DISTRESSING ACCIDENT

Mr. Robert Wilkes and Two Children Drowned at Sturgeon Point

A Sad Holiday Tragedy.

The melancholy tidings of the drowning of Mr. Robert Wilkes, his only son and daughter, in Sturgeon lake, reached the city on Monday afternoon, and were received generally with feelings of deep regret. The deceased gentleman and his family arrived at Sturgeon Point hotel, which is about ten miles from Lindsay, on Saturday. About noon on Monday, while Bertie Wilkes, aged thirteen, and Florence, aged fifteen, were bathing in the lake opposite the hotel, the former got beyond his depth. Mr. Wilkes, who was in a row boat, went to the assistance of the lad, but not being able to reach him with an oar, jumped into the water. He succeeded in grasping Bertie, but both sank and did not rise again. The little girl, who was in the water, ran towards her brother when she saw him struggling, and she, too, disapprented.

she saw him struggling, and she, too, disappeared. The bodies were recovered and brought to the city on the eleven o'clock express last night.

A reporter boarded the train at the Don station and found Mr. McWilliams, the city solicitor, who was at Sturgeon Point when the accident occurred, and who accompanied the bereaved family on their sad journey home-ward. He said that about ten minutes to ward. He said that about the howling-twelve o'clock, when he was in the bowling-alley at Sturgeon Point, some one ran in and called out that there were people drowning in the lake. He, in company with several others, ran to the lake bank, and saw Mr. Crandell, the proprietor of the hotel, taking the body of a girl from the water. Some one on the bank cried out that Mr. Wilkes and his son were drowned. In a very short time half a dozen men were in the water trying to recover the bodies. Pike poles were called into service, but it was a considerable time before the bodies were brought to the surface. In the case of Mr. Wilkes and the boy life was entirely extinct, but it was thought that the life of the girl could be saved, as she had only been in the water a few minutes. Every means of resuscitation known to the nen at the hotel were resorted to, but it was found impossible to win her back to life again. Subsequently he learned that Mr. wilkes had taken several of the members of his family to the shore to bathe. They entered the water near the boat-house on the sand-bar in front of the hotel. Mrs. Wilkes and one of the nurses, with an infant, sat upon the bank watching the children, while Mr. Wilkes had a row boat, and was rowing upand down infront of the bathing place. Bertie was trying to swim. Approaching him in the boat, Mr. Wilkes called upon him to take hold of the stern of the craft. The little felow made an effort to do so, but as the bottom of the lake at this point makes a precipi-tous dip, he got beyond his depth and cried out. Mr. Wilkes tried to reach him with an oar, but could not, and then threw the oar towards him. The lad made an effort to

The surface, where he held him for several seconds. The exertion must have proved too great for him, as he sank with his burden and did not again appear. His daughter Florence, who was but a short distance away when the oy sank, waded out to assist him, but when she came to the sloping bank she too disappeared under the waters and was drowned. All this time Mrs. Wilkes sat upon the bank, so terrified that she was unable to move. Shortly after the body of the girl had been threw herself into the water, crying wildly that she wished to be with her husband. Mr. cWilliams caught her just as she was ent

McWilliams caught her just as she was entering the deep water, and leading her back to the shore, assisted her to the hotel. As the men were searching for the bodies the steamer from Bobcaygeon arrived. Mr. McWilliams asked Capt. Crandell to take the bodies to Lindsay impediately, which he consented to de. A telegram was despatched to Lindsay asking for the delay of the Toronto train. The bodies having been placed upon the steamer, Mrs. Wilkes, who was prostrated with grief, was assisted aboard with her family, and the steamer started upon the melancholy journey homeward. Arriving at melancholy journey homeward. Arriving at Lindsay coffins were procured and the three bodies were deposited in them. Mrs. Wilkes had with her seven children, two being in-fants in the arms of nurses. Upon arriving at Whitby they were met by Mr. and Mrs. at Whitby they were met by Mr. and Mrs. Robert McMaster, Miss Wilkes, and Mr. Fletcher, who had gone down from the city. At the Union station Captain McMaster, Mr. Charles McMaster,

and a number of friends were found waiting. As soon as the train stopped, Capt. McMaster entered the car and assisted Mrs. Wilkes to he platform, whence she was taken to a carage in waiting. Following were five little children, too small to realize the great calamity which had overtaken them, and beaind were the two nurses, each bearing an infant. As the living were driven away from the south entrance, the dead were taken quietly out of the western door, deposited in three hearses, and driven to the house of

mourning.

The deceased was born at Tullehan, near Bundoran, county of Leitrim, Ireland, in 1832, and came to Canada in 1848. In 1858 he engaged in the wholesale jewellery and fancy goods trade in this city, and in 1864 opened a branch establishment in Mont-real, both of which he conducted to within a few weeks of his death. In 1863 he married a daughter of Rev. William Cooke, D.D., London, Eng., by whom he had ten children, seven of whom are at present alive. He was a member of the Dominion Board of Trade and of the Council of the Toronto Board of Trade, a director of the Confederation Life
Assurance Association, of the Isolated Risk
Insurance Company, of the Muskoka Junction
Railway, of the Hand-in-Hand Mutual Fire Railway, of the Hand-in-Hand Mutual Fire Insurance Company, and of the Upper Canada Bible and Tract Societles. He was also a trustee of the Toronto House of Industry, a member of the General Conference of the Methodist Church in Canada, and a director of the Canadian Bank of Commerce. In 1874 he was a delegate to the Conference of the New Connexion Methodist body at Hanley, Staffordshire, Eng. He was first returned for Parliament in 1872, when he was elected the representative of Centre Toronto, He the representative of Centre Toronto. He was again returned for the same constituency at the general election in 1874, but in the following year was unseated, owing to the corrupt practices of agents. At the next election he retired in favour of Mr. John Macdonald. He took no further part in polisics, and gave his sole attention to business. He enjoyed the respect of the entire community, and his untimely end will be heard of with sorrow throughout the country.

