

sides are three tiers of benches, while the body of the enclosure is taken up with camp stools, some twelve hundred in number. The tent is well lighted, and when the sides are made so as to keep out draughts, the place will doubtless be tolerably comfortable, although last evening not a few complaints of being chilled by the cold ground and the decidedly cold atmosphere. The service was opened by the Rev. Dr. Burns, who read a portion of the scriptures. Rev. Mr. Teasdale followed in prayer. Mr. Gerrard then sang a hymn, which was followed by a half hour address by Mr. McKillop. More singing and praying brought the meeting to a close. The address was listened to attentively and produced a marked effect upon some of the present. Mr. Gerrard's singing was much appreciated, his voice having much strength and volume. This evening another meeting will be held. Tomorrow afternoon the service will be conducted by the Y. M. C. A., the evangelists being engaged to deliver an assembly of Railway men at Richmond upon that afternoon. To-morrow evening, however, they will hold a meeting after the services in the city churches are over. Next week they will have regular meetings every evening at 7.40, and probably during the remainder of the month.

Between the salvation army and the evangelists, besides all the other numerous religious bodies, the spiritual wants of the community were well provided for yesterday. At the barracks of the former four meetings were held, commencing with the half-past breakfast shortly after daylight and concluding with the evening service an hour before midnight. More interest than usual was attached to these meetings on account of the presence of Staff Captain Morton and Mrs. Captain Morton, who arrived in the city on Saturday, making their first appearance on that day. The services are always lively, but those of yesterday were doubly so, the spirited and enthusiastic of the newcomers instilling fresh life and vigor into the meetings. The building was crowded at every service. Messrs. McKillop and Gerrard also met with much success. In the afternoon they addressed a large gathering of Railway men at Richmond, and in the evening held a service in their tent, which was filled to overflowing. In the afternoon the Y. M. C. A. had a meeting in the tent, in place of their usual service in the association hall. A number of city clergymen were present, several of whom addressed the meeting. Rev. Principal Grant delivered a stirring address. The immense throng which had assembled was very orderly and apparent enjoyment of the service was little. Prayer and conference meetings will be held every afternoon from 3 to 4 in the association hall, conducted by Messrs. McKillop and Gerrard. Services in the tent will be held every evening at 7.30. The public are cordially invited to attend both.

**RAILWAY NOTES.**  
Mr. C. Schriener, chief engineer of the L. C. R., accompanied by Mr. D. Pottinger, chief superintendent, A. J. Townsend, M. P. of Amherst, and J. Pope, Minister of Railways, leave by train Tuesday for a trip to British Columbia, for the purpose of inspecting the C. P. Railway. Mr. W. G. Robertson, agent at St. John station, went to Moncton this morning, and will remain in the office of the chief superintendent until Mr. Pottinger returns, which will not be probably before two months. Mr. Robertson will have charge of the station during the absence of Mr. Robertson.

It is expected that the new depot will be opened this week. All arrangements are being made for the removal of the wire and office furniture of the ticket agent and train despatcher. The old lamp, which formerly stood near the depot, has been placed at the end of the rail at the train shed.

It is now said that the new bridge across the falls will be formally opened to traffic on the 16th. Mr. Hogan, the contractor of the extension to the Falls, says that unless some mishap in the meantime occurs, his part of the bridge will be ready by that time. The difficulty experienced on the Strait Shore Road, by the sinking of the road bed, has been overcome and now the work is well in hand.

Petitions are being received daily at the State department praying that Riel's sentence be commuted. Other petitions praying that the law be allowed to take its course are being received from the Northwest. One of the latter says: "Your petitioners have been made aware that efforts are being put forth and petitions are being signed in the Province of Quebec for the purpose of having the death sentence on Louis Riel commuted. Your petitioners are convinced that the said Louis Riel had a fair and impartial trial, and should the verdict of the jury in any way be disturbed there will be great dissatisfaction in this country, and will be a grave danger of a recurrence of the treasonable acts of which the said Louis Riel has been convicted, and confidence in the Government of this country will be greatly shaken. We think also, however, that the interests of the Northwest and the interests of the world over, that criminals such as Louis Riel should be shown no leniency, as by leniency this year, he has set the laws of the Dominion at defiance by an armed insurrection, resulting in great expense to the country and the loss of many brave men's lives."

The Governor, Secretary of the Provincial Board of Health, arrived in the city last night from Montreal. He had a consultation last night with Dr. Robillard, the city medical health officer, regarding the precautions taken to prevent the spread of smallpox in this city, and left this morning for down the river to see that proper precautions are taken to prevent the disease arriving by that route.

**SMALL POX SPREADING IN MONTREAL AND ITS VICINITY.**  
MONTREAL, Sept. 9.—There was an increase in the record of deaths by small pox here yesterday, the number being 21 in the city, against 12 the day before. In the adjoining villages the mortality was 12. The city medical officers discovered a child last evening seated in the express with his mother, bound for Chicago. The train had left the depot, but it was stopped at the first station, and the car with the mother and daughter were taken back to the city. The greatest vigilance is manifested to prevent patients affected with the disease traveling by train or steamboat. The passengers on all trains and boats going inland are inspected by two doctors, and one goes in the train or boat for fifty miles as a further precaution. The Ontario health board has doctors at every station along the Grand Trunk, and five medical men here.

About 200 French-Canadian operatives employed by the Adam Tobacco Company, who struck rather than being wanted have been induced to return to work.

OTTEWA, Sept. 11.—Postmaster General Culling, in compliance with a second request from the Washington authorities, has ordered that all mail be despatched from Montreal for the United States be thoroughly fumigated. That there may be a delay through the process of disinfection, the mail-master will require to be posted a half-hour earlier than at present. It is feared that unless the demand of the United States authorities is complied with, mail arriving on the other side of the line from Montreal will be delayed.
