd—The Gazette has the following despatch from Ottawa; of next importance to the announcement of the Government shipbuilding and the establishment of a steel plate mill at Sydney, N. S., is a statement authorized by the minister of Marine and fisheries, Hon. C. C. Ballantyne, that arrangements have been definitely concluded whereby ship building on a large and modern scale will be undertaken at Halifax forthwith.

HUNS TRADING IN CENTRAL ASIA.

London, June 3—The Germans steadily are pushing the tentacles of their economic control far into Central Asia, where they are buying up available crops, including cotton, and placing orders for many years ahead says the Daily Chronicle. The foundation of these developments is in the German control of Rumania and the Ukraine. "Control of the Rumanian and Ukrainian harvest would provide Germany, not only in this but in any future war with a complete solution of her food problem," the Chronicle adds.

TO BE RULED BY A GERMAN PRINCE.

London, June 3—A secret convention exists between Germany and Finland which is kept secret from the Finnish Diet, by which the Finnish government undertakes to establish a monarchy under a German dynasty and to place the Finnish army under German leadership, according to a despatch to the Times from Stockholm, quoting the Socialist newspapers Colitiken, which has sources of information among the independent Socialists in Germany.

FOCH AND PETAIN ABLE FOR THEIR JOBS—HUN FURIOUSLY ASSAULTING, BEING HELD.

Paris, June 3—An allied offensive maneuver is predicted by Le Matin and Le Petit Parisien. They express the conviction that Generals Foch and Petain, who proved offensive men in subordinate commands, will display the same qualities in the supreme command of the Allied and the French armies.

All the newspapers according to a Havas Agency review believe that he equilibrium seems to have been reestablished on all points of the front and that the fluctuations are growing less in extent.

The German assaults are still furious and violent while the French resistance is fierce and energetic with numerous strong counter-attacks. Sunday the French held the enemy in check and even forced him to withdraw for some points.

HUN U BOATS SUNK 12 IRISH FISHING BOATS.

London, June 3—Twelve of a fleet of thirty or forty fishing vessels, which left Irish ports on the night of May 30, were sunk by a German submarine says a Belfast despatch. The submarine suddenly appeared in the midst of the fleet and ordered the fishermen to take to the boats and row ashore. It then sank vessels by shelling them. The fishermen say the submarine was interrupted in its work and submerged, which probably prevented destruction of the entire fleet. The fishermen lost all their gear but there were no casualties.

NEWFOUNDLAND NEWSPAPER SUPPORT.

St. John's Nfld, June 3rd.—The government on Saturday, under the authority of the War Measures Act, suppress the Daily Star on a charge of printing articles calculated to interfere with the Conscription Act. The newspaper instituted proceedings against the police officers, who carried out the government orders for unlawful entry upon its premises. The case comes before the Supreme court tomorrow.

GERMANS ATTACKING RHEIM IN ANOTHER DIRECTION—BRAVE HEARTS SURE OF VICTORY ALL THRU FRANCE.

Paris, May 31—Baffled by the valor of the Allied soldier the Germans yesterday failed to enlarge greatly the pocket in the Allied line. Even in the centre, the enemy appears to have been held and the advance there is being checked. In accordance with the favorite maneuver the Germans apparently are swinging their columns eastward with the object of getting around Rheims thru Vill-en-Tardenois and the valley of the Ardre. The bastion constituted by the thinned city and the high ground known as the mountain of Rheims is a menace to the German flank. It is too strong to be attacked from in front with any chance of success so the enemy is trying to turn it from the southwest. While any progress by the Germans on French soil, with the inevitable trail of ruin and desolation, strikes, French hearts sorely, the unswerving confidence with which the general public views the situation is most remarkable. No doubt is felt as to the outcome and here is no weakening in the resolve to fight on to the end.

GERMANS PUSHING SOUTH OF SOISSONS—REIMS FRONT.

Paris, May 31—The Germans continued to push forward south of Fere-en-Tardenois, according to the latest advices reaching Paris, but neither Chateau Thierry nor Dormans have yet fallen into their hands. There is reason to hope that Chateau Thierry, the population of which has fled, will be saved. Chateau Thierry is ten miles south of Fere-en-Tardenois, while Dormans is six miles south of Vezilly. Both towns are on the river Marne. (The town of Fere-en-Tardenois is seven miles south of the Soissons, Reims front and is 44 miles north east of Paris.)

LONG RANGE GUN BOMBARDING PARIS TODAY.

Paris, May 31.—The German long range bombardment of Paris, was resumed this morning.