LOST IN THE WOODS.

Two Days and Two Nights in the Upper

Ottawa, Aug. 15.—Five men from Quebec were recently engaged to go up the Ottawa to the Kippewa and work for Alex. Grant on the drive. On striking the Magnascippi river they went astray. This was on the 13th of July, and for two days they wandered in the wilderness seeking for some signs of civilization. They became so exhausted, not having anything to eat for two days, that they loft their packs in the woods. At the close of the second day they came to the same point at which they had started when first lost, and there is no telling what would have happened to them had they not met Patrick Quinn, who has charge of the limits of Mesars. AP. White on the Magnascippi. They were then eighteen miles from White's depot, and after being supplied with some provision were taken to the Kippewa and put on the right road for their destination. The manhad no money, and had never been up any of On striking the Magnascip ont astray. This was on the

Mr. Rose, accompanied by Mr. Stewart, one of the original proprietors of the mine, brought to town yesterday a magnificent bar of gold weighing eight hundred ounces. It is the product of the famous Rose lead at Montagu, and is said to have been obtained from 85 tons of quartz, and to represent the labour of fourteen men for six weeks.—

Halifax Chronicle.

A counterfeit \$10 bill, on the Ontario bank, was taken by one of our merchants last

A counterfeit \$10 bill, on the Ontario bank, was taken by one of our merchants last week. These bills bear the Peterboro's tamp, and the groundwork on the back is light green instead of dark. The mouth, too, of one of the vignette figures is badly executed. There are so many \$10 bills circulating in Collingwood that people should be specially careful.—Collingwood Bulletin.

With regard to the reported rich strike in the deep shaft of the Gatling gold mine, we are informed that the vein has been looking very much better during the last week, gradually widening until it has now reached fully six feet, the ore being thickly studded with free gold, nearly the whole of the "gang" being gold-bearing sulphurites of increased tichness.—Belleville Intelligencer.

Mr. Henry B. Doyle, of Vankleek Hill,

Mr. Henry B. Doyle, of Vankleek Hill died suddenly on Monday morning. He had been confined to his bed for the past six weeks, but was not supposed to be danger-ously ill. The remains of the deceased were intered at Aylmer. A large number of friends followed the remains from the Hill to Hawkesbury village. He was in his twenty-second year at the time of his death, and is regretted by a large circle of friends and associates.

The funeral of the late Mrs. Routley, who and funeral of the late Mrs. Routley, who died on Friday last, was very numerously attended. The pall-bearers were Messra. W. Ford, E. Chown, J. Shaw, J. Tucker, W. Strange, and C. Wright. Deceased, who was in her seventy-sixth year, was a native of Tiverton, England, and came to this country in 1841, having resided in Kingston ever since. She was very much respected. Her husband and a large family survive her.—Kingston News.

We take great pleasure, says the Emory (B.C.) Inland Sentinel, in announcing that the tlegraph line pole-fixers, under charge of Mr. Gisborne, have been along the Emory line this week. The poles are all good now be tween here and Yale, and we learn the work is being done could wall work of this point.

a "reform" that will meet with general approval, for certainly the line has been a public nuisance for many a day. Like the little joker under the thimble, now it's workingnow it's not, and vice versa.

Mr. H. O'Leary, Richibucto, has put up so far this season about 11,000 boxes of lobsters. The total packing for the summer of 1880 will be from 15,000 to 16,000 boxes. Mr. J. H. Bell, whose factory is on Richibucto Cape, has put up in the vicinity of 250,000 lbs. of lobsters this season. He will also have in the market about 200 boxes of canned mackerel. Mr. Bell employs about seventy-five hands, and some days the packing amounts to fully 5,000 lbs.

A furious whirlwind passed through Nassa-

and some days the packing amounts to fully 5,000 lbs.

A furious whirlwind passed through Nassaguaya, striking on lot 20 in the 7th concession, the property of Mr. Thomas Storey, who was getting in a load of hay. George Storey was building the load, when suddenly the wind whirled both him and the hay up in the air. His arm was broken by the fall, and he received other slight injuries. Mr. Storey is one of the pioneers of Nassaguaya, and says he never saw such a furious whirlwind in his time.

Mr. H. Mackenzie, farmer, of Warwick, sold 300 head of sheep a couple of weeks ago to Mr. Reese, of Kingston, who will ship them to the Old Country. They are an extra lot, and all of them were purchased in East Lambton by Mr. Mackenzie, who paid an average of from \$6 to \$7, and their average weight was 150 pounds per head. Mr. Mackenzie has 44 head of fat steers now in pasture, ready for shipment. Their average weight is 1,400 pounds per head.

The work on the Ontario Cane Sugar Company's factory at Tilsonburg is progressing rapidly. The whole arrangement of building and machinery is compact and handy, and if no unforeseen accident occurs the success of the company in this their first year is assured. They will have between 200 and 300 acres of amber cane to work up this season, which will enable them to thoroughly test the practicability of making sugar and syrup from sorghum on scientific principles at a profit.

