A MODERN DRESSER.

Modeled on the Lines of an English Style.

the twentieth century marches its strenuous way one of the noceable characteristics of its progress is the development of taste for the antique, particularly in the line of furniture and artistic accessories for home decoration. Not that the antique design followed in all its detail; it simply erves as a model, and the product of modern ingenuity represents the best of the old type modified to meet the requirements and conform to the

tandards of the present day. With the increasing demand for antique furniture the decorative possibil-

MODERN DRESSER IN FUMED OAK.

ities of the old English dresser have come in for recognition, and examples are sought after with an eagerness that would have caused considerable surprise a few decades ago. Whether a genuine antique or a modified type. the dresser is seen at its best in a moderate sized room and with furniture that is in accord. Under such circumstances it makes an admirable substitute for the highly ornamented side board that has been so much in evidence during the past few years. As a medium for the display of a collection of old pewter or antique china or pewter ware a dresser modeled on the lines of the old English household treasure can hardly be excelled. The modern ex ample here shown in fumed oak is one of the best designs of its kind obtain able. The impression of strength and colidity requisite in a piece of furniture of this kind is enhanced by the

observable in modern taste with regard to furniture.

stout turned pilasters supporting the

upper and middle shelves and the

with the tendency toward simplicity

The design is also in keeping

A Culinary Wrinkie. The up to date housewife is not on to all the "culinary wrinkles" if she does not keep a pot of beef extract in her larder and possess the knowledge of how to use it. It is a mistaken idea hat extracts of beef are only of use n case of sickness. Of course they are of greatest value then, but they are also of inestimable value in the ordinary kitchen work, as the extract takes the place of meat and soup bones n soupmaking, supplies the foundation for gravies and meat sauces and also strengthens and flavors stews, curries and salads. A quarter of a easpoonful of the extract to a cup of boiling water and seasoned with pepper and salt makes a delicious and nt at all times, and by adding a thin slice of lemon to the boye and serving in bouillon cups you have a nice refreshment to offer an unexpected guest. Serve this with

The Business Woman, The question of women and matrimony, with an admixture of business, seems to a woman writer as a matter of personal taste on the part of the

nan in the case. Business never unfitted any woman for matrimony who was originally fitted for it. She can go through a business career without any loss of any kind. It rests entirely with her, and she can gain much which will be of incalculable advantage in making her life happy and that of the man who gets her. Business broadens her and gives her common sense or, to be more polite, more common sense.

A Cracked Mirror. A clever Brooklynite tried an ingenious way of concealing a crack in a handsome mirror which was one of her treasured family possessions. A clematis vine was painted on the mirror, completely concealing the crack. Drooping from this were white clematis blossoms, which were reflected in the mirror. The effect was charming,

of being a makeshift.

and the decoration gave no suggestion

Window Shades. In selecting shades for a house the olor of the material of which the house is built should be considered. Buff is a safe color, and all the windows should be provided with the colored shade. A suitable curtain for a hall door is made of heavy white lace shirred top and bottom on a small brass rod. If heavy lace is not used, such a curtain may be lined with thin India silk.

Bluing Clothes.

An experienced laundress says that the secret of turning out clothes properly "blued" consists in having the bluing water cold and the clothes put into it after being rinsed from water of the same temperature. Clothes wrung out of hot water and put into cold bluing water are apt to emerge streaked and of a poor color.

If you have a garment of eiderdown that requires washing, make a suds of lukewarm water and the best laundry

will bear frequent washing.

ONE MORE CURE IN CARLETON CO.

Postmaster Belyea Tries Dodd's Kidney Pills for Kidney Trouble

And Now He Joins all the Others in Praising Them-He Had Suffered For Years And Is Now Completely

Lower Windsor, Carleton Co., N. B.-Dec. 15.-(Special). - Carleton county people have long recognized Dodd's Kidney Pills as a sure cure for all forms of Kidney Disease, and as a consequence there is a marked decrease in the number of those suf-fering from Pain in the Back, Lum-bago, Rheumatism. Diabetes, Bright's Disease, and all those other ailments resulting from diseased Kidneys. Still as each fresh cure is report-

ed there is revived interest in the matter and there are more praises of Dodd's Kidney Pills. One of the latest cures reported is that of Post-master T. H. Belyea of Lower Windsor, and he is spreading broadcast

"I had a very bad spell of Kidney Trouble," says the Postmaster, "which had bothered me for some years. I tried several kinds of plasters and medicines, but did not seem to get much lasting relief. But hearing Dodd's Kidney Pills so highly recommended for Kidney Trouble, I thought I would try them.