A party of United States engineers have been making soundings of the Niagara river below the Falls. A lise, cast out as near to the Falls as they could be approached in a small boat, and near to the shore, gave 83 feet. Farther down the stream the line told off 100 feet, and at the inclined railway 192 feet. The average depth of the swift drift, where the river suddenly becomes narrow with a velocity too great to be measured, was 135 feet. Immediately below the bridge, where the whirlpool rapids set in, the depth was computed to be 210 feet.

A number of years ago Miss Christina

was computed to be 210 feet.

A number of years ago Miss Christina Young made a little amatory bonfire on the heart of Mr. Neil Campbell, of Cobden. The flame was subsequently extinguished by another lady, who married Campbell. Mrs. C. died, after giving several children to Canada, and left a wilderness of darkness to her husband. In his gropings after light, he remembered his first and earliest love, and sought her out. He found her in Ottawa full of delight at the proposal and last Wednesday married her and took her home.—Central Canadian.

A gentleman from Galt was here this work.

A gentleman from Galt was here this wee A gentleman from teat was nere this week prospecting about removing the boot and shoe manufactory of his firm to this town. He was favourably impressed with the location, and will make the town a written offer of the and will make the town a written offer of the terms on which they will remove. They employ not less than thirty-five hands. This would make quite an addition to the number of workmen in our town, and if they will make a reasonable proposition, we hope our council will make every effort to secure their location in our midst.—Walkerton Telescope.

Fred. Murphy, a little girl ten years old, and daughter of Mr. W. G. Murphy, of North Cayuga, while in the lane near the house was attacked by a rattlesnake and driven on the gate. She remained in that perilous position until the screams brought her mother and another lady to the rescue. When the snake saw them approach he coiled himself up for a spring, but Mrs. Murphy thrust a pitchfork through the make, preventing its springing, and after a severe struggle succeeded in killing it. The snake measured four feet in length and six inches in circumference and had six rattles.

measured four feet in length and six rattles.

The old Athenseum in Charlottetown, P. E. I., which has been closed for a long time, is about to resume a new lease of life, it having been leased by Mr. Harry Lindley, who is now transforming it into an Academy of Music. There is to be seating accommodation for about 800 persons. Four private boxes will be put in, each capable of containing six persons, and one of which will be specially adapted for state occasions. The alterations are being supervised by Mr. Lindley, and it is intended to open it with a stock company about August 22nd.

Rev. Thos. B. Brown and wife, of East Nissouri, celebrated their fiftieth wedding day, or "golden wedding," in an appropriate and pleasant manner on Monday, the 9th ult. There were present about two hundred relatives, friends, and invited guests. Among the relatives were ten children and fifty grandchildren. Among the invited guests were Revs. Bishop Carman, D.D.; E. Lounsbury, O. G. Collamore, J. Vanwyck, B. B. Rogers, J. B. Cutter, C. M. Thompson, H. A. Cook, T. Graham, J. Bloodsworth, and R. Hall, and prominent men from different parts of the county of Oxford.

For some time past American horse buyers have made Patratogenesh than here.

For some time past American horse buyers have made Peterborough their headquarters, and as a result have purchased a great many first-class teams. The kind wanted most are heavy draught horses for shanty work, and medium for street-car purposes. The last shipment from there was made last Tuesday by Mr. E. D. Wells and Mr. T. Cavanagh, who sent to Mr. C. H. Cook, lumberman, Montague, Muskegon county, Michigan, via Midland railroad, twenty-eight of the finest draught horses ever seen in Peterborough. They were every one sound in wind and limb, and without a blemish, and were all bought in this vicinity. The prices paid ranged from \$200 to \$300 per team, and their average weight was 2,650 lbs., the lightest weighing 2,390 lbs., and the heaviest 2,900 lbs.

A party residing near Dartmouth "lost" For some time past American horse buyer

2,390 lbs., and the heaviest 2,900 lbs.

A party residing near Dartmouth "lost" his first wife some years ago; since that time he has been married again, and living quite happy. This morning a well-dressed lady crossed over in one of the ferry boats and inquired of the captain where the party in question lived; she stated she was his first wife, and was given the information asked. The man has quite a grown-up family by this first wife, and many folks wondered very much why she left him, now nearly sixteen years ago. Where she has been ever since is a mystery to the Dartmouth people. No doubt it would be a great surprise to the man when he sees the first object of his affections. Many had thought she was dead, but now it appears she turns up, looking nearly as young appears she turns up, looking nearly as young and as well as ever. She is perhaps near the region of 50 years of age.—Halifax Recorder. An Ingersoll paper says:—"A larger number of farmers are enquiring for farms in the market than for the past four or five years."

This does not tally very well with the statement put forth by a western paper that Canadian farmers and others are leaving for the States at the rate of 60,000 a year. The fact is Ontario was never more attractive are States at the rate of 60,000 a year. The fact is, Ontario was never more attractive as a place of residence than at present. Land that can produce from 30 to 50 bushels of wheat per acre must be at a premium, no matter where situated, and it is not surprising that in view of the immense harvest now gathered in, Ontario farms should be the subject of brisk enquiry in the market. If the Grit papers were honest they would be compelled to admit that Ontario, in 1880, offers advantages to new settlers as good, if not superior, to any other part of the continent.

and others cannot exercise too much caution in attaching their signatures to paper, in matter for what purpose.

The fellowing report from Inspector Buchan, on Lindsay convent and Separat school, speaks for itself:—"Accommodation—Those of the girls (the convent) are excellent; those of the boys good. Equipment—The material equipment is very good; the staff is sufficient. Remarks—The girl Separate school (the convent) is in its usus satisfactory state; the boys' Separate school has improved very much under Mr. Whit and is now in a much better state than I have ver before seen it." In a previous report I spector Buchan stated that the class-rooms the Lindsay convent were the best in an school in Ontario. This year the Lindsay convent and Separate school passed nine of of fifteen candidates for third-class teached certificates, and have nine second-class hear from.

hear from.

An interesting event took place Monday morning at the Memorial church, London, when the Rev. J. B. Richardson united in the bonds of matrimony Ellie F., only daughter of Chas. Lilley, Esq., of London East, to Frank, third son of P. C. Barnard, Esq., of this city. After the ceremony the bridal party and guests adjourned to the residence of Mr. Lilley and partook of a sumptuous repast, and the happy couple departed at two p.m. for the east, amid the warmest congratulations of their many friends. The brideshmaids for the occasion were Miss Louise Parke, Hamilton, Miss Nellie Lilley, Grand Haven, Mich., both cousins of the bride, and Miss Georgie Sisson, of the latter place. The groomsmen were Messrs. Walder Parke, Hamilton, cousin; Frank W. Lilley, brother of the bride, and Geo. M. Anderson, of this city. The presents were numerous, handsome, and valuable.

For some time past Mr. E. D. Wells and

For some time past Mr. E. D. Wells and Mr. T. Cavanagh have been purchasing heavy draught horses to work in the shanties of Mr. Chas. H. Cook, of Montague, Muskegon county, Michigan. Yesterday afternoon these gentlemen shipped per the Midland railway twenty-eight of the finest looking horses ever seen together in this town. Every animal was perfectly sound in every respect, and when it is stated that they were all purchased in the vicinity of Peterborough, it speaks well for the kind of stock kept by our farmers. The prices paid were from \$200 to \$300 for each team. Before being shipped they were taken to the Market Square and were weighed by Mr. Doherty. The heaviest team weighed 2,900 lbs., and the lightest 2,390 lbs., the average being about 2,650 lbs.—Peterborough Review.

The Fenelon Falls Gazette says that sor time ago Mr. Alexander Rettie, sr., of Lot No. 14, in the 5th concession of Somerville, wanted a quantity of limestone, and as there was none to suit him on his own farm and was none to suit him on his own farm and plenty of a superior quality on the one adjoining, he communicated with the non-resident owner of lot No. 13, and ultimately purchased a five acre plot from him. In going over his new property, Mr. Rettie noticed that in making the track a large quantity of stone of a colour and description new to him had been turned up. It was pronounced grey marble of excellent quality, and is capable of sustaining a polish equal to that of the finished monuments in our village cemetery. Mr. Rettie showed us the marble on Monday, and as he says there is any quantity of it in and as he says there is any quantity of it the five acre lot he recently purchased, l expects the investment will prove a profitab

them knew what the cry proceeded from, they hastened in the direction from which it came, and found a moose lying on the ground with a bear on its back lapping the blood that flowed from its wounds. Mr. Braithwaite fired at the bear, the bullet passing through its body. Bruin then made for the thick woods badly injured, and Mr. Braithwaite fired again and struck him, but he managed to escape. When they returned to the moose they found its back was broken, and an end was son put to its suffering. Mr. Braithwaite says that the bear was the largest he ever saw.—Fredericton Farmer.

On Sunday evening, 1st inst., about six o'clock, Mr. John Connel, of Bartibogue, N.B., heard the bells of his cattle sounding as if the animals were running in the woods,

N.B., heard the bells of his cattle sounding as if the animals were running in the woods, and taking his breechloader, found that a large she bear with a year-old cub was causing the stampede. He shot the young bear first, upon which the old one came towards him, and with the remaining charge he dispatched her. The old bear is supposed to be the one that has killed nine cattle in that vicinity this year, worth \$100. Last year thirteen cattle were killed, the value of which was estimated at \$150. Mr. Connel killed another bear not long since, near Bartibogue, some ten miles up from the Bathurst road, where it is said some net fishermen had left suckers on the shore. Had he also caught the fishermen at their illegal work he would have doubtless given them a merited scare. Mr. James Connel has also killed a bear this season, at Bartibogue.

The catch of sturgeon has been very large this season, probably larger than any period for many years. This may be accounted for from the fact that several United States mer from the fact that several United States men have gone extensively into the business, employing a crew of men who are hard at work. Since these operations began they have been very successful in their fishing, as the arrivals thrice a week by the steamer David Weston clearly show. Each trip of that steamer brings an average cargo of about 25 cases, which on arrival are immediately transported to the International Steamship Company's warehouse, for shipment by their steamers to New York. The shippers have resorted to a new method of packing the fish; instead of an entire usage of cases, large barrels, equal in size to a lime barrel, have been brought into requisition, and to a great extent they save time and labour, as they can be more readily removed on the boat without the assistance of a truck. This business is a very productive one, and no doubt will be carried on while it remains so.—St. John Telegraph.

without the assistance of a truck. This business is a very productive one, and no doubt will be carried on while it remains so.—St. John Telegraph.,

The county buildings for Dufferin, says the Orangeville Sun, though pushed forward with great energy, will not, we fear, be completed in time to pass inspection and warrant the Lieutenant-Governor to issue the necessary proclamation erecting the new connty into a senior county on the 1st of January, 1881. The outer walls of the court house and gaol have reached the height to which they require to be raised; but the season is now well advanced, and much work remains yet to be done ere the buildings are fit for occupation. Men and money, however, can accomplish much, and the contractors, Messrs. Grierson & Dobbie, are men who will leave no stone unturned to fulfil their agreement with the Provisional Council. The registry office is going up rapidly, and Mr. Hewitt assures us will be completed before autumn, as agreed upon. All things considered, it is not quite probable that Dufferin will take its place on the map among the senior counties of Ontario with the opening of the new year.