"I received more benefit from Dodd's Kidney Pills than any other

soap. Put in the garment and wash thoroughly, but do not rub soap on it, as that causes it to shrink in spots. The best elderdown does not fade and will bear frequent washing.

CULINARY CONCEITS. Some cooks claim that a tablespoon

ful or two of strong tea will improve the flavor of apple pie. Powdered cinnamon dusted over the top of a cup of cocoa or chocolate will greatly improve the flavor of the bey-

To cream butter easily heat the bowl a little by pouring hot water in it and pouring it out again. It must not be not enough to melt the butter.

When mashing potatoes, use hot milk, and if you have been in the habit of using cold you will be surprised at the difference in their lightness,

The dish of baked beans will be improved if to the water that is poured over them as they are transferred to the baking dish a half teaspoonful of dry mustard is added.

When large potatoes remain hard inside while outwardly soft, add cold water. This prevents the outer portion from cooking too much, while the interior heat will cook the heart of the vegetable.

"Goldenrod toast" is the fanciful title given to this toast concoction: Make a rich white sauce and mix with it the diced whites of several eggs. Pour it hot over hot toast. Sprinkle the top with the grated yolks and serve at once.

Two Kinds of Independence. We have all met the girl with the independent air, who is apt to show a rebellious spirit when things do not go her own way. Not infrequently she is well educated and comes from a refined home. But this fact does not make her manner the less offensive. It is a good thing to have a little self confidence and courage, for these qualities are essential to success. But independence is a trait that is contrary to agreeableness and robs its possessor of that sweet amiability which is born from the virtue obedience. Every law of God and every law of nature is dependent on another law for support. The girl who thinks she can get along without cultivating the graces of gentleness, courtesy and kindness to others is making a sad mistake and will be anything but a success. Who knows how to obey well will rule equally well. Whether in the business or social world, the girl or woman who influences things for the best is the one whose bright disposition deems independence out of place where progress

Wall Paper.

is desired.

Don't put wall paper of warm, bright coloring in a south or west room or a cool paper of subdued tone in a north or east room. For south and west rooms the best colors are greens and blues, and in a room where there is plenty of sunshine a white wall paper often has a charming effect. For cold rooms facing north or east you can either have yellow wall paper or any tone of red or pink. Don't have a large patterned paper in a small room. For dining rooms and libraries the self colored ingrain papers are the most suitable. The surface being dull and rough gives them a subdued effect. For drawing rooms and bedrooms the plain tinted lining papers are the best, Don't have a frieze or a dado in a low pitched room. It seems to make it much lower than it really is. A patterned ceiling paper has the same effect; therefore in 40w rooms plain color washed or painted ceilings are preferable to any others.

Rules For Your Waitress. Wear silent shoes, practice quick but gentle movements.

Have clean hands, collar, cuffs, cap and apron. Never bang the door or leave

standing open. Have everything necessary at hand. Take minute care in details. Hand everything on the left side of

the guest. Carry all articles to and from the ta ble on a tray. Remove at once all articles done with.

Try to anticipate the needs of en ery one with water, bread, etc. Do not jingle the glasses, knives, etc. In moving about the room avoid knocking against the backs of the

Marriage as a Profession. Marriage for a girl is undoubtedly a profession, and a profession which requires an education. She must recognize how much depends upon her health and the health of those committed to her care; how much depends on her being a careful manageress of her household and of the money put into her hands for use for the welfare of others. Above all, she should be taught that wives and mothers are made, not born, and no girl should attempt to marry without having received some instruction in the science of housekeeping and of making money go as far as it possibly can.-Chicago Post.

Furniture Cream.

A tested recipe for furniture cream is the following: Put two ounces of beeswax and an ounce of castile soap in a jar with half a pint of cold water, and set it in a moderate oven till it is all dissolved and blended, stirring it occasionally during the process. When perfectly melted, let it stand till quite cold, when half a pint of spirits of turpentine and two tablespoonfuls of vin egar must be thoroughly stirred into

Ironing Handkerehiefs. In froning handkerchiefs it is useful to remember that the middle should be ironed first. To iron the edges first causes the middle to swell out like s balloon and makes it difficult to iron it satisfactorily. Test the iron carefully before using it. A piece of rag should be at hand for this purpose.