On Thursday of last week William Gibbon,

with the opening of the new year.

On Thursday of last week William Gibbon, of the Beeches, township of Pilkington, near Elora, who suffered from paralytic stroke a few years ago, died from the effects of another seizure. Deceased was one of the early settlers in the township of Nichol, being associated with the late George Elmslie, Esq., in the purchase of the property known as the Bon Accord Settlement. He was born in the town of Collerlie, Aberdeenshire, Scotland, in 1800, and emigrated thence to Canada in 1843. He cleared fifty acres of land, afterwards purchased by George Elmslie, Esq., and after disposing of it purchased a farm from W. Wilson, Esq., south of the Grand river in Nichol. He afterwards moved into the village of Elora, where he acted as collector of moneys for Crown Land sales. After resigning this office he returned to a pleasant ten acre park lot near Elora, where he resided for several years. He leaves a widow and several children, and was buried in Elora cometery on Saturday last, many of the eld

Public Instruction has issued a circular giving the details.

The Whitby Board of Education have awarded contracts for the mason work, carpentering, painting, and tinsmithing for the enlargement of the Brooklin school, to the amount of \$2,472.

The Finance Committee of the Board of Education of Belleville recommended, at the last meeting, that several teachers have deductions made in their salaries for leaving their schools without permission.

At a recent meeting of the Napanee School Board the report of committee on teachers was called for, it having reference to alleged inefficiency of the High School. The committee, it appears, did not think it part of their duty to hunt up grievances, so at length the Board was brought to agree to defer consideration till after the report of the Inspector of High Schools had been received.

At a meeting of the Board of Education, At a meeting of the Board of Educati

At a meeting of the Board of Education, Kingston, a resolution was moved for the appointing of a committee to report, at the next meeting of the Board, upon the necessity of increased accommodation for the public schools. Something has been done, we believe, towards remedying the evil, but very much remains to be done. The mover of the resolution spoke very strongly on the matt stating that he has several children attend a certain school, and that their constant illness was, in his opinion, due to the over-crowding of the school. This over-crowding is now an old story in that part of the countries of the countr

In school section No. 1, Sandfield (Algon things are in a very unfortunate fix. The school taxes due last Christmas have not yet been collected, and the Township Council been collected, and the Township Counci has not money enough to pay the halance of the teacher's salary. He threatens, there fore, to go to another section unless his salary is paid at once. The difficulty in collecting this tax lies in the fact that many of the rate payers are unable to pay till after the har vest, so that the money could not be raised without selling out a large number of farmers. This the Council do not feel disposed to do and the Council are unable to borrow the money at the rate of interest fixed by law. There seems to be no way out of the difficulty, at least none has, as yet, been devised so the only thing for the farmers, teacher, and Council is to "grin and bear it."

Rumours have been in circulation in Lind

Rumours have been in circulation in Lindsay during the past few days to the effect that serious irregularities have occurred in connection with the third-class teachers' ex-Henry Braithwaite, who is well known to most of our readers by reputation as an excellent hunter, met with a singular adventure a few days ago. As he was returning from Miramichi Lake, accompanied by an Indian, he heard a strange cry about a quarter of a mile off through the woods. As neither of them knew what the cry proceeded from.

Say during the past few days to the effect that serious irregularities have occurred in connection with the third-class teachers' examinations in progress during the past few days to the effect that serious irregularities have occurred in connection with the third-class teachers' examinations in progress during the past few days to the effect that serious irregularities have occurred in connection with the third-class teachers' examinations in progress during the past few days to the effect that serious irregularities have occurred in connection with the third-class teachers' examinations in progress during the past few days to the effect that serious irregularities have occurred in connection with the third-class teachers' examinations in progress during the past few days to the effect that serious irregularities have occurred in connection with the third-class teachers' examinations in progress during the past few days to the effect that serious irregularities have occurred in connection with the third-class teachers' examinations in progress during the past few days to the effect that serious irregularities have occurred in connection with the third-class teachers' examinations in progress during the past few days ago. As he was returning from the revised version of the New Testament will not take place until the spring of 1881, when the Greek texts, which are being prepared for the revised version of the New Testament will not take place until the spring of 1881, when the Greek texts, which are being prepared for the revised version of the New Testament will not take place until the spring of 1881, when the greek texts, which are revised version of the New Testament will not t the Board, and after hearing the evidence and reporting therenpon, it was decided to reject the papers of three candidates. It would appear that matters in connection with the Board are not in a satisfactory state and require ventilation. The necessity of constituting the Board of Examiners in a different way is again demonstrated.

The Board of Education in New Brunswick have a regulation as follows: "The Chicago.

The Board of Education in New Brunswick have a regulation as follows:—"The Chief Superintendent shall forward to the secretary of the board of trustees of each district a semi-annual circular containing official notices, educational information, and especially a detailed statement of the provincial grants paid tow teachers, and the apportionment of the county assessment fund to trustees. These circulars shall be permanently filed by the trustees, and shall be accessible to teachers in each district." The circular issued in pursuance of the above contains, in addition to the detailed statement of provincial grants referred to in the regulation, the examination questions at the teachers' examinations, March, 1880, the additions to the list of New Brunswick plants, by James Fowler, M.A., and a valuable essay upon "Teaching Reading in Public Schools," by Alexander Melville Bell, F.E.I.S. The official notices and regulations follow, the whole making a handy and much-needed book of reference for teachers.

the whole making a handy and much-needed book of reference for teachers.

The discussion which has been going on between the London (Eng.) School Board and the Education Department of the British Government is one the determination of which may be instructive to us in Ontario, where similar difficulties may arise. The minimum fixed by Government in England for each child was 8 square feet. The Board schools, most of which were built upon plans which allowed 9, 10, 11, and 12 feet per child, were full upon the basis of that measurement. The Board then decided that they would admit additional children into their schools to such a number as would reduce the accommodation from the 9, 10, 11, or 12 feet originally designed to the official minimum of 8 feet. The Education Department objected to this being done, contending that the intended accommodation in each school should not be reduced by the Board. After some lengthened discussion, the Department has so far given way as to allow the proposed reduction in space per child wherever the Board can show that the schools in the neighbourhood have no vacant places. The view of the Board is a reasonable one, and there is no reason why, if 8 feet is fixed as the standard space required in each school, the Education Department should insist on another quantity as the required limit, simply because it was so stated in the plans.

FOREIGN. The French Government has ordered tha a course of instruction in agriculture be introduced into every primary school in the

country.

The Russian Minister of Public Instruction has decreed that no university under his jurisdiction shall henceforward admit a student who is married, and that students who get married after matriculation shall be expelled.

expelled.

The Emperor of Germany, upon receiving a despatch from the Czar of Russia announcing his escape from assassination, is said to have remarked:—"It is of no use for us to try to hold our places by force; we must depend on the control of the car The late Dr. Coit's gift of \$100,000 to Yale College is the second legacy, given to the College by a member of the class of 1825 during the last year, the other being of \$10,000 by the late Dr. John I. Abernethy to found a fellowship.

fellowship.

The proposition made in the London (Eng.) School Board to pay the head teachers salaries to be determined by the accommodation at the school, and providing bonuses for satisfactory results, was discussed, but no decision arrived at by the Board.

arrived at by the Board.

Mr. Ruskin has on two occasions sent to Whitelands College drawings for the college walls that the students may be trained to admire and know what is beautiful. On the first occasion he sent twelve coloured drawings of birds with their nests full of fledglings, and with their natural surroundings. More recently he sent five pictures, viz.: 1 (copy of) Turner's "Farewell;" 2 St. Ur-

sula and Four Saints; 3. St. Ursula's Dream; 4. Turner's Holy Island Cathedral; 5. Two Old Gates of York, by Prout. Old Gates of York, by Prout.

Gambetta says that the one thing of vital importance in the new commonwealth is the education of the girls of France up to the Republican ideal. He says that the best advisers he ever had—not alone as to the conduct of his private life, but in political—were good women whose minds were free from the shackles of sacerdotal tyranny. He considers it of vital importance to the new institution that the fullest justice be done to the girlhood of France. In accordance with these views, a special national system of instruction for girls has been provided for, and the large increase in the estimates for Public Instruction Budget (from 24,000,000 in 1876 to 30,000,000 francs for 1880) is in part to provide for this, and in part for the pension fund for teachers. When the first Napoleon was asked at St. Helena how France might be regenerated, his answer was, "By educating the mothers of France."

Mr. Brassey, M.P., Civil Lord of the Brit Mr. Brassey, M.P., Civil Lord of the British Admiralty, in a speech to the pupils of the school ship Conway on the 24th of June, remarked that the training on board of the ship was designed primarily to enable the officers of the mercantile marine to conduct their ships in safety from port to port; but with a class of men like sailors, who were so largely isolated from society, it was most desirable that the commanders should not only be skilful and brave, but also God-fearing men. Alluding to the accidents to the Eurydice and the Atalanta, by which six hundred lives had been lost, Mr. Brassey expressed the hope that, sad as were these disasters, the Admiralty would not be deterred by the apprehension of danger from sending young seamen to learn their profession where and when it could alone be learned—in daily conflict with storm and tempest. It is thus alone that experience could be gained.

GREAT BRITAIN.

At Derby Assizes, John Wakefield was sen tenced to death for the murder of a youn girl named Eliza Wilkinson, a hawker. Cresosted piles driven at Portsmouth, England, forty-two years ago, are as good above as below the water line, and have out-lived sixteen cuts from the same timber sub-jected to the same conditions, which were not

his displeasure.—The Echo.

Six murders and a full complement of cases of manslaughter make up an otherwise very heavy calendar for the Old Bailey sessions. In three of these cases insanity will be most successfully established, and in fact with regard to two of the prisoners they are too mad to be placed on their trial. A doctor and a nurse are included in the manslaughter indictments; and Mr. Sullivan, M.P., prefers his charge of libel against Mr. Callan, M.P., at these sessions.

Rev. J. Troutbeck, the secretary of the New Testament Company.

At a meeting of the Goldsmiths' and Silversmiths' Free-trade Association, Mr. E. J. Watherston presented the returns of the Board of Inland Revenue showing that the silver plate upon which duty was paid in the year ended March 31, 1880, amounted only to 638,6200z., or 101,6190z. less than last year. It was resolved to ask the Chancellor of the Exchequer and the President of the Board of Trade to receive a deputation early in November, with a view to obtain free trade legislation on the subject next session.

A curious, and to the persons interested, fortunate instance of the privilege of executors has occurred in England. In 1878 an old lady died at Brighton worth £11,000. By her will she gave legacies to the amount of £2,400, but no directions as to the disposal of her estate. The executors were her doctor and solicitor; to the former she left a legacy of £1,000, to the latter £100. On her death it transpired that she was illegitimate by birth, and there being no next of kin, the executors claimed the residue, about £8,000, and the Vice-Chancellor decided in their favour.

Vice-Chancellor decided in their favour.

A Parliamentary paper has been issued giving returns of the sums paid by England to the Porte out of Cyprus revenues, and a copy of the accounts of Cyprus previous to English occupation. For the year 1878-9 the sum of 7,402,625 piastres was paid by England to Turkey; and in the year 1879-80, the sum of 11,092,377 piastres was paid, plus £5,000. The receipts of the Porte in Cyprus in the years 1873, 1874, 1875, 1876, and 1877 amounted to 83,950,051 piastres, while the expenditure in the same year amounted to 64,304,946 piastres, showing an excess of receipts over expenditure amounting to 11,121, 952 piastres.

The house of Gladstone & Co., on the death of Sir John Gladstone, was represented by Mr. Robertson Gladstone, the only commercial man of the sons, who, in 1852, was Mayor of Liverpool. The strongest feeling of attachment subsisted between him and his brother William, whose political views he shared. During the memorable contest for South Lancashire the Premier was at the office in Orange Court all day, seated in a private room, quietly engaged in the translaprivate room, quietly engaged in the transla-tion of a portion of his beloved Iliad, while telegram after telegram arrived bringing news of the election. Since Robertson Gladstone's death his sons, and Mr. W. E. Gladstone's

third son, Henry, conduct the business.

Thus prattles a writer in the St. James's Gazette:—"Old Lady Cowper is dead, for which I sincerely grieve. Long ago, when fashionable beauties were unknown, nor even yet born to their strange estate, she was, though not to be confounded with the Lady Cowper who was afterwards Lady Palmerston, one of the greatest ladies in London society; grande dame she was then, and to the last. Like many more people that are commonly known to have that distinction, she could claim descent from Oliver Cromwell. But as there are thousands who are of the blood of the Plantagenets, so there are hundreds who are of the blood of the Cromwells, many of them in very poor and humble circumstances, And so of all great families which have their times and seasons, either in gross or in detail, or in both, altogether falling, or else reduced in some of their members. Yet it is something to descend from Oliver or Edward."

Edward."

The art world of England is just now profoundly excited. It seems that a number of American amateurs of painting are at the American amateurs of painting are at the present moment travelling over Europe and buying up, regardless of cost, whatever notable performance they can find. A famous New York restauranteur—who is he!—the Times says, offered 3,000 guineas for the Adoration of the Magi by Pietro Perugino. The art agent could not sell the work of the great Umbrian master, simply because it had been secured, though for a much smaller sum, by the State, and Mr. Colnaghi now/intends to demand an alteration of the terms agreed on in consequence of the American collector's interference, "Well, this "band of Yankee maranders," as one journal styles them, greatly to

engaged in gutting out the foundation of the building on Main street, Douglas, Scotland, known as the "Old Lodge." This building, which was very dilapidated, though tenanted, was purchased by Lord Dunglass about a year ago, and is now being rebuilt. Above the doorway a memento stone of the old building is placed, hearing the year 1674 and some hieroglyphics. The gold coins are very well preserved, most of them having been deposited in a jar. A handsome case is being prepared in which to have them preserved, and an opportunity will doubtless be afforded the antiquarian to examine them. The following is a list of the coins briefly detailed:—Nine Elizabethan shillings and fourteen sixpences; four English sold coins called the unit, five English shillings, two sixpences, and two Irish shillings of James I; four thistle merks of James VI., Scotland, dated 1601; two English half-crowns, fourteen shillings, and three sixpences of Charles I. reign; one small Scottish copper coin called a "turner;" six dollars of Albert and Elizabeth of Brabant, and seven quarter dollars; three dollars of Philip IV. of Spain, and one half dollar; one small coin of Charles IX. of Sweden, 1607; one small defaced and illegible coin.

LITERATURE AND ART.

Mr. Seymour Haden's essay on the "Etched Work of Rembrandt" appears as a supplement to the Gazette des Beaux Arts. The wooden coffin in which the remains of Kant are enclosed, being found to be decayed and broken when the vault at Konigsberg was lately opened, is to be replaced by a metal

one.

A "Catalogue of Books and Papers relating to Electricity, Magnetism, the Electricity, Magnetism, the Electricity, Magnetism, the Electricity, Telegraph, &c., including the Ronald Library," compiled by the late Sir France Ronalds, edited by Alfred J. Frost and issue by Spon, the English publisher, contains less than 13,000 entries, arranged alphabe cally, although it has no book of later issue than 1873, when Sir Francis died.

than 1873, when Sir Francis died.

Dr. Karl Hase's book on "Miracle Plays and Sacred Dramas," which will be issued this month, treats with great learning and in a very interesting manner the Mysteries of the Middle Ages, Polemic Plays and Echoes of the Mystery, Revival of the Sacred Drama in Spain, Occasional Traces of the Religious Drama in the French Classical Tragedy Hans Sachs and Lessing's "Nathan," the Church and the Theatre.

I used to know the late O. P. B. Linner

I used to know the late G. P. R. Jame I used to know the late G. P. R. James, whose novels at one time enjoyed a very large circulation. One day I called upon him, as we had agreed to go out somewhere together. I found him dolefully seated over a manuscript. He was not writing, but he was gazing at it with melancholy despair. I thought that he was ill, and asked him whether this was the case. No, he said, he was physically well. What, then, was the matter with him? I anxiously enquired. "It is my heroine," he answered; "I have got her into such a fix that I cannot extricate her without a slight violation of the rules of her into such a fix that I cannot extricate her without a slight violation of the rules of propriety." "Then let her be improper, and don't let us be late for the train," I flippantly said. "My dear friend," he replied, "do you want to ruin me? Are you not aware that I liveby never allowing my heroines to do anything to which the most stringent mamma might object? If once the slightest doubt were raised about my hovels being sound reading for the most innocent of school-room girls my occupation would be gone." And so we missed the train, but the heroine emerged from the pages of the novel a model of all that a heroine ought to do under difficult circumstances.—London Truth.

MUSIC AND THE DRAMA.

M. Adrien Marx, of Le Figuro, gives along and, in some respects, interesting account of Madame Patti's journey to her Welsh retreat, Graig y nos, or Swallow Castle, in Swansea Valley. It was the night of Patti's benefit at Covent Garden, and la diva beckoned him, he says, off the stage, and insisted that he should make one of the party. Accordingly, on the Monday morning they started from Paddington, Madame Patti and about a dozen friends, with an array of servants and other domestics. Madame Patti enlivened the journey by telling anecdotes. She told her guests how on her benefit night the Prince of Wales, who was present in the Royal box with his sons, was considerably perplexed because the young gentlement asked questions about the details of the plot of "La Traviata." They asked, "Why do they throw the money about to a long the funeral of a relative on Sunday, role

five languages—English, Italian, Spanish, German, and Russian. Her intelligence in idioms is such that after a residence of three months in any country she not only speaks the current dialects, but understands the subtleties and neologisms. Madame Patti continued:—"I believe that since the comcontinued:—"I believe that since the commencement of my career I have earned thirty millions of franca (£1,200,000 sterling) of receipts," i.e., for the impresarii. Nearly fifteen millions (£600,000), she said, she had earned for herself, and it had disappeared, except some little investments and her Welsh property. These figures must, however, be taken with a pinch of salt. Madame Patti said that her favourite opera was "Rigoletto," and her favourite musician Rossini; while, after some little hesitation, she said she had as incere admiration for Wagner. The rest of the story, which extends over nearly six columns, is made up of descriptions of the castle and grounds, of the reception, the fireworks, and so on. Madame Patti said she only wished the railway station were nearer the castle, the railway station were nearer the castle, and she expressed her determination to induce some of her friends in Parliament to interest some of her friends in Parliament to interest themselves in the matter. The story leaves off at the point where Mr. Kingston, who is described as the editor (but who is really the able Berlin correspondent) of the Daily Telegraph sat down at the piano and played the accompaniment to Madame Patti's singing of le chant populaire anglaise, "Home, Sweet Home."

SCIENTIFIC INTELLIGENCE.

Strychnine, when administered in heav doses to mammals, acts, according to M. Richet, partly like chloral and partly like

curare.

The German African Society has at present six different expeditions travelling through Central Africa. The money for these expeditions is obtained from the German Government or through private subscriptions. Dr. Nachtigatt is the president of the society.

Dr. Schmidt, of Gratz, has proved by experiment that sponges may be grown artificially at an estimated profit of 60 per cent. A sponge is cut into small pieces, which are fastened to a pile and immersed in the sea, where they rapidly grow into perfect sponges. The system has been adopted by the Austrian Government, and is being carried out on the Dalmatian coast.

An Englishman pamed Drake has inverted.

An Englishman named Drake has in An Englishman named Drake has invented a process for working over old steel, which is claimed to be only second in importance to Bessemer's invention, as the new metal possesses extraordinary strength and ductifity. The process consists in mixing up old steel with a patent compound, and subjecting the whole to an intense furnace heat, when the particles amalgamate. Steel made on this plan has been turned out at the Hunslet works and sold readily for £45 per ton. works and sold readily for £45 per ton.

In a paper read by M. Pasteur before the Academy of Sciences, Paris, on July 12, it was shown how the common earth-worm may be the means of propagating disease. The subject of the memoir was the etiology of anthrax. It is the custom to bury the body of a diseased animal wherever it may die, irrespective of the nature of the soil. When putrefaction advances the parasites are destroyed, but some infected blood and other liquid matter escapes into the earth surrounding the body, producing germs which may remain inactive for years, but which contain life capable of communicating anthrax when the opportunity presents itself. The germs are seen at the surface of the ground over the body of the animal, and they seem, says M. Pasteur, to have got there through the agency of earth worms. agency of earth-worms carrying them in their alimentary canal. The dust of the eart

"Zola's "Nana" has been dramatized and played at the Alhambra, Rome.

"Ozone" is the name of Nat Goodwin's new play, and "Now, what do you think?" is to be the "catch" expression in it.

W. C. Donaldson, of Toronto, left yesterday for New York to complete arrangements for a starring tour through Canada and the United States. He will'visit this city in November next.

A critic says that while Patti sings ballads, pronouncing each word clearly, her notes are so distinct and round that the hearer feels as if he could pick up each one and put it in his pocket.

Mille. Sara Bernhardt will sail from Havre on October 16, and will arrive in New York about ten days afterwards. She will remain six weeks only in New York, and will play the chief roles in her repertory.
